

SUBJECT :ARCHITECTURAL DRAWING AND GRAPHICS-I

TOPIC: DRAFTING SYMBOLS

PRESENTED BY: MOHD. SHAHROZ ALAM

WHAT ARE ARCHITECTURAL SYMBOLS

- **The architectural symbols are the symbols which are used in architectural drawing as annotation for different items like brick, concrete, doors, windows, plaster, furniture, landscape etc.**
- **These symbols are accepted world wide.**

DIFFERENT TYPES OF ARCHITECTURAL SYMBOLS

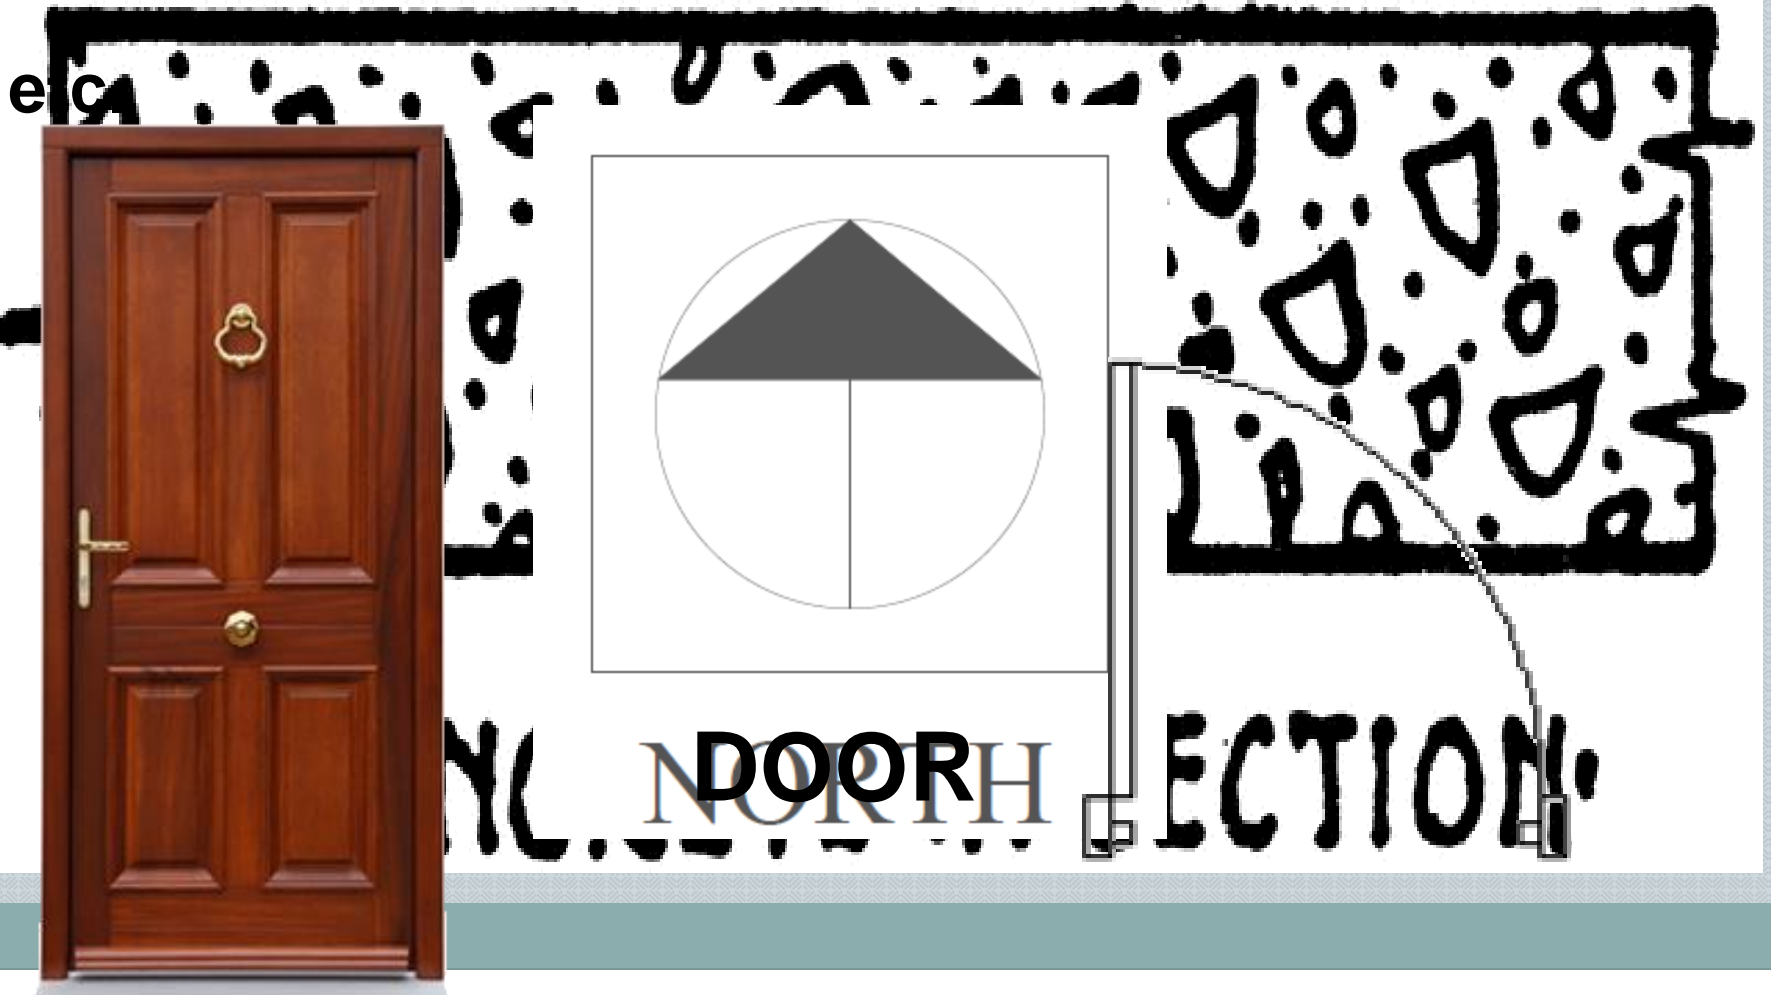

The architectural symbols are divided into three different types namely:

- *Material hatching*
- *Architectural symbols*
- *Sizes or standard of architectural items.*

Standardization of architectural items.

This includes the symbols which are used for works like materials like earth, gravel, concrete, stone etc, doors, windows, water, closet, wash basin, urinals

ASSIGNMENT

STUDENTS HAVE TO DRAFT ALL THE SYMBOLS DISCUSSED ABOVE.

TIP

*First draft in light pencil (h grade) after that final it with **HB** or **B** grade pencil.*
