PICNIC TABLE.

A strong and durable picnic table which seats up to eight. Designed to allow easy access for all including wheelchair users at table ends. Vandal resistant as the splayed frame makes it virtually impossible to lift the table out of the ground once installed. Oak frame with oak/chestnut sections. Table top height- 750mm. Seat height- 450mm. Length- 1.8m.

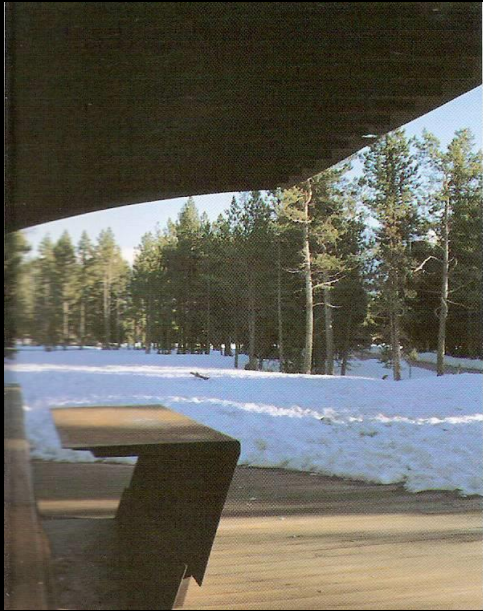

LECTERN FRAMES.

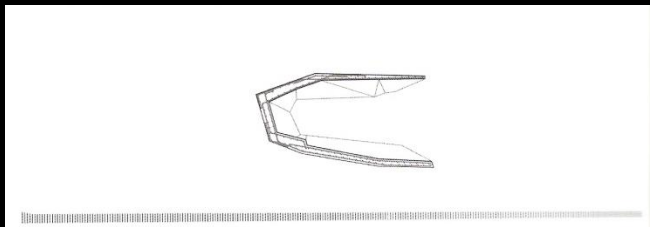

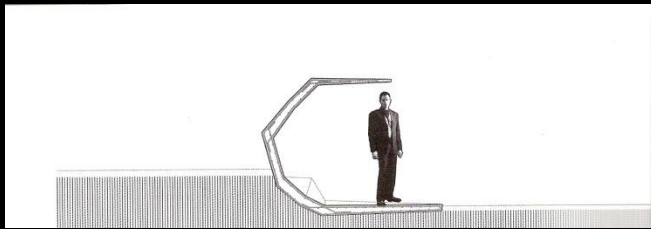

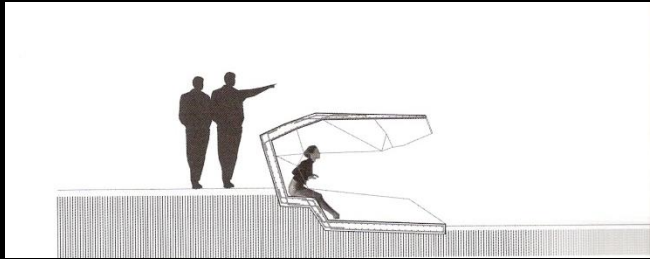

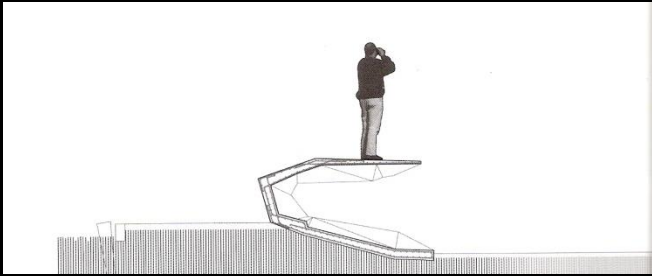

Oak frames and legs, a groove around the inside of the frame to house your information panel, printed onto plastic or metal sheets. One end of the frame is removable to allow the information to be replaced/updated. We can supply clear acrylic sheets to cover your information panels if required.

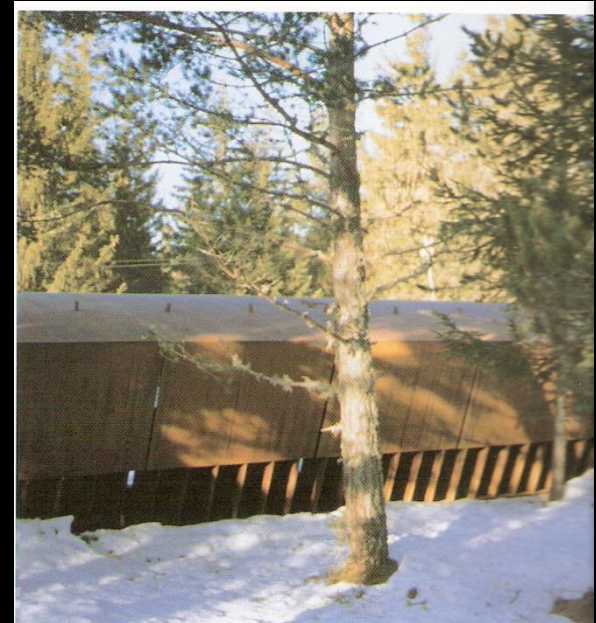

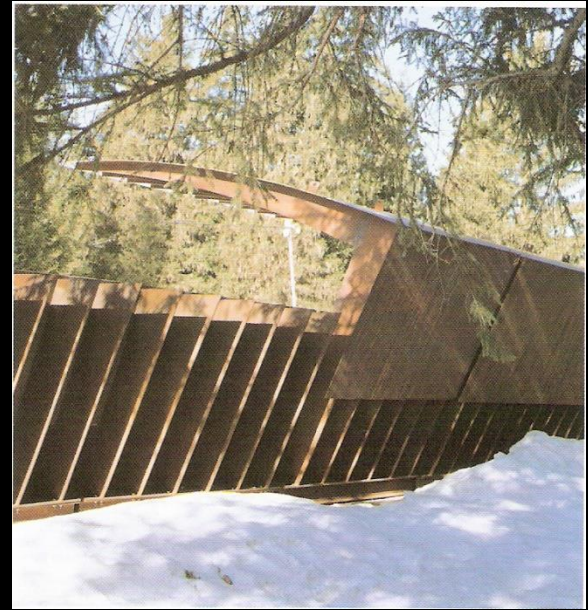

SHADES

ARTIFICIAL SHADES CAN BE USED IN LANDSCAPING DESIGN INSPITE OF LARGE FALLIAGE TREES MADE IN DIFFERENT MATERIALS LIKE WOODEN PANNЕLED OR IN CONCRETE CANOPIES.

Dustbins

**DUSTBINS ARE ALSO A
MAIN LANDSCAPE
FURNITURE ELEMENT
USED.**

SWINGS

MAINTAINING YOUR LANDSCAPE FURNITURE

Most furnishing is easily cleaned. It all depends on the materials used. For instance, plastic can be simply wiped down using soapy water and a sponge. Cast iron doesn't really show much, so it may also just need a wipe down. Timber and pine may need to be stained in color repeatedly. Also when giving your pavers and gardens a hose down that can also be carried out on your furniture, especially if it's a nice sunny day.
