

SCHOOL OF COMMERCE AND MANAGEMENT

CURRICULUM AND SCHEME OF EXAMINATION

(BBA Program)
BATCH: 2023-26

HOD
School of Commerce & Management
Lingaya's Vidyapeeth (FBD.)

FOREWORD

This is to certify that this booklet contains the entire Curriculum and Scheme of Examination of BBA-Bachelors of Business Administration being offered at school of Commerce and management at this University. This has been duly vetted and finally approved by the Board of studies vide its 24th meeting and Academic Council of the University vide its 25th meeting (Agenda items 24.5, 24.6, 24.8 and 24.9, 24.10) held on 4th July 2023 for Batch 2023-26 onwards and changes, if any deemed appropriate, shall be duly incorporated after the necessary approval by the Academic Council.

This Curriculum and Scheme of Examination of BBA has been implemented w.e.f. AY 2023-26.

This curriculum and Scheme of Examination of BBA will be implemented from 2nd year onwards of the previous batch i.e AY 2022- 2025.

LINGAYA'S
VIDYAPEETH

Preamble

The BBA is a three year program that is designed to create detailed understanding and awareness of various business systems. In other words, the BBA program will cultivate desired business acumen amongst the students. Within the structure of the program, the design draws on the choice-based credit system, ensuring that students get ample opportunity and options to expand their horizons of learning. This programme is designed with specific objectives of developing various skills, aptitude and awareness amongst the students in tune with the prevailing business systems that govern different types of business organizations. Interdisciplinary learning broadens and diversifies the skill set, complementing the management-oriented domain knowledge. The course structure is divided into three parts that are interlinked in a systematic manner. This is to maintain consistency and a continuous flow in the teaching-learning process and method of evaluation for each topic. The present programme will enable the students to foster entrepreneurial attitude, ability to think independently and take rational decisions at various levels of management. It aims to develop a professional and managerial acumen and leadership qualities amongst the youth. sixth semester will comprise of industry training and the students have to prepare a Professional Company Internship Project.

At a time when India is attaining recognition as a world economic power and when the availability of demographic dividend is increasing, there are various facets of business administration which have been incorporated into the curriculum. The cornerstones of the curriculum structure incorporates various skills like time management skills, presentation skills, geo-political awareness and business awareness that are required for managerial effectiveness. This programme predominantly endeavours for holistic development of students by providing training in soft skills, computer skills, various Add on Courses and interdisciplinary subjects which are included under the Choice Based Credit System (CBCS).

HOD
School of Commerce & Management
Lingaya's Vidyapeeth (FEO.)

Program Focus on Regional, National and Global Needs

In sync with the program outcomes The program emphasizes the development of core business knowledge in disciplines such as Business law, Computer for manager, Industrial relation and labour law, Corporate law, Business ethics and corporate social responsibility and Production and Operations management etc, the BBA program seeks to prepare talent which makes an impact at a gradient of levels, viz., from the local level, to regional level, to national and the global level. A few such courses are Business Organisation & Management, Global marketing, International Supply Chain Management & Logistics, Emerging Business Sectors & Technologies, Business Law, Corporate law, Business Ethics and Corporate Social Responsibility etc to Base the Pyramid of Program.

Program Focus on Environment, Human Values and Diversity

As a professional program, The BBA program aims at developing in the students a set of broad based competencies, an understanding of the social and human context and instil in them strong ethical values.

With increasing diversity at places of work, skills are required in order to uphold basic human values, as well as to respect our environment and the society. The curriculum includes a number of courses to address these requirements, a few of which are Business Organisation & Management, Business Communication, Organisational Behaviour, Industrial Relations & Labor Laws, Environment Science and Ecology, Human Resource Management, Project Management, Coaching, Counseling and Mentoring etc.

Program Focus on Ability Enhancement

Focusing more on outcomes, the BBA program will moreover focus on ability enhancement and is designed to provide students with a well-rounded skill set that goes beyond traditional business knowledge. The program recognizes the importance of developing practical skills, critical thinking abilities, and personal attributes to thrive in the dynamic and competitive business world. The courses have been designed so as to enhance the ability for employability, entrepreneurship and/or skill development. The broad goal of the BBA program is to provide the students a general education curriculum that provides learning in multiple disciplines along with in-depth knowledge of the management discipline. In this way the students are prepared to deal with complexity, diversity and change. the program encourages entrepreneurship and innovation. Students are provided with opportunities to develop an entrepreneurial mindset, explore innovative ideas, and understand the process of starting and managing a business and the statements delineating the outcomes of various courses indicate the thrust of the course, towards the specific type of ability. A few of these courses are Principles of Economics, Business Organisation & Management, Business Communication, Holistic & Professional proficiency, Business Ethics and Corporate Social Responsibility Summer Internship Project,, Credit Evaluation, Monitoring etc.

Vision of the Department

To be a school committed to develop globally competent management professions who are responsible citizens and have respect for life and sensitivity towards the environment

Mission of the Department

To be a centre of excellence for management education with an aim to: -

- To develop managers and leaders who have the right attitude and aptitude to serve the society
- To develop and maintain state-of-the-art infrastructure and research facilities to enable, create, apply and disseminate knowledge
- To foster linkages with all stakeholders for continuous improvement in academics in management.
- To develop human potential to its fullest extent so that intellectually capable and imaginatively gifted leaders can emerge who have deep respect for human life and value

School of Commerce & Management
Lingaya's Vidyapeeth (FBO.)

About the Department

The School of Commerce & Management stands out as a leading center of excellence for management studies. SOCM was established in 2004-2005 with a vision to create world-class managers, entrepreneurs, and change leaders who can create new benchmarks of professional excellence in the industry. The department offers six programs: BBA, B.Com (Hons), BMI (Integrated MBA+BBA), MBA, MBA Executive & Ph.D. In the dual specialization MBA program, we offer specializations in Human Resource Management, Marketing Management, Financial Management, Business Analytics and International Business, Operation & Management, Entrepreneurship & Small Business Management, Event & Media Management, Management Information System, Health Care Management. We will introduce more streams in the curriculum as per demand in the industry.

SOCM Pillars

Our essential strong pillars include our intellectual capital, a robust industry-oriented curriculum and the innovative learning delivery that provides training by industry mentors, industry visits, case study workshops and graded evaluation, live projects, workshops, seminars, conferences and corporate guest lectures. We have a separate career development cell for our students, which is to impart knowledge and skills and meet the human resources requirements of the industry. Not surprisingly, we have exemplary students and an illustrious alumni network spread across the globe.

Our faculty members are seasoned professionals and come with a rich industrial and academic experience. We ensure that students are abreast with the latest trends and technologies through our regular teaching-learning process and additional enrichment programs.

We are dedicated to the advanced quality of education with a futuristic outlook and enhanced and embedded employability certifications in every specialization. We have an excellent departmental library and a central library at the University. Inventiveness and transformation are the main characteristics of the School of Commerce & Management. We have developed rigorous syllabi that aim to create future managers to become outstanding entrepreneurs and business professionals

of tomorrow with the right attitude and analytical and problem-solving skills through experiential pedagogy. Programs in Management are the flagship amongst all programs of Lingaya's.

The Board of Studies, which comprises experts from IIM and other prestigious institutions, through their insight, help in ensuring that the syllabi are tailor-made to impart the requisite knowledge. The department also has a strong research focus, evident from an increasing number of research scholars who enroll in our PhD program every year.

The broad vision of the School is to strive to achieve excellence in management education, research, training and consultancy. Accordingly, the Programs offered have a significant component of working in real-world situations under the careful guidance of mentors.

The major programs offered at SOCM are:

S.No	Programme	Duration
1	BBA	3 years
2	B.Com (Hons.)	3 years
3	BMI - (BBA MBA integrated)	4.5 years
4	MBA-Dual specialization	2 years
5	MBA (Executive)	1 year
6	Ph.D.in Management	3-5 years

Program Educational Objectives (PEO's) of the BBA Program – These are broad statements that describe the career and professional accomplishments that the program is preparing graduates to achieve:

Program Educational Objectives	The graduating student is expected to.....
PEO1	Develop into socially responsible and value driven people who are committed to long term development.
PEO2	To make managerial decisions, develop a creative, imaginative and entrepreneur mentality
PEO3	Ability to adapt to a rapidly evolving, dynamic market climate and a desire to learn new skills.
PEO4	Provide advanced management skills for work and lifelong learning.

Program Outcomes (PO's) of the BBA Program– These are statements that describe what learners will know and be able to do when they graduate from the program. The intended outcomes are aligned with the educational objectives and are listed below

Program Outcomes	By the end of the program graduating students should
PO1	Business environment and domain knowledge: Accounting, Finance, Corporate Laws, Auditing and Taxation are all areas in which students should be well-versed.
PO2	Critical thinking, business analysis, Problem Solving and Innovative Solutions: Identify, formulate, and analyze business issues in order to draw long-term conclusions based on results.
PO3	Global Exposure and Cross-Cultural Understanding: Refresh students' awareness on how to adopt global business practices.
PO4	Social Responsiveness and Ethics: Incorporate social responsiveness and professional ethics into business management strategies and adhere to them.
PO5	Effective Communication: Communicate with all stakeholders effectively. Graduates should be able to communicate effectively both orally and in writing.
PO6	Lifelong Learning: Prepare for post-graduate and higher education, as well as professional success.

PSO's:	
PSO1	Achieve a solid foundation in the field of finance and accounting.
PSO2	Possess adequate knowledge skills and experiential learning in area of commerce education

Mapping Program Educational Objectives to Program Outcomes

PEO's	Program Outcomes(PO's)							
	PO1	PO2	PO3	PO4	PO5	PO6	PS01	PSO2
PEO1	1	1	1	3	1	1	1	1
PEO2	3	3	2	1	1	2	3	2
PEO3	2	2	3	2	2	3	2	1
PEO4	3	2	2	1	2	2	2	2

Semester System and Choice Based Credit System (CBCS)

Credit based system of study and student's performance/progress is measured by the number of credits that he/she has earned, i.e. completed satisfactorily. Based on the course credits and grade obtained by the student, grade point average is calculated

(a) Course credits assignment

Each course has a certain number of credits assigned to it depending upon its duration in periods for lecture, tutorial and laboratory/clinical practice in a week. A few courses/activities are without credit (s) and are referred to as Audit Pass Courses (APC) but are mandatory to pass as a partial fulfillment of award of degree.

(b) Earning of credits

At the end of every course, a letter "Grade" shall be awarded in each course for which a student has registered. On obtaining a minimum Pass Grade, students shall accumulate the course credits as Earned Credits. A student's performance shall be measured by the number of credits that he/she has earned and by the weighted grade point average. Grades obtained in the audit courses shall not be counted for computation of grade point average, however shall be mandatory to pass as a partial fulfillment of award of degree.

For the Award of Degree of a program- BBA, he/she has to earn a minimum of 144 credits during the 3 year duration of the program in 6 semesters.

The total credits required to be earned have been further classified under three baskets of courses: "Programme Core Courses Basket", "Discipline Specific Elective Basket" and "Education Basket". The total 114 credits required to be earned under Programme Core Courses Basket, 12 credits under "Discipline Specific Elective Basket" and 24 Credit "Education Basket"

All courses under "Programme Core Courses Basket", "Discipline Specific Elective Basket" and "Education Basket" are required to be qualified and cleared/passed by each and every student

enrolled under the program and are semester-wise listed in the study scheme along with credits assigned to each course.

Under Education basket course , there will be 6 types of courses:

- Semester-wise courses offered by the department itself
- Open/Inter-disciplinary courses offered at the Institute/University level notified from the office of Dean-Academics.

Each course shall have credits assigned to it. Student shall be required to register courses every semester for as many courses/credits specified under depending upon his/her interest, capability/pace of learning and availability of time slot (without any clash in time table) so as to earn all required total credits under the "Discipline Specific Elective Basket" during the entire program duration.

However, for registration of courses including courses under "Discipline Specific Elective Basket", "Programme Core Courses Basket" , and Education basket .Previous Semester Courses (wherein he/she was declared in-eligible on the basis of attendance or he/she could not clear the course within permissible given chances)].

School of Commerce & Management
Lingaya's Vidyapeeth (FBD)

Study Scheme

Program: BBA Program

Program brief-The BBA program is spread over Six semesters of **22-24 weeks** each. The courses covered in the first two semesters are designed to give an insight into the various functional areas of management, enhance communication skills and decision making ability. At the end of the fourth Semester , the students go for Summer Internship training with an organization spanning 3 weeks and in the last semester students have to go for Industry Internship Programme of 6 months. In the 4th and 5th Semester , the students shall take Discipline specific electives to specialize in a maximum of two functional areas. All Discipline specific elective packages, however, may not be offered, as this would be determined by the number (s) of students showing interest in specializing in different areas.

All courses are guided by course outcomes (CO) statements, indicating the knowledge, skills and attitudes which students should develop through the course. Each CO statement is mapped to the attainment of the program outcomes (PO). The degree of mapping between CO and PO statements is symbolized by the following:

Approved
25/08/2023

Dear Ma'am

Hope you are doing well.

It's my pleasure to inform you that Swayam - NPTEL/IIM Bangalore Local Chapter is established for Lingaya's Vidyapeeth.

Swayam is a program initiated by the Government of India. Swayam-NPTEL/IIM Bangalore offers online courses in different domains. All the courses are interactive, prepared by the best teachers in the country, and are available free of cost to any learner.

The courses hosted on SWAYAM/NPTEL are in 4 quadrants:

- (1) Video Lectures;
- (2) Specially prepared reading material that can be downloaded or printed;
- (3) Self-assessment tests through tests and quizzes;
- (4) An online discussion forum for clearing doubts.

The courses hosted on IIM Bangalore SWAYAM are in 3 quadrants:

- (1) Video Lectures;
- (2) Mid Term Exam;
- (3) End Term Exam;

The students will attend these courses along with their subject teachers so that the doubts can be easily cleared. The students achieving 40% in the attended online NPTEL Courses will be eligible for SWAYAM/IIM Bangalore certificate and will also earn 2 or 3 credits each subject respectively.

In this semester, we are opting 25% of the courses for NPTEL but January onwards we will make it 40% and earn the maximum most of these UGC offered Online NPTEL/IIMB Courses.

NPTEL/IIM Bangalore course is most important in exam point of view. It is 2 or 3 credit course and every student must be register in this course for given link otherwise there is no substitution for course enrolment.

MG N 101	Principles of Economics	L-T-P:3-0-0
-----------------	--------------------------------	--------------------

Course Objective:

1. Understand the basic principles and concepts of economics.
2. Analyze and evaluate individual economic decisions and their implications.
3. Explore the functioning of markets and factors influencing supply and demand.
4. Examine market structures and their impact on competition and pricing.
5. Discuss macroeconomic factors and policies affecting the overall economy.
6. Apply economic reasoning to real-world business situations.
7. Develop critical thinking and problem-solving skills through economic analysis.

Prerequisites:

A basic understanding of micro economics and macroeconomics and its related concepts would be beneficial.

Course Learning Outcomes: This course introduces students to the fundamental principles of economics and their applications in various business contexts. Students will gain an understanding of economic concepts, theories, and models that shape decision-making and resource allocation in a market economy. The course covers both microeconomics (the study of individual economic agents) and macroeconomics (the study of the economy as a whole). Through lectures, discussions, and real-world examples, students will develop a solid foundation in economic analysis and its relevance to business.

Unit 1: General Economics (5 topics + assignments)

- Definition and concept of Economics
- Nature of Economics
- Central Problems of Economy
- Economics Systems: Capitalism, Socialism
- Mixed economic system
- Assignment

Unit 2: Micro Economics

- Concept of Demand,
- Concept of Supply;
- Elasticity of Demand & Supply,
- Production; Production Functions,
- Factors of Production.
- Assignment

Unit 3: Markets & Price determination

- Concept of Cost
- Revenue Functions,
- Market Structures
- Monopoly, oligopoly, and monopolistic competition
- Price determination and Equilibrium
- Assignment

Unit 4: Macro Economics

- National Income Concept
- Determinants of National Income
- Measurement of National Income
- Role of Credit and Banking System in India,
- Rural Money Market
- Assignment

Unit 5: Money and Banking

- Functions of money and the Federal Reserve System
- Monetary policy and its impact on interest rates and the economy
- Commercial banks
- Money creation, and the money supply
- Role of central banks in regulating the economy
- Assignment

BBA-N-103	Accounting Fundamentals	L-T-P:3-0-0
------------------	--------------------------------	--------------------

Course Objective:

The objective of the course 'Accounting Fundamentals' is to develop a foundational understanding of accounting principles, concepts, and techniques necessary for effective decision-making in a business environment. It will also help to develop proficiency in using accounting software and technology to enhance efficiency and accuracy in financial record-keeping and reporting processes.

Prerequisites:

A basic understanding of accounting terms and concepts would be beneficial.

Course Learning Outcomes:

1. Demonstrate a comprehensive understanding of fundamental accounting principles, concepts, and techniques to analyze and interpret financial information accurately.
2. Apply accounting principles and techniques to record and summarize financial transactions using appropriate accounting software and tools.
3. Analyze and interpret financial statements to assess the financial performance, position, and liquidity of a business organization.

Unit 1: Introduction to Accounting

- Understanding the meaning, nature
- Functions and usefulness of accounting,
- Branches of accounting,
- Accounting equation,
- Accounting concepts and Generally Accepted Accounting Principles.
- Assignment

Unit 2: Recording of Transactions

- Concept of double entry
- Accounting cycle
- Underst Preparation of voucher, journal, ledger and trial balance.
- Preparation of subsidiary books including purchase book, sales book, purchase returns book and sales return books.
- Cash book, types of cash book and balancing of cash book.
- Assignment

Unit 3: Financial Statements

- Preparation of trading account
- Manufacturing account,
- Profit and loss account
- Trial Balance
- Balance sheet along with adjustments
- Assignment

Unit 4: Financial Statement Analysis

- Introduction and objectives of financial statement analysis
- Techniques-Ratio analysis, Comparative analysis with numerical on the same.
- Limitations of financial statement analysis.
- Purpose, use and structure of the Statement of Cash Flows
- Preparation of the statement of cash flows as per AS-3.
- Assignment

Unit 5: Company Accounts

- Introduction to shares
- Characteristics and types of shares.
- Accounting for debentures: Classification of Debentures.
- Differentiate Debentures from shares.
- Practical (related to preparation of accounts)
- Assignment

Text and References

BBA N 107	Business Law	L-T-P:3-0-0
------------------	---------------------	--------------------

Course Objectives:

- 1) To provide BBA students with a comprehensive understanding of the legal framework within which businesses operate.
- 2) To develop students' ability to identify and analyze legal issues and make informed business decisions.
- 3) To enhance students' knowledge of the legal environment and its impact on various business functions.
- 4) To foster an understanding of ethical considerations and social responsibilities in the business context.
- 5) To develop critical thinking and problem-solving skills through the analysis of legal cases and practical scenarios.

Prerequisite: -

Basic understanding of rules and regulations associated with any business at both company and individual levels. A business law attorney identifies laws related to business deals, administrative rights with the industry, and laws related to any organization's rights, order, and dispute settlement.

Course Learning Outcome:

The purpose of this course is to equip BBA students with a solid foundation in business law, enabling them to navigate legal complexities and make informed decisions in the business environment. By examining key legal concepts and their application to real-world scenarios, students will gain practical insights into the legal challenges faced by organizations. Additionally, the course will emphasize ethical considerations and social responsibilities that arise in business operations.

HOD

School of Commerce & Management
Lingaya's Vidyapeeth (FBD.)

Unit 1: Introduction to Business Law

- Overview of legal systems and sources of law
- Understanding the role of law in business
- Contracts and commercial transactions
- Legal entities and business structures
- Introduction to tort law and product liability
- Assignment

Unit 2: Legal Environment of Business

- Regulatory framework and compliance
- Intellectual property rights and protection
- Employment and labor laws
- Environmental laws and sustainability
- International business law and cross-border transactions
- Assignment

Unit 3: Business Contracts and Negotiations

- Elements of a valid contract
- Offer and acceptance
- Consideration, capacity, and legality
- Contract interpretation and remedies
- Negotiation skills and strategies
- Assignment

Unit 4: Managing Legal Risks in Business

- Legal issues in corporate governance
- Directors' and officers' liabilities
- Consumer protection laws
- Antitrust and competition law
- Risk management and dispute resolution
- Assignment

Unit 5: Ethics and Social Responsibility in Business

- Ethical decision-making in business
- Corporate social responsibility (CSR)
- Legal and ethical aspects of marketing and advertising
- Privacy and data protection
- Business ethics in a global context
- Assignment

Recommended Reference Books:

BBA N CS 01	Computers for Managers	L-T-P:3-0-0
--------------------	-------------------------------	--------------------

Course Objective:

The objective of the "Computer for Managers" course is to provide students with a comprehensive understanding of uses of computers and its applications in management. The course aims to develop the knowledge and skills necessary to effectively analyze and make informed decisions in complex and uncertain situations through the use of computer applications. Students will learn the fundamental concepts, tools, and techniques of computer applications and how to apply them in various management contexts.

Prerequisites:

A basic understanding of computer hardware and input output devices, basic computers would be beneficial.

Course Learning Outcomes:

- 1) Learning basic applications of computers which are used in managerial operations.
- 2) Becoming familiar with computer operating systems & database management systems and multiprogramming etc.
- 3) Learning computer networks, LAN, MAN, & WAN
- 4) Understanding and application of the Internet used in business and managerial operations.

Unit 1: Introduction to Computer

- Introduction to computers, Advantages, Disadvantages and Applications of computers, Block diagram and working,
- Evolution(Generations) and classification of computers(Mini, Micro etc),
- Common I/O devices and their characteristics.
- Primary and secondary memory: RAM and ROM, Hard Disk, Magnetic Tape, Optical devices, Flash memories.
- Computer software: Classification and Types, Generations of computer languages.
- Assignment

Unit 2: Operating System & DBMS

- Operating System : Functions, types - Multiprogramming,
- Multiprocessing, Timesharing, Real time, Online and Batch Systems, Booting process.
- Windows environment basics:- Desktop, Common Start menu options.
- DBMS Basic Concepts: Entity, Attributes, Keys, Relationship, Association, Database, DBMS, Data Independence,
- Three Level Architecture, Functions, Advantages and Disadvantages of DBMS.
- Assignment

Unit 3: Computer Networks

- Computer and communication networks, Evolution of computer networks,
- LAN, MAN, WAN, Network topologies , Modes of Data communication
- Wired Media of Data communication: STP, UTP, Coaxial,
- Fiber optic wires.
- Wireless Medium Technologies: VSAT, Microwaves, Bluetooth, WIFI
- Assignment

Unit 4: Basics of Internet

- Internet Basics: ISP, Web server, Web Browser, Domain names,
- Email, Mail server, search engine, web portal, other internet common terms
- Microsoft Word-File Handling, File Creation Retrieval,
- Saving & Printing, Edit Commands. Formatting- Paragraphs, Documents, Headers, Footers. Working with Tables.
- Inserting Graphics & Text Boxes, Advanced Functions- Mail Merge, Macro.
- Assignment

Unit 5: Microsoft Excel & PowerPoint

- Microsoft Excel- Creation of Spreadsheet Applications Using Worksheets & Work Books.
- Data Entry-Formatting, Editing, In built Functions,
- Working with Graphics Designing Charts,
- Graphs using Spreadsheets.
- Introduction to Powerpoint
- Assignment

BBA N GE 131	Principle of Marketing - I	L-T-P:3-0-0
---------------------	-----------------------------------	--------------------

Course Objective:

The objective of the "Principle of Marketing – I" is to equip students with the necessary skills and knowledge to effectively define, develop, and assess objectives in a variety of contexts. They will explore various methods and techniques for formulating objectives, establishing key performance indicators, and evaluating progress. By the end of the course, students will be able to critically analyze objectives, design actionable plans, and measure their achievement, thereby enhancing their ability to contribute to the success of organizations across different sectors.

Prerequisites:

A basic understanding of Marketing would be beneficial.

Course Learning Outcomes:

1. Understand key terms, topics, and concepts in marketing.
2. Understand and apply marketing concepts to real life situations from consumer and managerial perspectives.
3. Identify and analyze customer needs, wants, and preferences to create customer-centric marketing strategies.
4. Analyze consumer behavior and its impact on marketing decision-making.
5. Formulate effective marketing mix strategies, including product development, pricing, distribution, and promotion.

Unit I: Introduction to Marketing

- Basics of marketing: definition, scope and importance
- Marketing environment, Understanding customer needs and wants
- The marketing mix: product, price, place, and promotion
- Introduction to target markets and segmentation
- Marketing in daily life: examples and applications
- Assignment

UNIT II: Consumer Behavior

- Factors influencing consumer behavior
- Consumer decision-making process
- Segmentation, targeting, and positioning
- Ethical considerations in marketing
- Cultural and social influences on consumer behavior
- Assignment

Unit III: Product

- Product classifications
- Concept of product mix
- Branding, packaging and labelling
- Product life-cycle
- New Product Development Process
- Assignment

Unit IV: Pricing and Distribution Channels

- Significance and Factors affecting price of a product
- Pricing strategies
- Price Skimming vs. Penetration Pricing
- Distribution Channels
- Channel Conflict
- Assignment

Unit V: Promotion and Recent developments in marketing

- Promotion: Nature, importance and types of promotion
- Recent developments in marketing Social Marketing, online marketing, direct marketing, services marketing, Green marketing
- Communication channels: traditional and digital media
- Integrated marketing communications (IMC)
- Communication Channel
- Assignment

Text and References

List of different clubs

1) Markaizen Club of Lingayas (MCL)

"CONNECTING PEOPLE"

Introduction:

As the name suggests, MCL is a step forward to make the students opt for Marketing as a specialization to excel in their creative learning and thinking abilities. The club is formed as a platform for the students to showcase their individual talents as well as their collaborative participation in groups. The club intends to mix and match different activities and workshops for the students, which will be helpful in giving finishing touches to their grooming and sharpening their marketing skills. The sole objective of the club is to make students industry-fit and equip them for the competitive times ahead.

HOD

School of Commerce & Management
 Lingaya's Vidyapeeth (FBD)

Objectives of Club:

- To make students come up with creative thinking abilities in solving problems and marketing issues.
- To make students abreast of the current scenario and the happenings around the world in the marketing space.
- To groom the personality of the students and make them more self-confident in facing this world.
- To provide and teach them art and techniques related to marketing which would help them be industry ready
- To make students understand the importance of teamwork and make them realize their leadership qualities.

Vision: To represent and support an inclusive and vibrant student community in which members can expand their horizons with the new marketing trends, reach their full potential with the conceptual knowledge, and change the world around them with the help of marketing themselves in the hypercompetitive environment

Club Members- President, event coordinator, club coordinator

Activities

This club will bring students together through events, sponsorships, publicity, and awareness of LV hosted events providing opportunities for development and social interaction that are central to many students' college experience. This club can bring in promotion stalls for Fresher's Day. The club can also conduct events like Ad-Venture - Creating an Advertising Campaign, inquisitive- A quiz on Marketing, Market Encounter- A puzzle-based game the best managers would compete. Cracking Cliché-Designing a Marketing Plan given a company and unusual product, What's in a name? Controversy Suggesting a New name and Marketing Campaign (Controversial debates), role play, AD MAD Show

1) War of Brands

It can be a three-stage competition which can be organized by the Club and it is nothing short of a battlefield, wherein participants engage in ambush marketing to not only design campaigns for various brands but also market their ideas through social media platforms.

2) Ulta Pulta

It can be organized under the umbrella of "Jingstad" and as the name suggests, everything is in reverse. You think you know a brand, till we take it and completely change it to its polar opposite. This event is for the creative geniuses out there.

3) X-Marketer

The specialty of X-Marketer lies in its dynamism, as it changes its rules and formats every year. While its underlying principle is to test participants' acumen and creativity, X-Marketer presents itself with new twists for all Marketing experts on campus.

4) Touchstone

"Touchstone", can be a case study competition which can provide budding marketers across the country the stage to prove their marketing acumen by delving into the marketing and branding strategies for products and services. Past participants from other colleges can be included.

2) VAANIJYA: THE FINANCE CLUB

"LEARN TODAY EARN TOMORROW"

About the Club: Vaanijya - The Finance club is the fountainhead of knowledge and new ideas in the field of knowledge. The club fosters an environment of discovery of recent trends and developments in the field of finance and provides a comprehensive understanding of the finance industry.

Objectives

- 1) It imparts the knowledge of finance to the students in a very interesting manner.
- 2) To provide a comprehensive understanding of finance & economics.
- 3) To foster an environment among the students that encourages the continuous learning and discovery of recent trends in the area of finance.
- 4) To provide a platform to the students to bring out their best and improvise upon their concepts with a practical understanding.

Vision

To represent and support an inclusive and vibrant student community in which members can expand their horizons with the new trends in finance & economics, reach their full potential with the conceptual and practical knowledge to make them industry ready.

Activities:

Knowledge Sharing Sessions: Guest lecturers/ Webinars related to finance/economics/ commerce are organized by inviting speakers from academia & industry.

1) FinQ / BusinessQ

To equip students of various finance and economics concepts along with its relevant practices in the real world. This is the quiz series.

2) News Blast

A series to update students about the latest development in the finance and economics world. It comprises four sections, namely, Big Story, Economic, Market and Startup. Presentations about the latest developments in the economy & financial industry are given by students.

3) Budget Discussion

The Financial Budget of the country stands as one of the most important events of the entire year. It encloses the future ideas, plans and flow of the economy in the near future. The budget discussion focuses on a sector-wise presentation on key announcements & their impact on the sector, accompanied with an overall takeaway for various stakeholders of the economy.

4) Vaanijya Game

Puzzle games related to finance like Jumble Words & Newspaper Geek are there for students to check their knowledge in an interesting manner.

3) CONQUERORS-ENTREPRENEURSHIP CLUB

"PROFIT NINJAS"

The vision is to be acknowledged as a program of International renown, where students, faculty, alumni, industry and policy makers collaborate, learn, and innovate. The team comprises faculty from different functional areas and disciplines.

Objectives

Center for entrepreneurship aims to collaborate with faculty and fellows who have thesis topics on subjects related to entrepreneurship and innovation. The center will also collaborate with industry to develop research cases for further study. Main focus areas will be:

1. To Promote First Generation Businessman and Industrialists
2. To Create Awareness about Availability of Resources
3. To Promote Small, Cottage & Local Industries
4. To Encourage Self Employment Tendencies
5. To Provide Knowledge about Government Plans and Programmes
6. To Make a Successful Entrepreneur
7. To Provide Training to Operate Business

Vision

Center for entrepreneurship provides support to creation of new ventures opportunities, identifying resource requirements, assisting in resource acquisitions and managing new ventures in tie-up with Lingayas University.

Activities

Events: As part of a new initiative, the Center for Entrepreneurship will organize events that will give experiences and insights to help young entrepreneurs make a smooth transition from the idea to implementation. An Annual Entrepreneurship Summit is planned to be held every year.

Women Entrepreneurship Programmes

Center for entrepreneurship will conduct free one on one management consulting sessions for women entrepreneurs of areas nearby Lingayas Vidyapeeth, Faridabad. It will provide implementable solutions faced by these entrepreneurs in their ventures through problem analysis, research and brainstorming

4) VISVICT- HR CLUB

"PERFORM AND MAKE YOUR FUTURE"

The purpose of "HR Club" is to bring together students interested in the field of Human Resources Management, help them develop interpersonal skills needed in the corporate world. Encourage them to meet professionals who work in the field of Human Resources Management. This club is designed to help students learn more about Human Resource and what Human Resource Professionals do.

The club promotes the active participation of the students. The HR students take the lead in arranging the events. This enables the students to plan and arrange for the events successfully. The club activities are organized on a regular basis to promote the team spirit and implement the HR concepts practically.

Vision:

To foster highly proficient future Human Resource professionals with a humanitarian approach.

Objectives:

1. To enhance the skills and competencies of the members through sharing and learning.
2. To provide a forum for discussion and interaction and a platform for enhancing skills.
3. To make students understand what is expected in a real job interview and to improve the student's self-presentation.
4. Establishing contacts between HR managers in order to share the information and experience organizing and conducting the seminars.
5. To provide accurate instruction and realistic activities intended to stimulate discussion and provide the knowledge, skills and abilities necessary to perform HR roles and further an individual's career.
6. To continuously strive for academic and professional excellence in the field of HRM

Activities:

1. Recruitment and Selection Role Play

Round 1 consists of Aptitude Test on various management fields and current affairs where 50 objective questions are given and 50 minutes are allotted. This was a pen paper round. All the students attempted the test out of which 12 students were picked for the 2nd round based on the marks awarded.

Second Round: Group Discussion will be conducted to the 8 students on any selected topic. From this GD round 3 students shall be selected for the final round of recruitment process based on their performance.

Third Round: In Final round or Personal interview selected students shall answer the interview panel consisting of student co-coordinators.

2. Group Discussion Activity

The class will be divided into 4 groups consisting of 6-8 members per group. Topics which will be given to groups such as

1. Reservation for woman would help the society
2. What is most helpful for being successful in life knowledge, power or wealth...?
3. Impact of social media.
4. Indian culture vs. western culture. It will be an interactive section and groups shall share their perception about the topics.

3) Activity 3: 24

The 24-hour event where the contestants shall be asked to capture an image and elucidate their vision with a small write-up. Any theme will be given to students for this. Activity 4: HR Conclave

The one-day long signature event where eminent speakers from various backgrounds share their thoughts and experiences to the students. It also involves a panel discussion with industry experts and HR managers from different sectors engaging in creative conversations among themselves and as well as the audience.

4) Activity 5: HR Fest

Quiz Regarding various aspects of HR, HR policies, laws etc.

HR Slat-Making a play incorporating various HR policies and other things. A team plays a corporate

scenario, which shows the best practices of HR Crisis-Giving some crisis scenarios and judging them based on the solution they give.

Preparing Recruitment advertisement-

Outcome:

The club will promote the active participation of the students. It will help them in attaining interpersonal skills required in the corporate field. The HR students shall make an active contribution in arranging the event. The club enhanced the knowledge on Recruitment and selection process. Participation in group discussion will enable them to express their views on the latest topics. It also helps promote team spirit, decision making, and motivation.

5) ARPAN — THE CSR CLUB

At the School of Commerce and Management we believe that a truly successful organization is one that looks beyond serving its own interests to serve society. As we shape the business professionals and leaders of tomorrow, it is important to not only equip them with knowledge and resources, but also the spirit of service and civic responsibility.

At Arpan, the CSR Club of SOCM, we educate students on the symbiotic relationship between society and businesses. We create awareness on the need for—and the importance of—corporate social responsibility, and emphasize the future role of students in the same.

The Club's activities are designed to help acquaint students with societal issues. Students are also taught to work in teams and develop social leadership to address the problems of the day. The aim is to help students work and lead businesses that play a strong social role.

BBA N 102	Organisational Behaviour	L-T-P:3-0-0
------------------	---------------------------------	--------------------

Course Objective:

The objective of the course Organisational Behaviour is -

1. To familiarize the students with the basic concepts of individual behaviour and organizational behaviour
2. To enable the students to catch an idea about inter- personal and group behaviour

Prerequisites:

A basic understanding of Organisational Behaviour will help to acquire knowledge regarding the organizational change and organizational development and it would be beneficial.

Course Learning Outcomes:

1. Understand the different concepts of Organisational Behaviour
2. Analyse individual and group behaviour
3. Understand and deal with organisational change, development and stress

Unit 1: Organizational Behaviour

- Meaning and Features of OB
- Nature and Scope of OB
- The Basic Assumptions of OB
- Major Disciplines and their Contributions to OB
- Concepts of Strategic Organisational Behaviour and International Organisational Behaviour.
- Assignment

Unit 2: Individual Behaviour

- Perceptual process, factors influencing perception, perception and individual decision making
- Learning – concept and significance of learning, factors influencing learning, major models of learning – classical conditioning,
- Operant conditioning, cognitive learning and social learning
- Behaviour modification
- Personality – concept, types, determinants, individual differences
- Assignment

Unit 3: Group

- Concept of Group Dynamics
- Features of Group and Types of Group Behaviour
- Formal and Informal Group Behaviour—Group Norms-Group Cohesiveness.
- Teamwork- Types of Teams-Team and Building-Team Roles
- Team Norms- Team Cohesiveness.
- Assignment

Unit 4: Motivation and Leadership

- Motivation- Concept, Theories-Maslow's
- Herzberg's and McGregor's, X and Y theories)
- Financial and Non Financial Motivation
- Leadership- Types—Theories (Trait theory
- Michigan Studies and Fiedler's Contingency Model)
- Assignment

Unit 5: Stress Management

- Meaning, Types of Stress— Causes of Stress Consequences of Work Stress
- Conflict and Types of Conflicts
- Levels of Conflict, Conflict Resolution
- Organisational Development—Meaning, Need, Benefits and Limitations
- Steps in Organisational Development - Organizational Changes.
- Assignment

BBA N 104	Industrial Relations & Labor Laws	L-T-P:3-0-0
------------------	--	--------------------

Course Objective:

The objective of the "Industrial relations and labor laws" course is to provide students with a comprehensive understanding of industrial relations and how to establish and maintain industrial peace along with safeguarding the interests of both workers and management. It helps to avoid industrial disputes

Prerequisites:

A basic understanding of Industrial relations and principles and Parties involved would be beneficial.

Course Learning Outcomes:

Be acquainted with the concepts, principles and issues connected with trade unions, collective bargaining, workers participation, grievance redressal, and employee discipline and dispute resolution. Understand the various processes and procedures of handling Employee Relations.

Unit 1: Overview of Industrial Relations

- Concept of Industrial Relations
- Nature of Industrial Relations
- Objective of Industrial Relations
- Importance of Industrial Relations
- Parties of Industrial Relations
- Assignment

Unit 2: Trade Unionism

- Origin and growth
- Unions after independence
- Concept, objectives and functions of Trade Union
- Role of Trade Union in collective bargaining
- Problems of Trade Union
- Assignment

HOD

School of Commerce & Management
Lingaya's Vidyapeeth (FBD.)

Unit 3: Workers Participation in Management

- Meaning of Workers Participation in Management
- Collective Bargaining, meaning, nature
- Methods of collective Bargaining
- ILO and its role
- Tripartite approach in industrial relations
- Assignment

Unit 4: Labour legislations

- Payment of Wage Act
- Workmen's Compensations Act
- Importance provisions of Employees' State Insurance Act
- Employees provident Fund Act
- Maternity Benefit Act
- Assignment

Unit 5: WELFARE OF SPECIAL CATEGORIES OF LABOUR 9 (5 topics + assignments)

- Child Labour and Female Labour
- Contract Labour and Construction Labour
- Agricultural Labour and Differently abled Labour
- BPO & KPO Labour - Social Assistance
- Social Security and Implications.
- Assignment

Text and References

1. Industrial Relations - Ramaswamy

(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 106	Corporate law	L-T-P:3-0-0
------------------	----------------------	--------------------

Course Objective:

1. To introduce BBA students to the legal framework governing corporations and business entities.
2. To provide students with an understanding of the legal aspects of corporate formation and management.
3. To develop students' ability to identify legal issues and risks in corporate operations.
4. To equip students with practical knowledge of corporate compliance and regulatory requirements.
5. To foster critical thinking and problem-solving skills in the context of corporate law.

Prerequisite: Basic understanding of the nature of corporate governance as personified by share ownership, capital market, and business culture rules differ, similar legal characteristics and legal problems exist across many jurisdictions. Corporate law regulates how corporations, investors, shareholders, directors, employees, creditors, and other stakeholders such as consumers, the community, and the environment interact with one another. Whilst the term company or business law is colloquially used interchangeably with corporate law, the term business law mostly refers to wider concepts of commercial law, that is the law relating to commercial and business related purposes and activities. In some cases, this may include matters relating to corporate governance or financial law.

Course Learning Outcomes:

1. Understand the legal framework governing corporations and business entities.
2. Identify legal issues and risks in corporate operations.
3. Analyze the legal responsibilities of directors, officers, and shareholders.
4. Comply with corporate laws and regulations.
5. Apply critical thinking to address complex legal scenarios in a corporate context.

Unit 1: Introduction to Corporate Law

- Overview of corporate law and its importance in business operations
- Types of business entities: Sole proprietorship, partnership, and corporation
- Legal aspects of corporate formation and registration
- Corporate personality and limited liability
- Ethical considerations in corporate law
- Assignment

Unit 2: Corporate Governance and Shareholder Rights

- Roles and responsibilities of directors and officers
- Rights and liabilities of shareholders
- Board of directors' composition and functions
- Corporate governance best practices and codes
- Minority shareholder protection
- Assignment

Unit 3: Corporate Contracts and Business Transactions

- Legal aspects of contract formation and enforcement
- Types of corporate contracts: Agency, partnership, and joint venture
- Mergers, acquisitions, and corporate restructuring
- Securities regulation and insider trading
- Legal considerations in international business transactions
- Assignment

Unit 4: Corporate Compliance and Regulatory Requirements

- Corporate meetings and resolutions
- Statutory requirements for financial reporting and disclosure
- Corporate social responsibility (CSR) and environmental regulations
- Intellectual property protection for corporations
- Anti-corruption and anti-bribery laws

➤ Assignment

Unit 5: Corporate Litigation and Dispute Resolution

- Legal remedies for corporate disputes
- Arbitration and alternative dispute resolution methods
- Directors' and officers' liability and indemnification
- Corporate fraud and white-collar crime
- Emerging trends in corporate law
- Assignment

Recommended Reference Books:

HSS - 106	Business Mathematics	L-T-P:3-0-0
------------------	-----------------------------	--------------------

Course Objective:

The aim of the course is to build knowledge and understanding of Business Mathematics among the students. The course seeks to give detailed knowledge about the subject matter by instilling them with basic ideas about Business Mathematics. The outcome of the course will be as follows – To provide knowledge about Mathematics and its use in business. To make able about mathematical calculations. To learn about the use of set theory and calculus in business.

Prerequisites:

There is no specific prerequisite required however a basic understanding of mathematical operations, calculation ability would be beneficial.

Course Learning Outcomes:

1. Apply the knowledge of Mathematics (Algebra, Matrices, Calculus, Optimization) in solving business problems.
2. Demonstrate mathematical skills required in mathematically intensive areas in Commerce such as Finance and Economics.
3. Understand the important role Mathematics plays in all facets of the business world. Understand the use of equations, formulae, and mathematical expressions and relationships in a variety of contexts.
4. Demonstrate critical thinking, modelling, and problem-solving skills in a variety of contexts.

UNIT – 1 : Average, Ratio and Proportion, Percentage

- Percentage & Average,
- Ratio and Proportion,
- Mathematical Series Arithmetic,
- Geometric & Harmonic,
- Simple Interest & Compound Interest
- Assignment

UNIT - 2 : Simultaneous Equations

- Meaning,
- Characteristics,
- Advantages & Disadvantages
- Types and Calculations,
- Preparation of Invoice
- Assignment

UNIT - 3 : Matrix

- Matrix: Introduction : Square Matrix, Row Matrix,
- Column Matrix, Diagonal Matrix, Identity Matrix,
- Addition, Subtraction & Multiplication of Matrix,
- Use of Matrix in Business, Mathematical Induction.
- Inverse of Matrix, Rank of Matrix,
- Assignment

UNIT - 4 : Profit & Loss

- Profit and Loss,
- Commission,
- Discount,
- Selling Price
- Loss
- Assignment

UNIT - 5 : Set Theory

- Set theory: Notation of Sets : Singleton Set, Finite Set,
- Infinite Set, Equal Set Null Set, Subset,
- Proper Subset, Universal Set, Union of Sets,
- Intersection of Sets, Use of set theory in business,
- Permutation & Combination.

(A Deemed to be University u/s 3 of UGC Act, 1956)

CE-108	Environment Science and Ecology	L-T-P:2-0-0
---------------	--	--------------------

Course Objective:

It aims to provide a comprehensive understanding of the intricate relationships between living organisms and their surroundings, equipping students with the knowledge to address pressing environmental challenges and promote sustainable practices for a harmonious coexistence between humans and nature.

Prerequisites:

Prior familiarity with basic biology and chemistry concepts is recommended for studying Environmental Science and Ecology, along with an eagerness to explore complex ecological systems and an interest in finding sustainable solutions to environmental issues.

Course Learning Outcomes:

1. **Comprehensive Understanding:** Develop a holistic perspective of environmental systems, enabling B.Com students to analyze and interpret ecological interactions, natural resource management, and environmental impact assessment.
2. **Sustainability Integration:** Equip students with the ability to integrate sustainable practices into business operations, demonstrating an awareness of environmental considerations and ethical responsibilities.
3. **Problem Solving:** Cultivate critical thinking skills to identify, assess, and propose effective solutions to contemporary environmental challenges, fostering informed decision-making within the business context.

UNIT – 1 : Introduction to environmental studies

- Multidisciplinary nature of environmental studies
- Scope and importance
- The need for environmental education.
- Concept of sustainability
- sustainable development
- Assignment

UNIT - 2 : Ecosystems

- What is an ecosystem?
- Structure: food chains, food webs and function of ecosystem:
- Energy flow in an ecosystem, nutrient cycle and ecological succession.
- Ecological Interactions.
- Case studies of the following ecosystems: a) Forest ecosystem b) Grassland ecosystem c) Desert ecosystem d) Aquatic ecosystems (ponds, streams, lakes, rivers, oceans, estuaries)
- Assignment

UNIT - 3 : Biodiversity and Conservation

- Levels of biological diversity: genetic, species and ecosystem diversity;
- Biogeographic zones of India;
- Biodiversity patterns and global biodiversity hotspots
- India as a mega-biodiversity nation; Endangered and endemic species of India ,
- Threats to biodiversity: Habitat loss, poaching of wildlife, man-wildlife conflicts, biological invasions;
- Assignment

UNIT - 4 : Biodiversity and Conservation

- Nature reserves, tribal populations and rights (Niyamgiri-Vedanta, POSCO),
- Human wildlife conflicts in the Indian context (Sundarban-Human-Tiger encounters).
- Ecosystem and biodiversity services
- Ecological, economic, social, ethical, aesthetic and Informational value.
- Conservation of biodiversity : In-situ and Ex-situ conservation of biodiversity.
- Assignment

UNIT - 5 : Environmental Pollution and Global Environmental Issues

- Environmental pollution: types, causes, effects and controls; Air, water, soil and noise pollution.
- Climate change, global warming, ozone layer depletion, acid rain and impacts on human communities and agriculture
- Nuclear hazards and human health risks (Chernobyl, 3 mile Island, Daiichi- Fukushima)
- Solid waste management: Control measures of urban and industrial waste, special reference e-waste, Biomedical waste.
- Pollution Tragedies: Love canal, Bhopal Gas, Endosulfan, Minamata and Flint water
- Assignment

LINGAYA'S VIDYAPEETH
 (A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N GE 132	Principle of Marketing - II	L-T-P:3-0-0
---------------------	------------------------------------	--------------------

Course Objective:

The objective of the subject "Principle of Marketing – II" is to provide students with a deeper understanding of advanced marketing concepts and strategies. This course aims to equip students with the skills and knowledge necessary to develop effective marketing strategies and make informed marketing decisions. By delving into topics such as market segmentation, targeting, and positioning, product and brand management, pricing strategies, and integrated marketing communications, students will enhance their ability to analyze market dynamics, identify customer needs and preferences, and create value for target markets.

Prerequisites:

A basic understanding of pricing strategies and marketing communication is beneficial.

Course Learning Outcomes:

1. Apply advanced marketing concepts and techniques to develop effective marketing strategies for diverse target markets and business scenarios.
2. Analyze market dynamics, conduct market research, and evaluate market trends to make informed marketing decisions.
3. Apply product management principles to effectively manage product portfolios, develop new products, and build and maintain strong brands.
4. Utilize pricing methods and strategies to determine optimal pricing decisions based on market conditions and competitive factors.
5. Develop integrated marketing communication plans that incorporate advertising, public relations, sales promotion, and digital marketing techniques to effectively reach target audiences.

Unit I: Marketing Strategy and Planning

- Introduction to marketing strategy and its role in organizational success
- Strategic planning process and components
- Environmental analysis and market assessment
- Setting marketing objectives and strategies
- Marketing planning and implementation
- Assignment

Unit II: Market Segmentation and Targeting

- Market segmentation: concepts and approaches
- Evaluating and selecting target markets
- Developing positioning strategies
- Target market identification and profiling
- Customizing marketing strategies for specific segments
- Assignment

UNIT III: Product and Brand Management

- Product life cycle and product portfolio management
- New product development and innovation
- Branding strategies and brand equity management
- Managing product lines and product mix
- Product differentiation and positioning
- Assignment

UNIT IV: Pricing Strategies and Tactics

- Pricing objectives and strategies
- Factors influencing pricing decisions
- Pricing methods and approaches
- Price adjustment strategies and tactics
- Pricing in different market structures
- Assignment

UNIT V: Integrated Marketing Communications (IMC)

- Understanding the role of IMC in marketing
- Advertising strategies and creative development
- Sales promotion techniques and campaigns
- Public relations and media relations
- Digital marketing and social media strategies
- Assignment

List of different clubs

1) Markaizen Club of Lingayas (MCL)

"CONNECTING PEOPLE"

Introduction:

As the name suggests, MCL is a step forward to make the students opt for Marketing as a specialization to excel in their creative learning and thinking abilities. The club is formed as a platform for the students to showcase their individual talents as well as their collaborative participation in groups. The club intends to mix and match different activities and workshops for the students, which will be helpful in giving finishing touches to their grooming and sharpening their marketing skills. The sole objective of the club is to make students industry-fit and equip them for the competitive times ahead.

Objectives of Club:

- To make students come up with creative thinking abilities in solving problems and marketing issues.

- To make students abreast of the current scenario and the happenings around the world in the marketing space.

- To groom the personality of the students and make them more self-confident in facing this world.

- To provide and teach them art and techniques related to marketing which would help them be industry ready

- To make students understand the importance of teamwork and make them realize their leadership qualities.

Vision: To represent and support an inclusive and vibrant student community in which members can expand their horizons with the new marketing trends, reach their full potential with the conceptual knowledge, and change the world around them with the help of marketing themselves in the hypercompetitive environment

Club Members- President, event coordinator, club coordinator

Faculty In charge:

ASSISTANT PROFESSOR

Activities

This club will bring students together through events, sponsorships, publicity, and awareness of LV hosted events providing opportunities for development and social interaction that are central to many students' college experience. This club can bring in promotion stalls for Fresher's Day. The club can also conduct events like Ad-Venture - Creating an Advertising Campaign, inquisitive- A quiz on Marketing, Market Encounter- A puzzle-based game the best managers would compete. Cracking Cliché-Designing a Marketing Plan given a company and unusual product, What's in a name? Controversy Suggesting a New name and Marketing Campaign (Controversial debates), role play, AD MAD Show

1) War of Brands

It can be a three-stage competition which can be organized by the Club and it is nothing short of a battlefield, wherein participants engage in ambush marketing to not only design campaigns for various brands but also market their ideas through social media platforms.

2) Ulta Pulta

It can be organized under the umbrella of "Jingstad" and as the name suggests, everything is in reverse. You think you know a brand, till we take it and completely change it to its polar opposite. This event is for the creative geniuses out there.

3) X-Marketer

The specialty of X-Marketer lies in its dynamism, as it changes its rules and formats every year.

While its underlying principle is to test participants' acumen and creativity, X-Marketer presents itself with new twists for all Marketing experts on campus.

4) Touchstone

"Touchstone", can be a case study competition which can provide budding marketers across the country the stage to prove their marketing acumen by delving into the marketing and branding strategies for products and services. Past participants from other colleges can be included.

2) VAANIJYA: THE FINANCE CLUB

"LEARN TODAY EARN TOMORROW"

About the Club: Vaanijya - The Finance club is the fountainhead of knowledge and new ideas in the field of knowledge. The club fosters an environment of discovery of recent trends and developments in the field of finance and provides a comprehensive understanding of the finance industry.

Objectives

- 1) It imparts the knowledge of finance to the students in a very interesting manner.
- 2) To provide a comprehensive understanding of finance & economics.
- 3) To foster an environment among the students that encourages the continuous learning and discovery of recent trends in the area of finance.
- 4) To provide a platform to the students to bring out their best and improvise upon their concepts with a practical understanding.

Vision

To represent and support an inclusive and vibrant student community in which members can expand their horizons with the new trends in finance & economics, reach their full potential with the conceptual and practical knowledge to make them industry ready.

Club Members- President, event coordinator, club coordinator

Faculty In-charge:

ASSISTANT PROFESSOR

Activities:

Knowledge Sharing Sessions: Guest lecturers/ Webinars related to finance/economics/ commerce are organized by inviting speakers from academia & industry.

1) FinQ / BusinessQ

To equip students of various finance and economics concepts along with its relevant practices in the real world. This is the quiz series.

2) News Blast

A series to update students about the latest development in the finance and economics world. It comprises four sections, namely, Big Story, Economic. Market and Startup. Presentations about the latest developments in the economy & financial industry are given by students.

3) Budget Discussion

The Financial Budget of the country stands as one of the most important events of the entire year. It encloses the future ideas, plans and flow of the economy in the near future. The budget discussion focuses on a sector-wise presentation on key announcements & their impact on the sector, accompanied with an overall takeaway for various stakeholders of the economy.

4) Vaanijya Game

Puzzle games related to finance like Jumble Words & Newspaper Geek are there for students to check their knowledge in an interesting manner.

3) CONQUERORS-ENTREPRENEURSHIP CLUB

"PROFIT NINJAS"

The vision is to be acknowledged as a program of International renown, where students, faculty, alumni, industry and policy makers collaborate, learn, and innovate. The team comprises faculty from

different functional areas and disciplines.

Objectives

Center for entrepreneurship aims to collaborate with faculty and fellows who have thesis topics on subjects related to entrepreneurship and innovation. The center will also collaborate with industry to develop research cases for further study. Main focus areas will be:

1. To Promote First Generation Businessman and Industrialists
2. To Create Awareness about Availability of Resources
3. To Promote Small, Cottage & Local Industries
4. To Encourage Self Employment Tendencies
5. To Provide Knowledge about Government Plans and Programmes
6. To Make a Successful Entrepreneur
7. To Provide Training to Operate Business

Vision

Center for entrepreneurship provides support to creation of new ventures opportunities, identifying resource requirements, assisting in resource acquisitions and managing new ventures in tie-up with Lingayas University.

Club	Members-	President,	event	coordinator,	club	coordinator

PROFESSOR**

Activities

Events: As part of a new initiative, the Center for Entrepreneurship will organize events that will give experiences and insights to help young entrepreneurs make a smooth transition from the idea to implementation. An Annual Entrepreneurship Summit is planned to be held every year.

Women Entrepreneurship Programmes

Center for entrepreneurship will conduct free one on one management consulting sessions for women entrepreneurs of areas nearby Lingayas Vidyapeeth, Faridabad. It will provide implementable solutions faced by these entrepreneurs in their ventures through problem analysis, research and brain-

storming

4) VISVICT- HR CLUB

"PERFORM AND MAKE YOUR FUTURE"

The purpose of "HR Club" is to bring together students interested in the field of Human Resources Management, help them develop interpersonal skills needed in the corporate world. Encourage them to meet professionals who work in the field of Human Resources Management. This club is designed to help students learn more about Human Resource and what Human Resource Professionals do.

The club promotes the active participation of the students. The HR students take the lead in arranging the events. This enables the students to plan and arrange for the events successfully. The club activities are organized on a regular basis to promote the team spirit and implement the HR concepts practically.

Vision:

To foster highly proficient future Human Resource professionals with a humanitarian approach.

Objectives:

1. To enhance the skills and competencies of the members through sharing and learning.
2. To provide a forum for discussion and interaction and a platform for enhancing skills.

3. To make students understand what is expected in a real job interview and to improve the student's self-presentation.
4. Establishing contacts between HR managers in order to share the information and experience organizing and conducting the seminars.
5. To provide accurate instruction and realistic activities intended to stimulate discussion and provide the knowledge, skills and abilities necessary to perform HR roles and further an individual's career.
6. To continuously strive for academic and professional excellence in the field of HRM

Club Members- President, event coordinator, club coordinator

Faculty In charge:

ASSISTANT PROFESSOR

Activities:

1. Recruitment and Selection Role Play
Round 1 consists of Aptitude Test on various management fields and current affairs where 50 objective questions are given and 50 minutes are allotted. This was a pen paper round. All the students attempted the test out of which 12 students were picked for the 2nd round based on the marks awarded.

Second Round: Group Discussion will be conducted to the 8 students on any selected topic. From this GD round 3 students shall be selected for the final round of recruitment process based on their performance.

Third Round: In Final round or Personal interview selected students shall answer the interview panel consisting of student co-coordinators.

2. Group Discussion Activity

The class will be divided into 4 groups consisting of 6-8 members per group. Topics which will be given to groups such as

1. Reservation for woman would help the society
2. What is most helpful for being successful in life knowledge, power or wealth...?
3. Impact of social media.
4. Indian culture vs. western culture. It will be an interactive section and groups shall share their perception about the topics.

3) Activity 3: 24

The 24-hour event where the contestants shall be asked to capture an image and elucidate their vision with a small write-up. Any theme will be given to students for this. Activity 4: HR Conclave

The one-day long signature event where eminent speakers from various backgrounds share their thoughts and experiences to the students. It also involves a panel discussion with industry experts and HR managers from different sectors engaging in creative conversations among themselves and as well as the audience.

4) Activity 5: HR Fest

Quiz Regarding various aspects of HR, HR policies, laws etc.

HR Slat-Making a play incorporating various HR policies and other things. A team plays a corporate scenario, which shows the best practices of HR Crisis-Giving some crisis scenarios and judging them based on the solution they give.

Preparing Recruitment advertisement-

Outcome:

The club will promote the active participation of the students. It will help them in attaining interpersonal skills required in the corporate field. The HR students shall make an active contribution in arranging the event. The club enhanced the knowledge on Recruitment and selection process. Participation in group discussion will enable them to express their views on the latest topics. It also helps promote team spirit, decision making, and motivation.

5) ARPAN — THE CSR CLUB

At the School of Commerce and Management we believe that a truly successful organization is one that looks beyond serving its own interests to serve society. As we shape the business professionals and leaders of tomorrow, it is important to not only equip them with knowledge and resources, but also the spirit of service and civic responsibility.

At Arpan, the CSR Club of SOCM, we educate students on the symbiotic relationship between society and businesses. We create awareness on the need for—and the importance of—corporate social responsibility, and emphasize the future role of students in the same.

The Club's activities are designed to help acquaint students with societal issues. Students are also taught to work in teams and develop social leadership to address the problems of the day. The aim is to help students work and lead businesses that play a strong social role.

Club Members- President, event coordinator, club coordinator

BBA N 203	E-Commerce	L-T-P:3-0-0
-----------	------------	-------------

Course Objective:

After the successful completion of the course the student must be aware of Techniques in Application of e-commerce. This course is designed to provide knowledge about Electronic Commerce.

Prerequisites:

A basic understanding of business management principles and quantitative analysis would be beneficial.

Course Learning Outcomes:

1. Define E-Marketplaces and list their components
2. List the Major types of Electronic Markets and describe their features.
3. Describe electronic Catalogs, Shopping carts, and search Engines.

Unit 1: Welcome to E-Commerce

- Overview of developments in Information Technology and Defining E-Commerce:
- The scope of E commerce, Electronic Market, Electronic Data Interchange,
- Internet Commerce, Benefits and limitations of E-Commerce
- Produce a generic framework for E-Commerce,
- Architectural framework of Electronic Commerce,
- Assignment

Unit 2: ISP

- National, Regional-level, Local-level and Abroad Level - Network Interconnection Points and Options
- Logistics of Being an Internet Service Provider - Consumer Oriented Applications
- Mercantile Process Models – Consumer's Perspective – Merchant's Perspective
- Electronic Payment Systems (EPS) – Types - Designing EPS -
- Smart Cards and EPS – Credit Cards and EPS.
- Assignment

Unit 3: Electronic Data Interchange

- (EDI) : Applications – Security and Privacy Issues
- Software Implementations – Value Added Networks
- Internal Information System – Work
- flow Automation and Coordination – Customization
- Supply Chain Management
- Assignment

Unit 4: Marketing on the Internet

- Advertising on the Internet
- Charting the On-Line Marketing Process
- E-Commerce Catalos or Directories
- Information Filtering
- Consumer Data Interface: Emerging Tools.
- Assignment

FBD

Unit 5: EDI Implementation, MIME, and Value-Added Networks

- Standardization and EDI - EDI Software Implementation
- EDI Envelope for Message Transport - VAN - Software Agents Introduction
- Characteristics and Properties - Technology Behind Software Agents
- Telescript Agent Language - Safe TCL
- Applets, Browsers and Software Agents - Software Agents in Action.
- Assignment

(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 205	Research Methodology	L-T-P:3-0-0
------------------	-----------------------------	--------------------

Course Objective:

The course aims to acquaint the student with a basic and elementary knowledge of the research.

Prerequisites:

A basic understanding of Research Methodology would be beneficial.

Course Learning Outcomes:

1. Gain a comprehensive understanding of the research process, including the steps involved in formulating research questions, developing hypotheses, designing studies, and interpreting results.
2. Learn to identify research problems and research questions that are relevant, significant, and feasible to investigate.
3. Evaluate the strengths and limitations of each design and select the most appropriate one for a given research question.
4. Familiarize yourself with various sampling methods and learn how to select appropriate samples for research studies.
5. Acquire knowledge of data collection methods, such as surveys, interviews, observations, and experiments.
6. Develop skills in interpreting research findings and drawing meaningful conclusions from empirical data.

HOD

School of Commerce & Management
Lingaya's Vidyapeeth (FBD.)

Unit 1: Introduction to meaning of Research

- Meaning & Objectives of research;
- Significance of research, types of research
- Theory and Research –components, concept, constructs,
- Definition variables, proposition and hypothesis,
- Deductive and Inductive theory;
- Assignment

Unit 2: Problem Definition & Research Proposal

- Nature and importance of problem definition,
- Process of problem definition
- Meaning and importance of research proposal,
- Types of research proposal
- Ingredients of research proposal
- Assignment

Unit3: Research Design

- Research Design – Meaning of research design,
- Need for research design, features of research design,
- Different types of research design
- Concept of Scales
- Measurement of Scales
- Assignment

Unit 4: Data Collection Sampling

- Methods of data collection: primary data & secondary data
- Sources of primary & secondary data,
- Questionnaire, designing of Questionnaire
- Issues in construction of questionnaire
- Sample design and Sampling procedure
- Assignment

Unit 5: Interpretation and Report Writing

- Interpretation Of research reports,
- Types of research reports,
- Guidelines for writing a report,
- Writing a report format,
- Evaluation of research report.
- Assignment

BBA N 207	International Marketing	L-T-P:3-1-0
------------------	--------------------------------	--------------------

Course Objective:

The objective of the course "International Marketing" is to provide students with a comprehensive understanding of the principles, strategies, and challenges involved in conducting marketing activities on a global scale. The course aims to familiarize students with the complexities of international markets, including cultural differences, legal and regulatory considerations, and market entry strategies. By the end of the course, students will be able to critically analyze global marketing environments, develop international marketing plans, adapt marketing strategies to different cultural contexts, and address the unique challenges and opportunities of expanding businesses internationally.

Prerequisites:

A solid foundation in the principles of marketing is essential, as it provides the fundamental understanding of marketing concepts and strategies that will be applied in an international context.

Course Learning Outcomes:

1. Understand the factors influencing international markets, including cultural, economic, political, and legal aspects.
2. Assess various market entry methods and select appropriate strategies for expanding businesses into international markets.
3. Create comprehensive marketing plans tailored to global markets, considering cultural nuances, market dynamics, and competitive landscapes.
4. Modify marketing strategies to align with diverse cultural values, customs, and consumer behavior in different international markets.
5. Apply market research methods to gather relevant data and insights for identifying global market opportunities and understanding consumer preferences.
6. Determine and adapt product, pricing, distribution, and promotion strategies to meet the unique demands of international markets.

UNIT 1: Introduction to International Marketing

- Basics of international marketing and its significance
- Differences between domestic and international marketing
- Cultural, economic, and political factors affecting international marketing
- Modes of market entry: exporting, licensing, and joint ventures
- Market selection and analysis in international markets
- Assignment

Unit 2 – International Marketing Environment

- Geographic, demographic, economic, politic, legal, Socio-cultural environments
- Tariff and Non-Tariff barriers
- WTO, UNCTAD, regional economic groupings European Union(EU), NAFTA, ASEAN,
- Mergers and Acquisitions
- FDI
- Assignment

Unit 3 : Product and Brand Management in International Markets

- International product life cycle and branding strategies
- Global brand management and brand equity
- Market Entry Strategies
- Branding Challenges in Emerging Markets
- Intellectual property rights
- Assignment

Unit 4: Pricing and Distribution Strategies in International Markets

- Skimming Pricing strategy Vs. Penetration Pricing Strategy
- Factors influencing pricing decisions in international marketing
- International pricing strategies
- Distribution channels and logistics in global markets
- Managing global supply chains
- Assignment

HOD

**School of Commerce & Management
Lingaya's Vidyapeeth (FBD.)**

Unit 5: International Marketing Communication

- Integrated marketing communication in international markets
- Cultural considerations in global advertising and promotion
- Public relations and international communications
- Types of Digital marketing
- Communication barrier in international marketing communication
- Assignment

List of different clubs

1) Markaizen Club of Lingayas (MCL)

"CONNECTING PEOPLE"

Introduction:

As the name suggests, MCL is a step forward to make the students opt for Marketing as a specialization to excel in their creative learning and thinking abilities. The club is formed as a platform for the students to showcase their individual talents as well as their collaborative participation in groups. The club intends to mix and match different activities and workshops for the students, which will be helpful in giving finishing touches to their grooming and sharpening their marketing skills. The sole objective of the club is to make students industry-fit and equip them for the competitive times ahead.

 HOD

School of Commerce & Management
 Lingaya's Vidyapeeth (FBD)

Objectives of Club:

- To make students come up with creative thinking abilities in solving problems and marketing issues.
- To make students abreast of the current scenario and the happenings around the world in the marketing space.
- To groom the personality of the students and make them more self-confident in facing this world.
- To provide and teach them art and techniques related to marketing which would help them be industry ready
- To make students understand the importance of teamwork and make them realize their leadership qualities.

Vision: To represent and support an inclusive and vibrant student community in which members can expand their horizons with the new marketing trends, reach their full potential with the conceptual knowledge, and change the world around them with the help of marketing themselves in the hypercompetitive environment

Club Members- President, event coordinator, club coordinator

Activities

This club will bring students together through events, sponsorships, publicity, and awareness of LV hosted events providing opportunities for development and social interaction that are central to many students' college experience. This club can bring in promotion stalls for Fresher's Day. The club can also conduct events like Ad-Venture - Creating an Advertising Campaign, inquisitive- A quiz on Marketing, Market Encounter- A puzzle-based game the best managers would compete. Cracking Cliché-Designing a Marketing Plan given a company and unusual product, What's in a name? Controversy Suggesting a New name and Marketing Campaign (Controversial debates), role play, AD MAD Show

1) War of Brands

It can be a three-stage competition which can be organized by the Club and it is nothing short of a battlefield, wherein participants engage in ambush marketing to not only design campaigns for various brands but also market their ideas through social media platforms.

2) Ulta Pulta

It can be organized under the umbrella of "Jingstad" and as the name suggests, everything is in reverse. You think you know a brand, till we take it and completely change it to its polar opposite. This event is for the creative geniuses out there.

3) X-Marketer

The specialty of X-Marketer lies in its dynamism, as it changes its rules and formats every year. While its underlying principle is to test participants' acumen and creativity, X-Marketer presents itself with new twists for all Marketing experts on campus.

4) Touchstone

"Touchstone", can be a case study competition which can provide budding marketers across the country the stage to prove their marketing acumen by delving into the marketing and branding strategies for products and services. Past participants from other colleges can be included.

2) VAANIYA: THE FINANCE CLUB

"LEARN TODAY EARN TOMORROW"

About the Club: Vaanijya - The Finance club is the fountainhead of knowledge and new ideas in the field of knowledge. The club fosters an environment of discovery of recent trends and developments in the field of finance and provides a comprehensive understanding of the finance industry.

Objectives

- 1) It imparts the knowledge of finance to the students in a very interesting manner.
- 2) To provide a comprehensive understanding of finance & economics.
- 3) To foster an environment among the students that encourages the continuous learning and discovery of recent trends in the area of finance.
- 4) To provide a platform to the students to bring out their best and improvise upon their concepts with a practical understanding.

Vision

To represent and support an inclusive and vibrant student community in which members can expand their horizons with the new trends in finance & economics, reach their full potential with the conceptual and practical knowledge to make them industry ready.

Activities:

Knowledge Sharing Sessions: Guest lecturers/ Webinars related to finance/economics/ commerce are organized by inviting speakers from academia & industry.

1) FinQ / BusinessQ

To equip students of various finance and economics concepts along with its relevant practices in the real world. This is the quiz series.

2) News Blast

A series to update students about the latest development in the finance and economics world. It comprises four sections, namely, Big Story, Economic, Market and Startup. Presentations about the latest developments in the economy & financial industry are given by students.

3) Budget Discussion

The Financial Budget of the country stands as one of the most important events of the entire year. It encloses the future ideas, plans and flow of the economy in the near future. The budget discussion focuses on a sector-wise presentation on key announcements & their impact on the sector, accompanied with an overall takeaway for various stakeholders of the economy.

4) Vaanijya Game

Puzzle games related to finance like Jumble Words & Newspaper Geek are there for students to check their knowledge in an interesting manner.

3) CONQUERORS-ENTREPRENEURSHIP CLUB

"PROFIT NINJAS"

The vision is to be acknowledged as a program of International renown, where students, faculty, alumni, industry and policy makers collaborate, learn, and innovate. The team comprises faculty from different functional areas and disciplines.

Objectives

Center for entrepreneurship aims to collaborate with faculty and fellows who have thesis topics on subjects related to entrepreneurship and innovation. The center will also collaborate with industry to develop research cases for further study. Main focus areas will be:

1. To Promote First Generation Businessman and Industrialists
2. To Create Awareness about Availability of Resources
3. To Promote Small, Cottage & Local Industries
4. To Encourage Self Employment Tendencies
5. To Provide Knowledge about Government Plans and Programmes
6. To Make a Successful Entrepreneur
7. To Provide Training to Operate Business

Vision

Center for entrepreneurship provides support to creation of new ventures opportunities, identifying resource requirements, assisting in resource acquisitions and managing new ventures in tie-up with Lingayas University.

Activities

Events: As part of a new initiative, the Center for Entrepreneurship will organize events that will give experiences and insights to help young entrepreneurs make a smooth transition from the idea to implementation. An Annual Entrepreneurship Summit is planned to be held every year.

Women Entrepreneurship Programmes

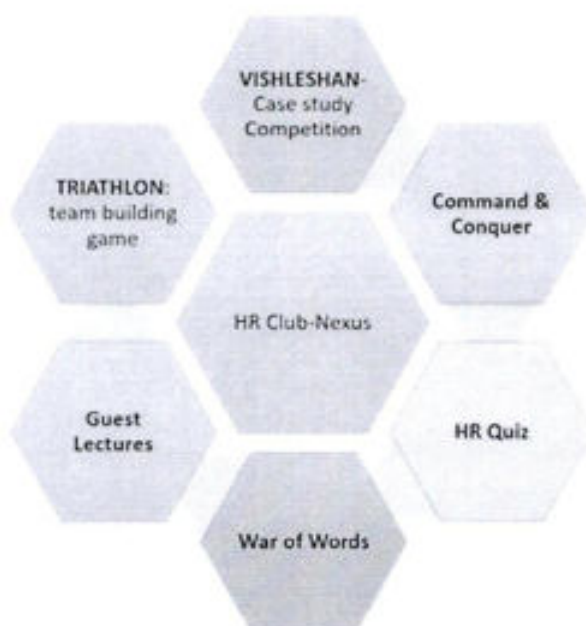

Center for entrepreneurship will conduct free one on one management consulting sessions for women entrepreneurs of areas nearby Lingayas Vidyapeeth, Faridabad. It will provide implementable solutions faced by these entrepreneurs in their ventures through problem analysis, research and brainstorming

4) VISVICT- HR CLUB

"PERFORM AND MAKE YOUR FUTURE"

The purpose of "HR Club" is to bring together students interested in the field of Human Resources Management, help them develop interpersonal skills needed in the corporate world. Encourage them to meet professionals who work in the field of Human Resources Management. This club is designed to help students learn more about Human Resource and what Human Resource Professionals do.

The club promotes the active participation of the students. The HR students take the lead in arranging the events. This enables the students to plan and arrange for the events successfully. The club activities are organized on a regular basis to promote the team spirit and implement the HR concepts practically.

Vision:

To foster highly proficient future Human Resource professionals with a humanitarian approach.

Objectives:

1. To enhance the skills and competencies of the members through sharing and learning.
2. To provide a forum for discussion and interaction and a platform for enhancing skills.
3. To make students understand what is expected in a real job interview and to improve the student's self-presentation.
4. Establishing contacts between HR managers in order to share the information and experience organizing and conducting the seminars.
5. To provide accurate instruction and realistic activities intended to stimulate discussion and provide the knowledge, skills and abilities necessary to perform HR roles and further an individual's career.
6. To continuously strive for academic and professional excellence in the field of HRM

Activities:

1. Recruitment and Selection Role Play

Round 1 consists of Aptitude Test on various management fields and current affairs where 50 objective questions are given and 50 minutes are allotted. This was a pen paper round. All the students attempted the test out of which 12 students were picked for the 2nd round based on the marks awarded.

Second Round: Group Discussion will be conducted to the 8 students on any selected topic. From this GD round 3 students shall be selected for the final round of recruitment process based on their performance.

Third Round: In Final round or Personal interview selected students shall answer the interview panel consisting of student co-coordinators.

2. Group Discussion Activity

The class will be divided into 4 groups consisting of 6-8 members per group. Topics which will be given to groups such as

1. Reservation for woman would help the society
2. What is most helpful for being successful in life knowledge, power or wealth...?
3. Impact of social media.
4. Indian culture vs. western culture. It will be an interactive section and groups shall share their perception about the topics.

3) Activity 3: 24

The 24-hour event where the contestants shall be asked to capture an image and elucidate their vision with a small write-up. Any theme will be given to students for this. Activity 4: HR Conclave

The one-day long signature event where eminent speakers from various backgrounds share their thoughts and experiences to the students. It also involves a panel discussion with industry experts and HR managers from different sectors engaging in creative conversations among themselves and as well as the audience.

4) Activity 5: HR Fest

Quiz Regarding various aspects of HR, HR policies, laws etc.

HR Slat-Making a play incorporating various HR policies and other things. A team plays a corporate

scenario, which shows the best practices of HR Crisis-Giving some crisis scenarios and judging them based on the solution they give.

Preparing Recruitment advertisement-

Outcome:

The club will promote the active participation of the students. It will help them in attaining interpersonal skills required in the corporate field. The HR students shall make an active contribution in arranging the event. The club enhanced the knowledge on Recruitment and selection process. Participation in group discussion will enable them to express their views on the latest topics. It also helps promote team spirit, decision making, and motivation.

5) ARPAN — THE CSR CLUB

At the School of Commerce and Management we believe that a truly successful organization is one that looks beyond serving its own interests to serve society. As we shape the business professionals and leaders of tomorrow, it is important to not only equip them with knowledge and resources, but also the spirit of service and civic responsibility.

At Arpan, the CSR Club of SOCM, we educate students on the symbiotic relationship between society and businesses. We create awareness on the need for—and the importance of—corporate social responsibility, and emphasize the future role of students in the same.

The Club's activities are designed to help acquaint students with societal issues. Students are also taught to work in teams and develop social leadership to address the problems of the day. The aim is to help students work and lead businesses that play a strong social role.

(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 202	Optimization Techniques for Managers	L-T-P:3-0-0
------------------	---	--------------------

Course Objective:

1. The objective of the "Optimization Techniques for Managers " course is to provide students with a comprehensive understanding of Optimization Techniques for Managers in Supply Chain management.
2. To acquaint the student with the applications of Statistics and Optimization Techniques for Managers to business and industry
3. To help them to grasp the significance of analytical techniques in decision making.
4. To test on the application of Optimization Techniques for Managers to business related problems

Prerequisites:

There are no specific prerequisites for this course. However, a basic understanding of Optimization Techniques for Managers would be beneficial.

Course Learning Outcomes:

1. Formulation of a Linear programming problem.
2. Solve the formulation of Linear programming.
3. Evaluate the initial solution for the Transportation Model.
4. Evaluate the solution for the Assignment Problem.
5. Minimize the waiting hours of simultaneous projects undertaken.
6. Explain the different network models

Unit - 1 : Introduction to Optimization Techniques for Managers:

- Definition of operations research
- Models of operations research
- Scientific methodology of operations research
- Scope of operations research, importance of operations research in decision making
- Role of operations management, limitations of OR.
- Assignment.

Unit - 2 : Linear Programming Problems & Transportation Problem

- Linear Programming: Introduction – Mathematical formulation of a problem
- Graphical solutions, standard forms the simplex method for maximization and minimization problems.
- Transportation problem – Introduction – Initial basic feasible solution -
- NWC method – Least cost method – Vogel's method
- MODI – moving towards optimality – solution procedure without degeneracy
- Assignment

Unit - 3: Assignment Problem

- Assignment problem
- Objective and Importance
- Algorithm
- Hungarian method
- simple problems.
- Assignment

Unit - 4: Job Sequencing & Replacement Models

- Sequencing problem – processing through 2 machines, 3 machine
- S jobs and K machines
- Traveling salesman problem
- Replacement of items that deteriorate gradually – with time, without time, that fails completely
- Individual replacement – group replacement
- Assignment

Unit - 5 : Network Models

- Network models and simulation
- Network models for project analysis
- CPM; Network construction and time analysis;
- Cost time trade off,
- PERT – problems
- Assignment

L-4, T-0

Credits –4

Max Marks: 60

Objectives:

The basic objective of this course is to familiarize the students with the various aspects of Projects and key guidelines relevant to project planning, analysis, financing, selection, implementation and review.

Course Contents

UNIT - I

Introduction: Projects, Project Management, Objectives and Importance of Project Management, Tools and Techniques for Project Management, Project Team, Roles and Responsibilities of Project Manager, Determinants of Project Success.

Project Life Cycle: Phases of Project Life Cycle, Classification of Projects.

UNIT-II

Technical Analysis: Factors Considered in Technical Analysis, Factors Affecting Selection of Locations, Need for Considering Alternatives, Technology Selection, Sources of Technology, Appropriate Technology.

Market Analysis: Conduct of Market Survey, Characterization of Market, Market Planning (Introductory aspects only).

UNIT-III

Financial Estimates and Projections: Feasibility Study, Types of Feasibility Study, Steps of Feasibility Study, Importance and Steps of Financial Feasibility **Financing of Projects:** Capital Structure, Sources of Long-term Finance, Debt Financing, Characteristics of Debt, Types of Debts, Equity Financing, Preferential Shares, Equity Shares, Retained Earning

UNIT-IV

Project Evaluation and Control: Project Monitoring and Controlling, Project Evaluation, Post Project Evaluation (Post Audit), Abandonment Analysis.

Social Cost Benefit Analysis: Social Cost, Social Benefit.

Risk Analysis: Process of Risk Management, Sources of Risk in Project Management, Managing Risk.

List of different clubs

1) Markaizen Club of Lingayas (MCL)

"CONNECTING PEOPLE"

Introduction:

As the name suggests, MCL is a step forward to make the students opt for Marketing as a specialization to excel in their creative learning and thinking abilities. The club is formed as a platform for the students to showcase their individual talents as well as their collaborative participation in groups. The club intends to mix and match different activities and workshops for the students, which will be helpful in giving finishing touches to their grooming and sharpening their marketing skills. The sole objective of the club is to make students industry-fit and equip them for the competitive times ahead.

Objectives of Club:

HOD
 School of Commerce & Management
 Lingaya's Vidyapeeth (FBD.)

- To make students come up with creative thinking abilities in solving problems and marketing issues.
- To make students abreast of the current scenario and the happenings around the world in the marketing space.
- To groom the personality of the students and make them more self-confident in facing this world.
- To provide and teach them art and techniques related to marketing which would help them be industry ready
- To make students understand the importance of teamwork and make them realize their leadership qualities.

Vision: To represent and support an inclusive and vibrant student community in which members can expand their horizons with the new marketing trends, reach their full potential with the conceptual knowledge, and change the world around them with the help of marketing themselves in the hypercompetitive environment

Club Members- President, event coordinator, club coordinator

Faculty In charge:

Activities

This club will bring students together through events, sponsorships, publicity, and awareness of LV hosted events providing opportunities for development and social interaction that are central to many students' college experience. This club can bring in promotion stalls for Fresher's Day. The club can also conduct events like Ad-Venture - Creating an Advertising Campaign, inquisitive- A quiz on Marketing, Market Encounter- A puzzle-based game the best managers would compete. Cracking Cliché-Designing a Marketing Plan given a company and unusual product, What's in a name? Controversy Suggesting a New name and Marketing Campaign (Controversial debates), role play, AD MAD Show

1) War of Brands

It can be a three-stage competition which can be organized by the Club and it is nothing short of a battlefield, wherein participants engage in ambush marketing to not only design campaigns for various brands but also market their ideas through social media platforms.

2) Ulta Pulta

It can be organized under the umbrella of "Jingstad" and as the name suggests, everything is in reverse. You think you know a brand, till we take it and completely change it to its polar opposite. This event is for the creative geniuses out there.

3) X-Marketer

The specialty of X-Marketer lies in its dynamism, as it changes its rules and formats every year.

While its underlying principle is to test participants' acumen and creativity, X-Marketer presents itself with new twists for all Marketing experts on campus.

4) Touchstone

"Touchstone", can be a case study competition which can provide budding marketers across the country the stage to prove their marketing acumen by delving into the marketing and branding strategies for products and services. Past participants from other colleges can be included.

2) VAANIJYA: THE FINANCE CLUB

"LEARN TODAY EARN TOMORROW"

About the Club: Vaanijya - The Finance club is the fountainhead of knowledge and new ideas in the field of knowledge. The club fosters an environment of discovery of recent trends and developments in the field of finance and provides a comprehensive understanding of the finance industry.

Objectives

- 1) It imparts the knowledge of finance to the students in a very interesting manner.
- 2) To provide a comprehensive understanding of finance & economics.
- 3) To foster an environment among the students that encourages the continuous learning and discovery of recent trends in the area of finance.
- 4) To provide a platform to the students to bring out their best and improvise upon their concepts with a practical understanding.

Vision

To represent and support an inclusive and vibrant student community in which members can expand their horizons with the new trends in finance & economics, reach their full potential with the conceptual and practical knowledge to make them industry ready.

Activities:

Knowledge Sharing Sessions: Guest lecturers/ Webinars related to finance/economics/ commerce are organized by inviting speakers from academia & industry.

1) FinQ / BusinessQ

To equip students of various finance and economics concepts along with its relevant practices in the real world. This is the quiz series.

2) News Blast

A series to update students about the latest development in the finance and economics world. It comprises four sections, namely, Big Story, Economic, Market and Startup. Presentations about the latest developments in the economy & financial industry are given by students.

3) Budget Discussion

The Financial Budget of the country stands as one of the most important events of the entire year. It encloses the future ideas, plans and flow of the economy in the near future. The budget discussion focuses on a sector-wise presentation on key announcements & their impact on the sector, accompanied with an overall takeaway for various stakeholders of the economy.

4) Vaaniya Game

Puzzle games related to finance like Jumble Words & Newspaper Geek are there for students to check their knowledge in an interesting manner.

3) CONQUERORS-ENTREPRENEURSHIP CLUB

"PROFIT NINJAS"

The vision is to be acknowledged as a program of International renown, where students, faculty, alumni, industry and policy makers collaborate, learn, and innovate. The team comprises faculty from different functional areas and disciplines.

Objectives

Centre for entrepreneurship aims to collaborate with faculty and fellows who have thesis topics on subjects related to entrepreneurship and innovation. The center will also collaborate with industry to develop research cases for further study. Main focus areas will be:

1. To Promote First Generation Businessman and Industrialists
2. To Create Awareness about Availability of Resources
3. To Promote Small, Cottage & Local Industries
4. To Encourage Self Employment Tendencies
5. To Provide Knowledge about Government Plans and Programmes
6. To Make a Successful Entrepreneur
7. To Provide Training to Operate Business

Vision

Center for entrepreneurship provides support to creation of new ventures opportunities, identifying resource requirements, assisting in resource acquisitions and managing new ventures in tie-up with Lingayas University.

Club Members- President, event coordinator, club coordinator

**Faculty
ASSISTANT

4) VISVICT- HR CLUB

"PERFORM AND MAKE YOUR FUTURE"

The purpose of "HR Club" is to bring together students interested in the field of Human Resources Management, help them develop interpersonal skills needed in the corporate world. Encourage them to meet professionals who work in the field of Human Resources Management. This club is designed to help students learn more about Human Resource and what Human Resource Professionals do.

The club promotes the active participation of the students. The HR students take the lead in arranging the events. This enables the students to plan and arrange for the events successfully. The club activities are organized on a regular basis to promote the team spirit and implement the HR concepts practically.

Vision:

To foster highly proficient future Human Resource professionals with a humanitarian approach.

Objectives:

1. To enhance the skills and competencies of the members through sharing and learning.
2. To provide a forum for discussion and interaction and a platform for enhancing skills.

3. To make students understand what is expected in a real job interview and to improve the student's self-presentation.
4. Establishing contacts between HR managers in order to share the information and experience organizing and conducting the seminars.
5. To provide accurate instruction and realistic activities intended to stimulate discussion and provide the knowledge, skills and abilities necessary to perform HR roles and further an individual's career.
6. To continuously strive for academic and professional excellence in the field of HRM

Club Members- President, event coordinator, club coordinator

Activities:

1. Recruitment and Selection Role Play

Round 1 consists of Aptitude Test on various management fields and current affairs where 50 objective questions are given and 50 minutes are allotted. This was a pen paper round. All the students attempted the test out of which 12 students were picked for the 2nd round based on the marks awarded.

Second Round: Group Discussion will be conducted to the 8 students on any selected topic. From this GD round 3 students shall be selected for the final round of recruitment process based on their performance.

Third Round: In Final round or Personal interview selected students shall answer the interview panel consisting of student co-coordinators.

2. Group Discussion Activity

The class will be divided into 4 groups consisting of 6-8 members per group. Topics which will be given to groups such as

1. Reservation for woman would help the society
2. What is most helpful for being successful in life knowledge, power or wealth...?
3. Impact of social media.

HOD

**School of Commerce & Management
Lingaya's Vidyapeeth (FBD.)**

4. Indian culture vs. western culture. It will be an interactive section and groups shall share their perception about the topics.

3) Activity 3: 24

The 24-hour event where the contestants shall be asked to capture an image and elucidate their vision with a small write-up. Any theme will be given to students for this. Activity 4: HR Conclave

The one-day long signature event where eminent speakers from various backgrounds share their thoughts and experiences to the students. It also involves a panel discussion with industry experts and HR managers from different sectors engaging in creative conversations among themselves and as well as the audience.

4) Activity 5: HR Fest

Quiz Regarding various aspects of HR, HR policies, laws etc.

HR Slat-Making a play incorporating various HR policies and other things. A team plays a corporate scenario, which shows the best practices of HR Crisis-Giving some crisis scenarios and judging them based on the solution they give.

Preparing Recruitment advertisement-

Outcome:

The club will promote the active participation of the students. It will help them in attaining interpersonal skills required in the corporate field. The HR students shall make an active contribution in arranging the event. The club enhanced the knowledge on Recruitment and selection process. Participation in group discussion will enable them to express their views on the latest topics. It also helps promote team spirit, decision making, and motivation.

5) ARPAN — THE CSR CLUB

At the School of Commerce and Management we believe that a truly successful organization is one that looks beyond serving its own interests to serve society. As we shape the business professionals and leaders of tomorrow, it is important to not only equip them with knowledge and resources, but also the spirit of service and civic responsibility.

At Arpan, the CSR Club of SOCM, we educate students on the symbiotic relationship between society and businesses. We create awareness on the need for — and the importance of — corporate social responsibility, and emphasize the future role of students in the same.

The Club's activities are designed to help acquaint students with societal issues. Students are also taught to work in teams and develop social leadership to address the problems of the day. The aim is to help students work and lead businesses that play a strong social role.

Club Members- President, event coordinator, club coordinator

(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 206 A	Project planning analysis and management	L-T-P:3-0-0
--------------------	---	--------------------

Course Objectives:

1. To develop a comprehensive understanding of project management principles and practices
2. To equip BBA students with the skills necessary to plan, analyze, and manage projects effectively.
3. To provide students with practical tools and techniques for project planning, scheduling, and control
4. To enhance students' ability to manage project risks, resources, and stakeholders.
5. To foster critical thinking and problem-solving skills in project management scenarios.

Prerequisites:

Basic understanding of project management planning is the foundation and most important stage of the project management life-cycle. The project planning activity sets the project foundations by baselining the project scope, schedule, quality standards, objectives, and goals. Planning typically involves creating a document with all project information.

Course Learning Outcome:

The purpose of this course is to provide BBA students with a solid foundation in project planning, analysis, and management. By exploring key project management concepts, tools, and techniques, students will gain practical insights into project lifecycle phases, planning methodologies, risk assessment, resource allocation, and stakeholder management. The course aims to develop the skills required to successfully initiate, plan, execute, monitor, and close projects in various business settings.

Unit 1: Introduction to Project Management

- Overview of project management principles
- Project lifecycle and process groups
- Project selection and strategic alignment
- Project stakeholders and their roles
- Ethical considerations in project management
- Assignment

Unit 2: Project Planning and Scope Management

- Defining project objectives and scope
- Work breakdown structure (WBS) development
- Activity sequencing and network diagramming
- Resource estimation and allocation
- Scope verification and change control
- Assignment

Unit 3: Project Time and Cost Management

- Activity duration estimation and schedule development
- Critical path method (CPM) and schedule compression techniques
- Cost estimation and budgeting
- Earned value management (EVM)
- Project cost control and monitoring
- Assignment

Unit 4: Project Risk and Quality Management

- Risk identification, assessment, and prioritization
- Risk response planning and mitigation strategies
- Quality planning and assurance
- Quality control and process improvement
- Project procurement and vendor management
- Assignment

HOD

School of Commerce & Management
Lingaya's Vidyapeeth (FBD)

Unit 5: Project Communication and Stakeholder Management

- Communication planning and information distribution
- Stakeholder identification and analysis
- Managing stakeholder expectations and engagement
- Conflict resolution and negotiation skills
- Project closure and lessons learned
- Assignment

(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 206 B	Security analysis and portfolio management	L-T-P: 3-0-0
--------------------	---	---------------------

Course Objective:

This course aims at developing an understanding of the changing domestic and global investment scenario in general and Indian capital market in particular with reference to availability of various financial products and operations of stock exchanges. It aims at providing an in-depth knowledge of the theory and practice of portfolio management. Important theories, techniques, regulations and certain advancements in theory of investment will be covered with an aim of helping the participants make sound investment decisions in the context of portfolio investment.

Prerequisites:

There are no specific prerequisites for this course. However, a basic understanding of the global investment scenario and Indian capital market is desired.

Course Learning Outcomes:

1. To provide a theoretical and practical background in the field of investments.
2. Designing and managing the bond as well as equity portfolios in the real world
3. Valuing equity and debt instruments
4. Measuring the portfolio performance
5. To explore different avenues of investment.
6. To be equipped with the knowledge of security analysis
7. To apply the concept of portfolio management for the better investment.

Unit 1: Introduction

- Nature and Scope of Investment Management and Portfolio Analysis
- Investment Alternatives and Their Evaluation
- Financial Markets
- Portfolio Management Process
- Approaches to Investment Decision Making
- Assignment

HOD
School of Commerce & Management
Lingaya's Vidyapeeth (FBD.)

Unit 2: Risk and Return

- Basic Concepts and Methods Risk and Return
- Fundamental Analysis
- Technical Analysis
- Dow Theory – Behavior of Stock Price
- Elliott Wave Theory, Efficient market theory
- Assignment

Unit 3: Portfolio Theory

- Modern Portfolio Theory Portfolio Theory
- Diversification and Portfolio Risk, Portfolio Return and Risk
- Calculation of Portfolio Risk
- Capital Asset Pricing Model
- The Capital Market Line
- Assignment

Unit 4: Equity and Cash Flow

- Equity Valuation: Balance Sheet Techniques.
- Discounted Cash Flow Techniques
- Relative Valuation Techniques: Price-earnings ratio,
- Pricebook value ratio, Price-sales ratio.
- earnings multiplier approach
- Assignment

Unit 5: Portfolio Management

- Portfolio Management
- Formulation of Portfolio Strategy,
- Portfolio Revision, Performance Evaluation.
- Latest Developments, Trends and Practice.
- Structure of Forward and Future Markets. Interpretation of Future and Option Price Quotations
- Assignment

(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 208C	Innovation and Creativity in business	L-T-P:3-0-0
-------------------	--	--------------------

Course Objectives:

1. To introduce BBA students to the concepts and importance of innovation and creativity in the business environment.
2. To explore the role of innovation in driving organizational success and competitiveness.
3. To develop students' ability to think creatively and generate innovative ideas for business solutions.
4. To understand the process of fostering a culture of innovation within organizations.
5. To equip students with practical tools and strategies to implement and manage innovation projects.

Prerequisite:

Basic understanding of the pathways to success, growth, and differentiation. Creativity is the ability to produce new and unique ideas, while innovation is the implementation of those ideas. Both require looking at things from a different perspective and exploring new concepts. Creativity and innovation can benefit businesses by increasing productivity, improving problem-solving skills, and gaining an edge on the competition. To foster creativity and innovation, businesses need to motivate employees, give them time and resources, and use diverse and cross-functional teams.

Course Learning Outcomes:

- 1) Understand the importance of innovation and creativity in the business world.
- 2) Analyze the factors that drive innovation and their impact on organizational success.
- 3) Generate creative ideas and innovative solutions to business challenges.
- 4) Develop strategies to foster a culture of innovation within organizations.
- 5) Implement and manage innovation projects effectively.

HOD
School of Commerce & Management
Lingaya's Vidyapeeth (FBD.)

Unit 1: Introduction to Innovation and Creativity

- Understanding innovation and its role in business success
- Types of innovation: Product, process, and business model innovation
- Creativity and its importance in problem-solving
- Barriers to creativity and how to overcome them
- Ethical considerations in innovation
- Assignment

Unit 2: Drivers of Innovation in Business

- Economic, social, and technological drivers of innovation
- Innovation ecosystems and clusters
- Disruptive innovation and its impact on industries
- Intellectual property protection and innovation
- Innovation and sustainability
- Assignment

Unit 3: Fostering a Culture of Innovation

- Characteristics of an innovative organizational culture
- Leadership and its role in driving innovation
- Building and managing diverse and creative teams
- Managing risk and failure in innovation projects
- Innovation metrics and performance evaluation
- Assignment

Unit 4: Tools and Techniques for Business Innovation

- Design thinking and human-centered innovation
- Ideation techniques for generating creative ideas
- Prototyping and testing innovative solutions
- Lean startup methodology and innovation
- Open innovation and collaboration
- Assignment

Unit 5: Implementing and Managing Innovation Projects

- Innovation strategy and planning
- Resource allocation and budgeting for innovation
- Project management for innovation initiatives
- Scaling and commercializing innovations
- Measuring the success of innovation projects
- Assignment

Recommended Reference Books:

LINGAYA'S VIDYAPEETH
(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 210A	Mergers & Acquisitions	L-T-P:3-0-0
-------------------	-----------------------------------	--------------------

Course Objective:

The fundamental aim of the course is to prepare students to take advantage of the current scenario and understand how corporate restructuring is implemented. At the end of the course, the students should be able to focus on the process of restructuring, identify issues post transaction, their implications and determine the managerial actions for decision making. The course should be complemented with the use of analytical tools.

Prerequisites:

A basic understanding of legal and regulatory aspects related to mergers and acquisitions is beneficial. This includes knowledge of antitrust laws, securities regulations, and corporate governance principles.

Course Learning Outcomes:

1. Gain a comprehensive understanding of the concepts, types, and motivations behind mergers and acquisitions.
2. Assess the strategic rationale and potential synergies driving mergers and acquisitions.
3. Apply financial analysis techniques to evaluate the financial feasibility and value creation potential of mergers and acquisitions.
4. Understand the legal and regulatory frameworks governing mergers and acquisitions, including antitrust laws, securities regulations, and corporate governance principles.
5. Conduct effective due diligence to evaluate the target company's financial, operational, and legal aspects before entering into a merger or acquisition.
6. Understand the challenges of integrating merged entities and develop strategies to manage organizational and cultural change during the post-merger integration process.

HOD
School of Commerce & Management
Lingaya's Vidyapeeth (FBD.)

Unit-I: Corporate Restructuring

- Concept of Corporate Restructuring
- Reasons for Restructuring
- Barriers to Restructuring
- Types of Corporate Restructuring
- The Company Restructuring Process
- Assignment

Unit II: Mergers

- Mergers- types of merger
- Theories of mergers
- Operating, financial and managerial synergy of mergers
- Value creation in horizontal, vertical and conglomerate mergers
- Internal and external change forces contributing to M & A activities, Impact of M & A on stakeholders
- Assignment

Unit III: Legal aspects of Mergers/amalgamations and acquisitions/takeovers

- The Competition Act, 2002
- Role of Competition Commission of India
- The SEBI Substantial Acquisition of Shares and Takeover code
- The Contract Labour (Regulation and Abolition) Act 1970
- Monopolies and Restrictive Trade Practices Act, 1969
- Assignment

Unit IV: Takeovers

- Takeovers, types, takeover strategies, -
- Takeover defenses – financial defensive measures
- Methods of resistance –
- Anti-takeover amendments – poison pills
- Benefits and disadvantages of Takeover
- Assignment

Unit V: Cross-Border M&A

- Cross-Border M&A
- Activity Drivers and returns from cross-border M&A
- Valuation of cross-border firm
- Foreign and National Merger
- Evaluation of cross border Mergers and Acquisition
- Assignment

(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 210B	Public relations and Corporate Image	L-T-P:3-0-0
-------------------	---	--------------------

Course Objective:

The course objective is to make the students understand, appreciate and expose them to the concepts of Public Relations philosophies, essentially and principles with an aim to managing, controlling and improving corporate image and related aspects for any organisation. In addition to empower the students with basic knowledge and skill to implement crisis and issue management techniques in any organisation. These concepts will assist in better understanding of the Corporate World and its functioning.

Prerequisites:

Basic Understanding of marketing as a concept and the Tools and techniques required for Marketing.

Course Learning Outcomes:

Upon completion of course, the student should be able to

1. Achieve clear understanding of Corporate Image.
2. Understanding the essence of the creation of Corporate Image.
3. Understanding the concept of Public Relations and the tools of Public Relations applicable in today's business scenario.
4. Understanding the ways to build reputation with different entities using Public Relations tools and effective media handling.
5. Understanding the benefits of strong Public Relations.
6. Understanding the concepts of CSR and corporate image.

Unit 1: Corporate Image & its implications in Society

- Understanding Corporate Image, Corporate Image Building
- A Marketing Exercise, an overview to Marketing,
- Understanding the Marketing Mix- Product, Price, Place, Promotion.
- Ways to build corporate image and sustainable reputation
- Concept of CSR and building corporate image through its relationship between identity image and reputation
- Assignment

Unit 2: Marketing Communication & its role in Corporate Image Building

- Introduction to the tools used for marketing communication- Advertising,
- Visual Corporate Identity, Public Relations, Sales Promotion,
- Direct Marketing, Sales Management, Sponsorships,
- Exhibitions, Packaging, Merchandising and Point-of-purchase materials,
- E-Marketing and Customer Service
- Assignment

Unit3: Public Relations

- Understanding Public Relations, Role & Scope of PR,
- Corporate Image & PR, PR as part of Marketing Communications
- In-house PR, PR Agencies, Modes of PR & Media Handling,
- PR Events, Crisis Management in Public Relations,
- Interchangeable nature of Issue & Crisis Management.
- Assignment

Unit 4: Public Relations & Publications

- Concept of Publication in Public Relation
- Its importance for sustained Corporate Image
- In-house Journals, Ghost Writing,
- Media Writing, Press releases
- Brochures & Leaflets
- Assignment

Unit 5: Research in Public Relations

- Building Information Resources
- Areas of PR research: Public Opinion Research, Media Tracking,
- Content Analysis
- Campaign Examination, Benchmark Studies
- PR Audit
- Assignment

International Business

LINGAYA'S VIDYAPEETH
(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 212A	International Marketing	L-T-P:3-0-0
-------------------	--------------------------------	--------------------

Course Objective:

The objective of the course "International Marketing" is to provide students with a comprehensive understanding of the principles, strategies, and challenges involved in conducting marketing activities on a global scale. By the end of the course, students will be able to critically analyze global marketing environments, develop international marketing plans, adapt marketing strategies to different cultural contexts, and address the unique challenges and opportunities of expanding businesses internationally.

Prerequisites:

An appreciation for cultural diversity and understanding of cross-cultural communication are critical in international marketing. Familiarity with cultural norms, values, customs, and consumer behavior in different markets helps in developing effective marketing strategies.

Course Learning Outcomes:

1. Create comprehensive marketing plans tailored to global markets, considering cultural nuances, market dynamics, and competitive landscapes.
2. Determine and adapt product, pricing, distribution, and promotion strategies to meet the unique demands of international markets.
3. Modify marketing strategies to align with diverse cultural values, customs, and consumer behavior in different international markets.
4. Apply market research methods to gather relevant data and insights for identifying global market opportunities and understanding consumer preferences.
5. Understand the factors influencing international markets, including cultural, economic, political, and legal aspects.
6. Assess various market entry methods and select appropriate strategies for expanding businesses into international markets.

UNIT 1: Overview of International Marketing

- Need, Scope, Contrast in domestic and international marketing,
- EPRG Framework,
- Socio cultural environment
- Embargoes & sanctions,
- Political risk, legal factors, legal differences
- Assignment

UNIT II: Cross-Border M&A

- Cross-Border M&A
- Activity Drivers and returns from cross-border M&A
- Valuation of cross-border firm
- Foreign and National Merger
- Evaluation of cross border Mergers and Acquisition
- Assignment

UNIT III: Environment and Global Marketing

- Globalisation,
- Function of WTO,
- Regional Economic groups (EEU, NAFTA, etc.),
- World Bank
- FDI
- Assignment

UNIT IV: Global Market Analysis

- Conducting market research in international markets
- Assessing market potential and opportunity
- Analysing cultural and consumer behaviour differences
- Understanding global market segmentation and targeting
- Evaluating competitive forces in international markets
- Assignment

UNIT 5: International Marketing Communication

- Public relations and international communications
- Digital marketing and social media strategies in international contexts
- Measuring the effectiveness of international marketing communication efforts
- Integrated marketing communication in international markets
- Cultural considerations in global advertising and promotion
- Assignment

BBA N 214 B	Technology Commercialization and product development	L-T-P:3-0-0
--------------------	---	--------------------

Course Objectives:

- 1) To develop a deep understanding of the process of technology commercialization and new product development.
- 2) To equip MBA students with the skills necessary to identify, evaluate, and exploit market opportunities for technological innovations.
- 3) To provide students with practical tools and frameworks for assessing the commercial potential of technologies and managing the product development process.
- 4) To enhance students' ability to develop effective marketing strategies and go-to-market plans for technology-based products.
- 5) To foster critical thinking and problem-solving skills in the context of technology commercialization and product development.

Prerequisites:

Basic understanding of Science, Law, and Business activities that lead to the development of products beneficial to public health. Focuses on stages in the technology transfer/commercialization process: Invention Disclosure Protection Marketing Licensing.

Course Learning Outcomes:

The purpose of this course is to provide BBA students with a comprehensive understanding of the challenges and opportunities in technology commercialization and product development. By exploring key concepts and frameworks, students will gain practical insights into the process of transforming technological innovations into successful market offerings. The course aims to develop the skills required to assess market potential, develop effective commercialization strategies, manage product development projects, and create sustainable competitive advantage through innovation.

CO5	1	1	1	1	3	1	1	1

Unit 1: Introduction to Technology Commercialization

- Understanding technology commercialization and its importance
- Technology readiness levels (TRLs)
- Technology transfer
- Intellectual property (IP) protection and management
- Identifying market opportunities for technology-based products
- Evaluating the commercial potential of technologies

Unit 2: Market Analysis and Product Planning

- Conducting market research and customer analysis
- Segmentation, targeting, and positioning (STP) strategies
- Developing value propositions for technology-based products
- Product lifecycle management (PLM)
- Product roadmapping
- New product development (NPD) process and methodologies

Unit 3: Technology Entrepreneurship and Innovation

- Entrepreneurial mindset and opportunity identification
- Managing innovation in technology-intensive industries
- Technology scouting and
- Open innovation approaches
- Building a culture of innovation within organizations
- Financing technology startups and venture capital

Unit 4: Marketing Strategies for Technology-Based Products

- Developing marketing strategies for technology products
- Pricing, distribution,
- Channel strategies
- Marketing communication and branding for technology products
- Creating customer value through product differentiation
- Digital marketing and online sales strategies

Unit 5: Launching and Scaling Technology-Based Products

- Go-to-market planning and execution
- Sales and customer relationship management (CRM)
- Managing product launches and market entry strategies
- Scaling up production
- Supply chain management
- Managing product life cycle challenges

Unit 1: Industry 4.0 and Digital Transformation

- Meaning and Nature of Industry 4.0 and Latest Trends
- Economic, Socio-Cultural, Technological Factors that are driving change in International Business Management, the changing nature of Globalization,
- The changing nature of regulatory environment, natural environment,
- new age ethics
- Overview of Digital Transformation.
- Assignment

Unit 2: Emerging Technologies as Drivers of Global Business

- Artificial Intelligence- Machine Learning, Deep Learning Singularity – Time Lines and Implication.
- Augmented Reality, Virtual Reality and Mixed Reality and Applications.
- Block chain – Concepts and Industrial Applications, Challenges in adopting Block chain.
- Additive Manufacturing: Advantages and Disadvantages, new applications of additive manufacturing, impact of additive manufacturing on supply chain management, mass customization and the customer experience
- Introduction of Neuroscience in Business. Internet of Things (IoT).
- Assignment

Unit 3: New Age Economies

- Circular Economy- Concept of Circular Economy, difference between Linear and Circular Economy, Role of Circular Economy in Sustainable Business and Innovation.
- Behavioural Economics- Core Concepts of Behavioural Economics, Nudging and Choice Architecture, Ethical Concerns of Behavioural Economics
- Economic Nationalism -Nature of Economic Nationalism, Contemporary Cases in Economic Nationalism, Future of Economic Integration
- Sharing Economy – New Business Models , Characteristics , Difference Between Platforms and Traditional Business Models,
- Different Types of Platforms , implications on future of work
- Assignment

Lingaya's Vidyapeeth (FBO.)

LINGAYA'S VIDYAPEETH
(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 214 C	Emerging Business Sectors & Technologies	L-T-P:3-0-0
--------------------	---	--------------------

Course Objective:

1. To give students an exposure to the VUCA environment of International Business
2. To provide in-depth understanding of digital transformation on business processes
3. To understand the impact of Industry 4.0 has on the context of International Business
4. To understand in detail the shifts taking place in the Political, Economic, Social and Technological environments that are shaping business realities

Prerequisites:

The prerequisites include a strong foundation in business fundamentals, such as marketing, finance, and management. Additionally, staying updated with industry trends, technological advancements, and market demands through continuous learning and research is crucial. Developing critical thinking, problem-solving, and adaptability skills will also prepare students to navigate the rapidly changing landscape of emerging sectors and technologies.

Course Learning Outcomes:

Upon successful completion of this course, the student will be able to:

1. Explain in your own words and evaluate the role of state-of-the-art digital technology on changing society
2. Examine and evaluate emerging technologies, such as advanced broadband, nanotechnology, visualization, internet of things, mobile communications, data mining, analytics, social media, robotics, wearables, and online education
3. Understand the effects of design on development of emerging technologies

CO1: To get an overview of the changing context of International Business in the wake of Industry 4.0

CO2: Conceptual understanding of the new technologies that are driving change in business operations and strategy

CO3: Understand shifts in economic thought and its impact on business decisions.

CO4: Understand changing geo politics and analyses its impact on international Business

CO5: Critically think about issues and challenges in the Global World and find sustainable solutions

Unit 4: Changing Natures of Global Politics

- Identity Politics – Issues & Challenges,
- The Rise of Authoritarianism and what that means for geopolitics,
- Reviving Democratic Ideals,
- The Rise of China and its impact on global trade
- Case Study
- Assignment

Unit 5: : Social, Cultural and Global Challenges

- Diversity of different generations in the workplace, issue of inter-generational equity.
- Migration – Political, Economic and Human Rights Perspective, the Migrant Crisis in the EU
- Climate Change – Political Dimensions of Climate Change, Plight and Issue of Climate Refugees, Sustainable Development Goals.
- Rising Inequality: Historical Context of Inequality and Social Unrest, Global Inequality, Social and Economic Reforms.
- Privacy in the Digital World – Complexity of Privacy Issues, Basics of GDPR (General Data Protection Regulation) , Importance of Personal Data
- Assignment

(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 216 A	Strategic Digital marketing	L-T-P:3-0-0
--------------------	------------------------------------	--------------------

Course Objectives:

- 1) To develop a comprehensive understanding of digital marketing strategies and tactics.
- 2) To equip BBA students with the skills necessary to develop effective digital marketing campaigns.
- 3) To provide students with practical tools and frameworks for analyzing digital marketing data and metrics.
- 4) To enhance students' ability to integrate digital marketing into broader marketing and business strategies.
- 5) To foster critical thinking and problem-solving skills in the context of digital marketing challenges and opportunities.

Prerequisites:

Basic understanding of how to achieve marketing goals using online channels. It involves an assessment of specific goals and the current state of owned, paid, and earned media. It also requires frequent collaboration and detailed analytics to ensure positive outcomes. Some examples of online channels and tactics are social media, content marketing, growth marketing, sponsored content, influencer marketing, digital advertising, email campaign etc.

Course Learning Outcomes:

The purpose of this course is to provide BBA students with a solid foundation in strategic digital marketing. By exploring key concepts, frameworks, and techniques, students will gain practical insights into the planning, execution, and measurement of digital marketing campaigns. The course aims to develop the skills required to create effective online marketing strategies, leverage digital channels, analyze customer data, and drive business growth in the digital era.

Unit 1: Introduction to Digital Marketing

- Overview of digital marketing landscape and trends
- Understanding consumer behaviour in the digital age
- Digital marketing strategy and planning
- Customer journey mapping in the digital context
- Ethical considerations in digital marketing
- Assignment

Unit 2: Website and Content Strategy

- Designing and optimizing user-centric websites
- Content creation and storytelling for digital channels
- Search engine optimization (SEO) fundamentals
- User experience (UX) design and usability testing
- Mobile marketing and responsive design
- Assignment

Unit 3: Social Media and Influencer Marketing

- Leveraging social media platforms for marketing purposes
- Social media listening and sentiment analysis
- Creating engaging social media content
- Influencer marketing strategies and relationship management
- Social media advertising and analytics
- Assignment

Unit 4: Digital Advertising and Paid Media

- Fundamentals of digital advertising and media planning
- Search engine marketing (SEM) and pay-per-click (PPC) advertising
- Display advertising and programmatic buying
- Video advertising and YouTube marketing
- Performance tracking and optimization of digital ads
- Assignment

Unit 5: Analytics, Metrics, and Performance Measurement

- Introduction to digital marketing analytics
- Key performance indicators (KPIs) and metrics
- Data-driven decision making in digital marketing
- A/B testing and conversion rate optimization (CRO)
- Marketing automation and customer relationship management (CRM)
- Assignment

LINGAYA'S VIDYAPEETH
(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 216 B	Emerging Business and Technologies	L-T-P:3-0-0
--------------------	---	--------------------

Course Objective:

The objective of the "Emerging Business & Technologies" course is to provide students with a comprehensive understanding of technologies and its emergence in business. The course aims to develop the knowledge and skills necessary to effectively analyze and make informed decisions in complex and uncertain situations. Students will learn the fundamental concepts, tools, and techniques to apply them in various management contexts.

Prerequisites:

A basic understanding of technologies and business trends would be beneficial.

Course Learning Outcomes:

1. Students will gain knowledge about the latest trends and developments in the business world, particularly focusing on emerging technologies and their impact on various industries.
2. They will explore the opportunities and challenges presented by these technologies and their potential implications for different sectors.
3. The course aims to help students identify potential business opportunities that arise from the adoption of emerging technologies.
4. As emerging technologies often raise ethical and societal concerns, the course may focus on discussing these implications.
5. To develop strategic plans that incorporate emerging technologies to drive business growth and competitiveness.

HOD
School of Commerce & Management
Lingaya's Vidyapeeth (FBD.)

Unit 1: Introduction to Emerging Technologies and Business Landscape

- Definition and overview of emerging technologies
- Current business landscape and the role of emerging technologies
- Trends and drivers of technological change
- E-commerce and Omni channel Retailing
- Business Model Innovation
- Assignment

Unit 2: Impact of Emerging Technologies on Industries

- Emerging technologies in various sectors
- Disruption and transformation of traditional business models
- Opportunities and challenges for established and emerging industries
- Edge Computing
- Blockchain for Supply Chain Management
- Assignment

Unit 3: Business Strategy in the Age of Emerging Technologies

- Aligning technology initiatives with business goals and objectives
- Creating competitive advantage through technology adoption
- Developing strategic plans for leveraging emerging technologies
- Data Privacy and Ethic
- Corporate Innovation Strategies
- Assignment

Unit 4: Innovation and Entrepreneurship in the Digital Age

- Understanding the role of innovation in business success
- Identifying and evaluating new business opportunities
- Strategies for fostering an innovative culture
- Augmented Intelligence
- Smart Cities and Urban Technologies
- Assignment

Unit 5: Technologies Shaping the Future of Business

- Decision analysis in project management
- Strategic decision making and business planning
- Resource allocation and optimization
- Risk management and decision under uncertainty
- Real-world case studies and examples
- Assignment

LINGAYA'S VIDYAPEETH
(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 216 C	Marketing Insights & Analytics	L-T-P:3-0-0
--------------------	---	--------------------

Course Objectives:

- 1) To develop a comprehensive understanding of marketing research methods and data analysis techniques.
- 2) To equip MBA students with the skills necessary to collect, analyze, and interpret marketing data for strategic decision-making.
- 3) To provide students with practical tools and frameworks for identifying consumer insights and market trends.
- 4) To enhance students' ability to develop data-driven marketing strategies and evaluate marketing performance.
- 5) To foster critical thinking and problem-solving skills in the context of marketing analytics and insights.

Prerequisites:

Basic Understanding of tracking and analyzing data from marketing efforts, often to reach a quantitative goal. Insights gleaned from marketing analytics can enable organizations to improve their experiences, increase the return on investment (ROI) of marketing efforts, and craft future marketing strategies.

Course Learning Outcomes:

The purpose of this course is to provide BBA students with a solid foundation in marketing insights and analytics. By exploring key concepts, methods, and techniques, students will gain practical insights into the process of gathering, analyzing, and interpreting marketing data. The course aims to develop the skills required to make data-driven marketing decisions, identify consumer behavior patterns, evaluate market opportunities, and measure marketing effectiveness.

Unit 1: Introduction to Marketing Insights and Analytics

- Overview of marketing research and analytics
- Types of data and data sources in marketing
- Research design and sampling techniques
- Primary and secondary data collection methods
- Ethical considerations in marketing research
- Assignment

Unit 2: Consumer Insights and Segmentation Analysis

- Consumer behaviour and decision-making process
- Market segmentation and targeting strategies
- Demographic, psychographic, and behavioural segmentation
- Customer profiling and persona development
- Analysing consumer attitudes and preferences
- Assignment

Unit 3: Quantitative Analysis in Marketing

- Introduction to statistical analysis for marketing
- Descriptive statistics and data visualization
- Hypothesis testing and significance analysis
- Regression analysis and predictive modelling
- Customer lifetime value (CLV) analysis
- Assignment

Unit 4: Marketing Metrics and Performance Measurement

- Key marketing metrics and performance indicators
- Return on investment (ROI) analysis
- Customer satisfaction and loyalty measurement
- Brand equity measurement and analysis
- Marketing dashboards and reporting
- Assignment

Unit 5: Marketing Analytics for Strategic Decision-Making

- Marketing mix modeling and optimization
- Pricing analysis and revenue management
- Market trend analysis and forecasting
- Competitive intelligence and benchmarking
- Marketing experimentation and testing
- Assignment

- 5) "Marketing Metrics: The Definitive Guide to Measuring Marketing Performance" by Paul W. Farris, Neil T. Bendle, and Phillip E. Pfeifer

CO1: Understand the fundamentals of marketing research and its role in gaining consumer insights.

CO2: Apply critical thinking and analytical skills to analyze market data and identify marketing opportunities.

CO3: Utilize marketing analytics tools and techniques to measure and evaluate marketing campaign performance.

CO4: Evaluate the ethical considerations related to marketing data and consumer privacy in analytics-driven marketing.

CO5: Communicate marketing insights effectively to stakeholders through data visualization and presentations.

Business Analytics

LINGAYA'S VIDYAPEETH
(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 218A	Data Management	L-T-P:3-0-0
-------------------	------------------------	--------------------

Course Objective:

The course introduces the student to the role of data, information, and knowledge in software engineering. The course introduces concepts and techniques related to working with data, information and knowledge, although the focus is mostly on data and information. Techniques related to extraction, representation, modelling, and access, and visualization of data are discussed.

Prerequisites:

The prerequisites include a strong foundation in data analysis, statistics, and computer science. Proficiency in programming languages such as Python or R, as well as familiarity with database management systems, is essential. Developing skills in data cleaning, data visualization, and data governance will equip students to effectively manage and utilize data for decision-making and business insights.

Course Learning Outcomes:

At the end of the course, students will :

1. Describe some reasons for the principles of Open Science and FAIR
2. Find, and select, relevant metadata standards for their research project
3. Organise their project files and metadata in a structured way

Unit 1: Introduction to Data management

- What is Data, Four aspects of Data, Introduction to Data flows,
- Data information and knowledge
- Data as a Resource
- Introduction to data Management, Connection between Data management and Data quality
- The Data management framework
- Assignment

Unit 2: Data Governance

- Introduction to Data Governance, Data Governance policies and procedures
- Data ownership and Stewardship, Data governance and Politics in a matrix
- Dimensions of Data ownership
- The Data governance officer , Selection of data owners and data stewards
- DaMAcademy and Data governance
- Assignment

Unit 3: Data Architecture and Modelling

- Introduction to Data architecture, Framework for data architecture, The roles of data architect
- Perspective Data architecture, Descriptive data architecture, DaMAcademy and Prescriptive data architecture
- Introduction to data modelling, Conceptual data modelling
- Logical data modelling, Physical data modelling
- Data modelling in 3 layers for the DaMAcademy
- Assignment

Unit 4: Data Operations and Data qualities

- Introduction to data operations
- Data operations in relation to ITIL Service management and the DaMAcademy
- Introduction to Data quality, Overview of the relevant data qualities
- Measure to improve Data qualities
- Data Qualities in relation to the DaMAcademy.
- Assignment

Unit 5: Business Intelligence and Data warehouses

- Introduction to Business Intelligence, What is a Data Warehouse
- A Practical example of Data Warehouse Models and ETL, BI and DWH and DaMAcademy
- Data Security and Data Privacy
- Security, Risk, Chance and Measure, a combination in Data Security
- Data Security and Privacy and the DaMAcademy
- Assignment

BBA N 218B	Advanced Business Analytics	L-T-P:3-0-0
-------------------	------------------------------------	--------------------

Course Objective:

Successful business analysts, managers, and executives are increasingly required to make data-driven decisions to run their businesses, rather than rely on experience and intuition alone. This course teaches you the latest data analytic methods and decision methods now used by leading-edge business practitioners, going deep to understand their technical inner workings and going broad to realize their practical business applications.

Prerequisites:

Basic probability and statistics. Knowledge of regression analysis (especially maximum likelihood estimation) is preferred, but not required. Familiarity with Jupyter notebooks and Python (including the Numpy and Pandas packages).

Course Learning Outcomes:

By the end of course, students are expected to be able to:

1. Identify the appropriate mathematical model for the consumer behavior under study (survival model, count model, etc.)
2. Build the model of consumer behavior,
3. Apply the model to data to test the accuracy and perform necessary tweaks, and
4. Based on the model constructed, predict outcome change in response to firm strategy

Unit 1: Data Analysis/Business Decision Methodology

- Business decision lifecycle,
- Risk profiles,
- Model performance-to-business value analysis
- Data selection, 2-D & 3-D data visualization,
- Cross-tabulation,

- Assignment

Unit 2 : Descriptive Data Analytic Methods

- Hierarchical agglomeration,
- Applications of Hierarchical agglomeration,
- k-means,
- Gaussian mixture model by expectation-maximization
- Dissimilarity analysis
- Assignment

Unit 3 : Predictive Data Analytic Methods

- Support vector machine,
- Application
- Neural network,
- Logistic regression,
- Decision tree,
- Assignment

Unit 3 : Model Evaluation & Tuning

- Confusion matrix analysis,
- Cross-validation,
- Sensitivity analysis,
- Feature tuning,
- Hyper-parameter tuning
- Assignment

Unit 5 : Data Analytic Methods for Special Data Types

- Time series data,
- Definition & Types
- Techniques of Time Series data
- Text data,
- Social network data
- Assignment

HOD

BBA N 218C	Predictive analytics	L-T-P:3-0-0
-------------------	-----------------------------	--------------------

Course Objective:

The course on Predictive Analytics aims to equip students with the essential knowledge and skills to harness the power of data-driven decision-making. Through this course, students will learn the fundamentals of predictive modeling and gain expertise in various techniques such as regression analysis, classification, and time series forecasting.

Prerequisites:

A fundamental knowledge of statistics and proficiency in data analysis is recommended for this course. Familiarity with programming languages such as Python or R would be beneficial but not mandatory.

Course Learning Outcomes:

1. Understand the fundamentals of predictive analytics and its applications in various industries.
2. Demonstrate proficiency in data preprocessing and cleaning techniques to prepare data for predictive modeling.
3. Implement regression analysis and classification techniques to make data-driven predictions and decisions.
4. Apply time series analysis for forecasting future trends and patterns in time-dependent data.
5. Evaluate and select appropriate predictive models based on performance metrics and interpret model results effectively.

Unit 1: Introduction to Predictive Analytics

- Introduction to Predictive Analytics
- Role of Predictive Analytics in Data-Driven Decision Making
- Key Concepts of Data Mining and Machine Learning
- Data Pre-processing Techniques for Predictive Analytics
- Data Cleaning and Handling Missing Values
- Assignment

Unit 2: Exploratory Data Analysis

- Exploratory Data Analysis (EDA) in Predictive Analytics
- Data Visualization Techniques for Insights
- Identifying Patterns and Trends in Data
- Handling Outliers and Anomalies
- Feature Selection and Feature Engineering for Predictive Models
- Assignment

Unit 3: Predictive Modelling Techniques

- Introduction to Predictive Modelling
- Linear Regression for Predictive Modelling
- Logistic Regression for Classification
- Decision Trees and Random Forests
- Time Series Analysis and Forecasting
- Assignment

Unit 4: Model Evaluation and Selection

- Performance Metrics for Predictive Models
- Understanding Overfitting and Underfitting
- Cross-Validation Techniques for Model Validation
- Model Interpretability and Feature Importance
- Model Selection
- Assignment

Unit 5: Applications of Predictive Analytics

- Real-World Applications of Predictive Analytics in Business and Industries
- Case Studies and Examples of Successful Predictive Analytics Projects
- Ethical Considerations and Privacy Issues in Predictive Analytics
- Future Trends and Advancements in Predictive Analytics
- Building End-to-End Predictive Analytics Solutions
- Assignment

4. "Applied Predictive Modelling" by Max Kuhn and Kjell Johnson
5. "Data Mining: Practical Machine Learning Tools and Techniques" by Ian H. Witten, Eibe Frank, and Mark A. Hall

CO1: Understand the fundamentals of predictive analytics and its applications in various industries.

CO2: Demonstrate proficiency in data pre-processing and cleaning techniques for predictive modelling.

CO3: Implement regression analysis and classification techniques for data-driven predictions.

CO4: Apply time series analysis for forecasting future trends in time-dependent data.

CO5: Evaluate and interpret model results to select appropriate predictive models.

LINGAYA'S VIDYAPEETH

(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 220A	Supply Chain Strategy and Design	L-T-P:3-0-0
-------------------	---	--------------------

Course Objective:

Students should have a basic understanding of supply chain fundamentals, including the concepts of procurement, inventory management, and distribution. A foundational knowledge of business operations and logistics will be beneficial.

Prerequisites:

Students should have a basic understanding of supply chain fundamentals, including the concepts of procurement, inventory management, and distribution. A foundational knowledge of business operations and logistics will be beneficial.

Course Learning Outcomes:

1. Understand the key components and principles of supply chain management and strategy.
2. Analyze business objectives and align supply chain strategies to optimize performance.
3. Evaluate demand forecasting techniques and inventory management strategies for efficient supply chain operations.
4. Design and optimize supply chain networks, considering facility location, transportation, and distribution.
5. Develop risk management plans to mitigate disruptions and enhance supply chain resilience.
6. Demonstrate proficiency in using information technology to support supply chain strategy and design.

Unit 1: Introduction to Supply Chain Management

- Overview of Supply Chain Management
- Importance of Supply Chain Strategy in Business
- Key Components of Supply Chain Design
- Supply Chain Performance Metrics
- Role of Information Technology in Supply Chain Management
- Assignment

HOD

School of Commerce & Management
Lingaya's Vidyapeeth (FBD.)

Unit 2: Supply Chain Strategy Formulation

- Aligning Supply Chain Strategy with Business Objectives
- Demand Forecasting and Planning in Supply Chains
- Inventory Management Strategies and Techniques
- Supplier Selection and Relationship Management
- Outsourcing and Make-or-Buy Decisions
- Assignment

Unit 3: Supply Chain Network Design

- Designing Optimal Supply Chain Networks
- Facility Location and Capacity Planning
- Transportation and Distribution Network Design
- Warehouse Design and Layout
- Cross-Docking and Just-in-Time (JIT) Systems
- Assignment

Unit 4: Risk Management in Supply Chain

- Identifying and Assessing Supply Chain Risks
- Supply Chain Risk Mitigation Strategies
- Business Continuity Planning and Disaster Recovery
- Managing Supply Chain Disruptions and Resilience
- Supply Chain Security and Risk Monitoring
- Assignment

Unit 5: Sustainable Supply Chain Management

- Introduction to Sustainable Supply Chains
- Environmental and Social Responsibility in Supply Chains
- Green Supply Chain Practices and Initiatives
- Circular Economy and Closed-Loop Supply Chains
- Ethical Sourcing and Sustainable Procurement
- Assignment

(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 220B	Operations Strategy	L-T-P:3-0-0
-------------------	----------------------------	--------------------

Course Objective:

The objective of the "Operations Strategy" course is to provide understanding about the practical aspects of operations strategy, selection of process and infrastructure development. The aim of this course is to make the students familiar with the changes required in the operational strategy with the changing environment.

Prerequisites:

A basic understanding of operations strategy would be beneficial.

Course Learning Outcomes:

1. Describe and discuss the key operations strategy concepts covered.
2. Discuss critically the practical use of the techniques covered, taking into account organizational context.
3. Explain and discuss the relationship between operations strategy with other functional strategies and overall business policy in the context of the strategic goals and objectives of the organization.
4. Relate theoretical debates about the choices available to operations managers to the practical development and implementation of operations strategy.

Unit 1: Introduction to Operations Strategy

- Definition and scope of operations strategy
- Role of operations strategy in business
- Objectives of Operations Strategy
- Importance of operations strategy in business
- Relationship between operations strategy and overall business strategy
- Assignment

Unit 2: Operations Strategy Frameworks and Operations Planning and Control

- Competitive priorities in operations
- Operations strategy and the value chain
- Resource-based view of operations strategy
- Capacity planning and management
- Aggregate planning
- Inventory management
- Assignment

Unit 3: Process Design and Improvement

- Process analysis and improvement techniques (e.g., flowcharts, value stream mapping)
- Process reengineering and
- lean principles
- Six Sigma and
- quality management
- Assignment

Unit 4: Supply Chain Management and Technology and Innovation in Operations

- Understanding the supply chain and its components
- Supplier selection and relationship management
- Logistics and distribution management
- Role of technology in operations strategy
- Introduction to digitalization, automation, and Industry
- Assignment

Unit 5: Performance Measurement and Continuous Improvement

- Concept of Performance Measurement and Continuous Improvement
- Key performance indicators (KPIs) for operations
- Balanced scorecard
- Performance measurement frameworks
- Continuous improvement methodologies (e.g., Kaizen, Total Quality Management)
- Assignment

(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 220C	Supply Chain Risk Modelling & Management	L-T-P:3-0-0
-------------------	---	--------------------

Course Objective:

The course on Supply Chain Risk Modelling & Management aims to equip students with the necessary knowledge and skills to effectively identify, assess, and mitigate risks in supply chain operations. Through this course, students will learn various techniques for supply chain risk modeling, such as scenario planning and sensitivity analysis. They will understand the impact of supply chain disruptions and develop strategies for business continuity and resilience.

Prerequisites:

Students are expected to have a basic understanding of supply chain management concepts, including supply chain processes and operations. Familiarity with risk management principles and basic statistical analysis will be helpful but not required.

Course Learning Outcomes:

1. Understand the concepts and theories of supply chain risk management and its importance in modern business operations.
2. Identify and assess various types of supply chain risks, both internal and external, that may impact supply chain performance.
3. Utilize different risk modeling techniques, such as scenario planning and sensitivity analysis, to predict potential disruptions and their impact on the supply chain.
4. Develop effective risk mitigation strategies, including risk transfer, avoidance, and collaboration with suppliers and partners.
5. Formulate business continuity plans to ensure the resilience of supply chain operations during times of disruptions.

HOD
School of Commerce & Management
Lingaya's Vidyapeeth (FBD.)

Unit 1: Introduction to Supply Chain Risk Management

- Overview of Supply Chain Risk Management
- Understanding Supply Chain Risks and Uncertainties
- Importance of Supply Chain Resilience
- Supply Chain Risk Management Frameworks
- Role of Risk Management in Business Continuity
- Assignment

Unit 2: Supply Chain Risk Identification and Assessment

- Techniques for Supply Chain Risk Identification
- Categorizing Supply Chain Risks: Internal and External
- Risk Assessment Methods and Tools
- Evaluating Impact and Probability of Supply Chain Risks
- Risk Mapping and Visualization
- Assignment

Unit 3: Supply Chain Risk Mitigation Strategies

- Developing Supply Chain Risk Mitigation Plans
- Risk Transfer, Avoidance, and Reduction Strategies
- Supply Chain Diversification and Redundancy
- Collaborative Risk Management with Suppliers and Partners
- Integrating Risk Management into Supply Chain Operations
- Assignment

Unit 4: Supply Chain Disruption Management

- Understanding Supply Chain Disruptions and their Causes
- Business Continuity Planning and Contingency Strategies
- Managing Disruptions in Transportation and Logistics
- Building Resilient Supply Chain Networks
- Post-Disruption Recovery and Learning from Disruptions
- Assignment

Unit 5: Advanced Topics in Supply Chain Risk Modeling

- Supply Chain Simulation Modeling for Risk Analysis
- Sensitivity Analysis and Scenario Planning
- Quantitative Approaches to Supply Chain Risk Modeling
- Emerging Technologies in Supply Chain Risk Management
- Case Studies in Supply Chain Risk Modeling & Management
- Assignment

(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 301	Business Policy and Strategic Management	L-T-P:3-0-0
------------------	---	--------------------

Course Objective:

Knowing about applied Strategic Management frameworks & tools to analyse, formulate & implement Strategies. To develop strategic thinking about the direction, positioning & capabilities to achieve a sustainable competitive advantage in business.

Prerequisites:

A basic understanding of Business Policy and Strategic Management Would be beneficial as strategies are crucial for the business.

Course Learning Outcomes:

1. Develop a comprehensive understanding of strategic management principles, concepts, and frameworks.
2. Learn to assess the internal and external factors that influence an organization's strategic decisions.
3. Develop the ability to formulate business-level and corporate-level strategies that align with the organization's mission, vision, and goals.
4. Understand different strategic approaches, such as cost leadership, differentiation, diversification, and innovation.
5. Learn about the challenges and techniques involved in executing strategies across different functional areas within an organization.
6. Analyse and discuss case studies of companies' strategic successes and failures. Apply strategic management concepts to real-world business situations.

HOD
School of Commerce & Management
Lingaya's Vidyapeeth (FBD.)

Unit 1: Business Policy & Strategic Management

- Concept of Strategic Management
- Concept of Strategic Planning, Mission, Vision and Values of a Business Organization
- Nature, scope of the Business Policy
- Importance of Business Policy
- Types of Policies, Corporate Culture
- Assignment

Unit 2: Environmental Scanning

- External and Internal Environmental Scanning, Industry Analysis
- Concept of Value Chain, Resource Based View
- The Industry Cycles, 4P Strategy Concept and Porter's Competitive Model
- SWOT Analysis,
- Value Chain Concept
- Assignment

Unit3: Strategy Formulation

- Situational Analysis
- Corporate Strategy,
- Directional Strategy
- Growth, Stability and Retrenchment Strategy,
- Levels of Strategy
- Assignment

Unit 4: Strategy Implementation

- Implementation Challenges,
- Resource Allocation, Design Thinking,
- Red Oceans Vs Blue Ocean Strategy,
- Business Model Innovation, BCG Matrix,
- GEC Model
- Assignment

Unit 5: Strategy Evaluation & Control

- Measuring Performance,
- Balanced Scorecard,
- Contingency Planning,
- Strategy Auditing,
- Difference Between Strategic Control and Operational Control,
- Assignment

BBA N 303A	Business Valuation	L-T-P:3-0-0
-------------------	---------------------------	--------------------

Course Objective:

The course aims to provide students with a comprehensive understanding of the key concepts, methods, and approaches used in business valuation. Students learn about different valuation models and techniques commonly employed in practice.

Prerequisites:

Business valuation subjects in BBA typically include a strong foundation in finance and accounting, as well as knowledge of financial statement analysis.

Course Learning Outcomes:

1. Develop the ability to apply various valuation methodologies to determine the worth of a business, including discounted cash flow (DCF) analysis, market multiples, and asset-based approaches.
2. Gain the skills to analyze financial statements, assess the financial health of a company, and identify key value drivers that impact business valuation.
3. Understand the ethical considerations and potential biases in business valuation, and apply critical thinking and judgment in making valuation decisions.
4. Demonstrate the ability to communicate valuation analyses effectively through written reports and presentations.
5. Apply business valuation concepts in real-world scenarios, such as mergers and acquisitions, investment analysis, and financial decision-making.

Unit 1: Introduction to Business Valuation

- Concept of Value, Understanding the various definitions
- Purpose of Business Valuation
- Valuation Approaches, the income approach, market approach, and asset-based approach
- Valuation Standards and Guidelines: Familiarizing with the widely accepted valuation standards and guidelines
- Valuation Process, process of conducting a business valuation, including gathering information, selecting appropriate methods, analyzing financial statements, and preparing a valuation report.
- Assignment

Unit 2: Financial Statement Analysis for Valuation

- Financial Statement Overview
- Financial Ratio Analysis
- Cash Flow Analysis
- Forecasting and Projections
- Adjustments and Normalizations
- Assignment

Unit 3: Valuation Methods and Techniques

- Income Approach
- Market Approach
- Asset-Based Approach
- Relative Valuation
- Real Options, growth opportunities and strategic flexibility
- Assignment

Unit 4: Advanced Valuation Topics

- Cost of Capital, the weighted average cost of capital (WACC) and the capital asset pricing model (CAPM)
- Synergy and Control Premiums
- Intellectual Property Valuation
- Valuation of Startups
- Valuation in Special Situations
- Assignment

Unit 5: Valuation Reporting and Professional Standards

- Valuation Reports, purpose of the report, scope of work, valuation methods used, assumptions and limitations, and conclusion of value
- Professional Standards and Ethics
- Legal and Regulatory Considerations
- Valuation in Litigation
- Valuation Case Studies
- Assignment

4. "The Art of Company Valuation and Financial Statement Analysis: A Value Investor's Guide with Real-life Case Studies" by Nicolas Schmidlin.
5. "Principles of Business Valuation" by George J. Barker, II, and Michael J. Mard.

CO1: To gain a solid understanding of the fundamental principles and concepts of business valuation.

CO2: To develop strong financial analysis skills to assess a company's financial statements, historical performance, and future prospects.

CO3: To learn and apply different valuation techniques.

CO4: To gain the ability to evaluate and quantify the risks associated with a business.

CO5: To prepare comprehensive valuation reports that communicate the results of their analysis effectively.

BBA N 303 B	Financial Analytics	L-T-P:3-0-0
--------------------	----------------------------	--------------------

Course Objective:

To provide a strong foundation in financial analytics in order to handle complex financial data, build advanced analytical models and deliver effective visualization products and comprehensive reports.

Prerequisites:

In this the basic concept regarding computational finance will be applied using real time data & computer knowledge is required.

Course Learning Outcomes:

1. Analyse financial data.
2. Construct and optimize asset portfolios
3. Evaluate and model Risk on various financial assets

Unit 1: Introduction to Financial Analytics (5 topics + assignments)

- Definition & Scope of Financial analytics
- Data Analytics in Finance Functions
- Financial Data Analysis Tools
- Recent trends in Financial Analytics
- Commonly used Statistical Models for Practical Data Analytics
- Assignment

Unit 2: Financial Statement Analysis & Financial Models (5 topics + assignments)

- Financial Statement Analysis
- Ratio Analysis
- The DuPont Identity
- Financial Models
- External Financing and Growth
- Assignment

Unit 3: Time Value of Money (5 topics + assignments)

- Concepts & Importance
- Present Value (single and multiple cash flows),
- Future Value (single and multiple cash flows)
- Annuity
- Compounding the interest rates
- Assignment

Unit4: Capital Structure Analysis (5 topics + assignments)

- Concept of Capital Structure
- Capital Structure Theories
- Factors Determining Capital Structure
- Financial Distress
- Financial leverage and Firms Value
- Assignment

Unit 5: Capital Budgeting(5 topics + assignments)

- Net Present Value
- Internal Rate of Return (IRR)
- Profitability Index (PI)
- Payback period & Discounted Payback Period
- Accounting Rate of Return
- Assignment

BBA N 303 C	Financial Risk management	L-T-P:3-0-0
--------------------	----------------------------------	--------------------

Course Objective:

This course aims to provide theoretical and applied knowledge on the most relevant issues and methods required for a sound financial risk management,

Prerequisites:

In this basic understanding of business concepts regarding finance management & investment management required.

Course Learning Outcomes:

1. It should develop a solid understanding of the various types of financial risks.
2. Learn about different strategies and tools for managing financial risks
3. Learning about regulatory frameworks, risk management policies, and the role of risk management in maintaining legal and ethical standards.
4. Understanding the monitoring and reporting of financial risks.
5. Gain knowledge of established risk management frameworks, industry best practices, and relevant standards.

Unit 1: Introduction (5 topics + assignments)

- Concept of Risk, Nature
- Need and Scope of Risk
- Concept of Financial management risk and types
- Process of Risk Management
- Tools to Monitor Financial Risk
- Assignment

Unit 2: Measurement and Management of Risk (5 topics + assignments)

- Value at Risk (VaR)
- Cash Flow at Risk (CaR)
- VaR & CaR to Make Investment Decision
- Managing risk when risk is measured by VaR or CaR
- Asset-Liability Management (ALM)
- Assignment

Unit 3: Techniques and Tools of Risk Management- Forward & Future contracts (5 topics + assignments)

- Concept of Derivatives and types of Derivatives
- Benefits of Derivative Market
- Uses of Financial Derivative
- Forward Contracts
- Futures Contracts
- Assignment

Unit 4: Techniques and Tools of Risk Management: Swaps & Option (5 topics + assignments)

- Definition & Significance
- Types of Options & Swaps
- Features of Swaps
- Reason to Use Option
- BOPM & BSOPM
- Assignment

Unit 5: Credit Risk Management (5 topics + assignments)

- Introduction to Credit Risk
- Type of Credit Risk
- Credit risk management
- Impact of Credit Risk on Financial Performance and Stability
- Practical Problems
- Assignment

LINGAYA'S VIDYAPEETH
(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 305A	Sales Force Management	L-T-P:3-0-0
-------------------	-------------------------------	--------------------

Course Objective:

Throughout the course, students will gain a comprehensive understanding of the key principles and practices involved in sales force management, including recruitment, training, motivation, and performance evaluation. By studying various sales strategies and techniques, students will learn how to design and implement effective sales force structures and systems that align with organizational goals. Moreover, the syllabus aims to enhance students' abilities to analyze market trends, customer behavior, and competitive landscapes to develop targeted sales strategies and optimize sales force performance.

Perquisites:

Basic understanding of marketing principles and concepts and familiarity with organizational behavior and management fundamentals.

Course Learning Outcome:

Understand the key principles and theories of sales force management, including sales force structure, recruitment, selection, and training. Apply effective sales force management strategies to optimize sales team performance, motivate salespeople, and achieve sales targets.

Unit I Concept of Sales Force Management

- Introduction to Sales Force Management
- Nature of sales force management
- Importance of sales force management
- Designing the Sales Force objectives,
- sales force size, Functions of Sales Manager
- Assignment

Unit II Organizing Sales Force

- Organisation of the Sales Department Geographic
- Product wise and market based
- strategy Of sales force management
- Structure of sales force management
- Case study
- Assignment

Unit III Management of sales force

- Managing the Sales Force Recruitment and selection of sales force
- Training and direction;
- Motivating sales personnel
- Sales force compensation
- Performance appraisal
- Assignment

Unit IV Forecasting and Budgeting

- Sales Planning and Control Market Analysis, and sales forecasting,
- Methods of forecasting sales, Sales territory planning
- Sales Budgeting :Importance,
- Process and uses of sales budget; Sales quota
- Sales and cost Analysis
- Assignment

Unit V Recent Trends In Sales Force Management

- Emerging Trends in Sales Force Management
- Use of innovative technology in Sales force management
- CRM, Sales force diversity
- Team based selling approach, Ethical
- social issues in sales force management
- Assignment

BBA N 305 B	Marketing Research	L-T-P:3-0-0
--------------------	---------------------------	--------------------

Course Objective:

The course objectives are to introduce the student to the theory and practice of marketing research, to develop the student's skills in qualitative and quantitative research methods in marketing, to develop the student's critical appreciation of the marketing research literature and to develop the student's ability to collect and analyse primary and secondary data

Prerequisites:

This course benefited the students with necessary knowledge and skills involved in undertaking a dissertation and wider marketing research. A basic understanding of business marketing will give basic understanding of marketing and research methodology to students and it will be beneficial.

Course Learning Outcomes:

1. Identify marketing problem(s) to assist in decision making
2. Choose the methodologies to acquire evidence in an ethical manner to address the marketing problem
 3. Retrieve primary and secondary data to solve the marketing problem
 4. Establish the methodological quality, reliability and validity of the data collected
5. Integrate all types of relevant evidence towards finding solutions to the marketing problem
6. Find solutions to the marketing problem based on the integrated relevant evidence
7. Produce an evidence-based marketing report to maximise likelihood of effective implementation of solutions

Unit 1: Concept of Marketing Research (5 topics + assignments)

- Concept, Nature, Scope of marketing research
- Objectives of Marketing Research,
- Importance of marketing research
- Marketing Research Process
- Role of Marketing Research in Managerial Development
- Assignment

Unit 2: Research Design (5 topics + assignments)

- Concept of Research Design
- Formulating the Research Problem
- Choice of Research Design
- Types of Research Design
- Budgeting & scheduling the Research Project
- Assignment

Unit 3: Sample and Sampling Design (5 topics + assignments)

- Concept & advantage of sampling
- Sampling process
- Types of Sample Designs and Sampling
- Determining the Sample Size
- Scaling Techniques
- Assignment

Unit 4: Data Collection (5 topics + assignments)

- Secondary Data,
- Sources of Secondary Data,
- Collection of Primary Data,
- Methods of Data Collection
- Data Processing and Tabulation
- Assignment

Unit 5: Data Analysis (5 topics + assignment)

- Testing of Hypothesis
- Measurement of Central Tendency
- Dispersion, Multiple Regression
- Interpretation and Report Writing
- Types of Research Reports
- Assignment

BBA N 305C	Advanced Interactive Marketing and Measurement	L-T-P:3-0-0
-------------------	---	--------------------

Course Objective:

1. Understand the foundations of interactive marketing and its role in contemporary business practices.
2. Explore advanced strategies for utilizing digital channels, platforms, and technologies in marketing.
3. Learn how to develop effective digital marketing campaigns that align with business objectives.
4. Acquire knowledge and skills in measuring and analyzing marketing performance using relevant metrics and tools.
5. Apply theoretical concepts to real-world interactive marketing scenarios through case studies and projects.

Prerequisites:

A basic understanding of digital marketing and its tools would be beneficial.

Course Learning Outcomes:

By the end of the course, students should be able to:

1. Evaluate the impact of interactive marketing on modern business practices and identify its benefits and challenges.
2. Develop comprehensive digital marketing strategies that integrate multiple channels, platforms, and technologies.
3. Create and implement effective digital marketing campaigns that align with business

objectives and target audience.

4. Measure and analyze marketing performance using relevant metrics, tools, and techniques.
5. Apply data-driven insights to optimize marketing campaigns and make informed decisions.
6. Utilize search engine optimization (SEO) techniques to improve website visibility and organic traffic.
7. Plan and execute pay-per-click (PPC) advertising campaigns, including keyword research, bidding, and ad targeting.

Unit 1: Introduction to Interactive Marketing and Digital Consumer Behavior

- Definition and scope of interactive marketing
- Evolution and trends in digital marketing
- The role of interactive marketing in the marketing mix
- Understanding online consumer behavior
- Factors influencing consumer decision-making online
- Assignment

Unit 2: Digital Marketing Strategy and Planning

- Digital marketing introduction and Nature
- Developing an effective digital marketing strategy
- Setting objectives and
- KPIs
- Targeting and segmentation in digital marketing
- Assignment

Unit 3: Search Engine Optimization (SEO) and Pay-Per-Click (PPC) Advertising

- Fundamentals of SEO
- Keyword research and optimization
- On-page SEO techniques and Off-page SEO techniques
- Introduction to PPC advertising
- Google Ads and Bing Ads platforms
- Assignment

Unit 4: Social Media Marketing

- Social media platforms and their marketing potential
- Social media content strategy
- Social media advertising and influencer marketing
- Effective email marketing strategies
- Introduction to marketing automation tools
- Assignment

Unit 5: Mobile Marketing and Content Marketing and Video Marketing

- Mobile marketing trends and opportunities
- Mobile app marketing strategies
- Location-based marketing and proximity marketing
- Content marketing strategy and planning
- Creating engaging content for digital channels
- Video marketing tactics and platforms
- Assignment

BBA N 307 A	Managing human resources In SMEs/Start-ups	L-T-P:3-0-0
--------------------	---	--------------------

Course Objective:

This course focuses on the unique challenges and strategies involved in managing human resources in small and medium-sized enterprises (SMEs) and start-up organizations. It explores the critical role of effective HR management in attracting, developing, and retaining talent, while also addressing the specific needs and constraints of smaller organizations. Students will gain practical knowledge and skills to navigate the HR landscape in SMEs and start-ups and contribute to their long-term success.

Prerequisites:

A basic understanding of business management concepts is important to contextualize the role of HR within SMEs and start-ups. Knowledge of topics such as organizational structure, strategy, operations, and entrepreneurship will help students grasp the strategic significance of HR in smaller organizations.

Course Learning Outcomes:

1. Gain a comprehensive understanding role of Human Recourse in Start up
2. Articulate the strategic contributions that effective HR management can make to the success and growth of SMEs and start-ups
3. Assist to Identify and employ appropriate recruitment and selection methods tailored to the needs of SMEs and start-ups
4. Design and deliver training and development initiatives that address the unique needs and constraints of SMEs and start-ups
5. Understand and apply relevant employment laws and regulations that pertain to HR functions in SMEs and start-up

6. Mitigate legal risks associated with employment relationships and maintain compliance in areas such as hiring, compensation, and employee rights

Unit 1: Introduction to Human Resource Management in SMEs/Start-ups: (5 topics + assignments)

- Overview of human resource management (HRM) and its importance in SMEs/Start-ups
- Unique challenges and opportunities in managing HR in small and medium-sized enterprises (SMEs) and start-ups
- HRM roles in SMEs/Start-ups
- Functions in SMEs/Start-ups
- Legal and regulatory considerations in HRM for SMEs/Start-ups
- Assignment

Unit 2: Talent Acquisition and Recruitment Strategies (5 topics + assignments)

- Strategic workforce planning and forecasting for SMEs/Start-ups
- Job analysis and design for SMEs/Start-up
- Effective recruitment strategies for attracting top talent in SMEs/Start-ups
- Selection methods and techniques for identifying the right candidates
- Employer branding and employee value proposition in SMEs/Start-ups
- Assignment

Unit 3: Employee Development and Performance Management (5 topics + assignments)

- Designing and implementing effective employee development programs in SMEs/Start-ups
- Performance management systems and processes for goal setting, feedback, and evaluation
- Coaching and mentoring for employee growth and development
- Managing performance issues and conducting disciplinary actions in SMEs/Start-ups
- Employee engagement and motivation strategies in SMEs/Start-ups
- Assignment

Unit 4: Compensation and Benefits in SMEs/Start-ups (5 topics + assignments)

- Understanding compensation structures and strategies in SMEs/Start-ups
- Job evaluation and salary benchmarking for determining fair compensation
- Incentive and bonus programs for performance-driven cultures
- Employee benefits design and administration in SMEs/Start-ups
- Legal compliance and taxation considerations in compensation and benefits
- Assignment

Unit 5: Employee Relations and Legal Compliance (5 topics + assignments)

- Developing positive employee relations in SMEs/Start-ups
- Effective communication and conflict resolution strategies
- Employee rights and labour laws relevant to SMEs/Start-ups
- Workplace diversity and inclusion initiatives
- Managing HR risks and ensuring legal compliance in SMEs/Start-ups
- Assignment

BBA N 307B	Strategic Management in Social Enterprises	L-T-P:3-0-0
------------	--	-------------

Course Objective:

The objectives of this course are to integrate the skills and knowledge students have acquired in functional areas and develop in students a holistic perspective of enterprise, critical from the point of view of the top executives.

Prerequisites:

The prerequisites include a solid understanding of business principles and management concepts. Additionally, having knowledge of social and environmental issues, as well as a passion for creating positive social impact, is crucial.

Course Learning Outcomes:

1. Exhibit knowledge of the major cultural, economic, social and legal environments faced by organizations in global markets
2. Assess the needs of and justify the advantages accruing from expanding into international markets

Unit 1: Introduction to Business Policy and Strategy:

- Nature & importance of business policy & strategy
- Introduction to the strategic management process and related concepts
- Characteristics of corporate, business & functional level strategic management decisions;
- Company's vision and mission,
- need for a mission statement
- Assignment

Unit 2: Strategic Formulation

- Stages and Importance, Formulation of Alternative Strategies: Mergers, Acquisitions, Takeovers, Joint Ventures, Diversification, Turnaround, Divestment and Liquidation.
- Strategic Analysis and Choice: Corporate Portfolio Analysis, BCG Matrix, GE Nine Cell Matrix, Hofer's Matrix, Strategic Choice Factors and Importance
- Strategic Implementation: Steps, Importance and Problems
- Project implementation – Procedural implementation, Resource Allocation – Organization Structure – Matching Structure and Strategy
- Behavioral Implementation Attitude, Leadership, Corporate Culture, Organizational change
- Assignment

Unit 3: Strategy Evaluation and Control:

- Strategic Evaluation and Control: Concept, Importance, Limitations and Techniques
- Operations Control and Strategic Control, Management Control, Auditing
- Models in Strategic Management: Red Ocean Vs Blue Ocean Strategy, VRIO Framework, Porter 5 Forces, 7 s of Strategy
- Budgetary Control: Advantages, Limitations
- Institutional Voids; Types of Institutional Voids
- Assignment

Unit 4: Business, Corporate and Global Strategies:

- Corporate Restructuring Strategies: Concept, Need and Forms, Corporate Renewal Strategies: Concept, Internal and External factors and Causes.
- Strategic Alliance: Concept, Types, Importance, Problems of Indian Strategic Alliances and International Businesses
- Mergers and Acquisitions: Reasons, Difference between Merger, Acquisition and Takeover,
- Scenario mapping – Strategic Mapping, Scenario Planning. Issues in Managing a New Venture.
- Public Private Participation: Importance, Problems and Governing Strategies of PPP Model
- Assignment

Unit 5: Emerging Strategic Trends:

- Business Process Outsourcing and Knowledge Process Outsourcing in India: Concept and Strategies. Reasons for growing BPO and KPO businesses in India.
- Disaster Management: Concept, Problems and Consequences of Disasters, Strategies for Managing and Preventing disasters and Cope up Strategies.
- Start-up Business Strategies and Make in India Model - Challenges, Case Studies based on Successful Start-ups, Contribution of Make in India Policy in overcoming industrial sickness.
- Tailoring Strategy to fit Specific Industry – Life Cycle Analysis - Emerging, Growing, Mature & Declining Industries.
- New Business Models and strategies for Internet Economy: Shaping characteristics of ECommerce environment – ECommerce Business Model and Strategies – Internet Strategies for Traditional Business – Key success factors in E-Commerce – Virtual Value Chain.
- Assignment

BBA N 307C	Strategic and Global HRM	L-T-P:3-0-0
-------------------	---------------------------------	--------------------

Course Objective:

Through this course, students will develop the knowledge and skills necessary to align HRM practices with overall business strategies, effectively manage a diverse workforce, and navigate the complexities of HRM in a global context. Additionally, the syllabus aims to cultivate critical thinking and problem-solving abilities, as students will learn to analyze HRM challenges and develop strategic solutions that promote organizational success and sustainable competitive advantage.

Perquisites:

Foundational knowledge of human resource management principles and practice. Familiarity with strategic management concepts and their application in organizational settings.

Course Learning Outcomes:

Throughout the course, students will develop a range of key learning outcomes. Firstly, they will gain the ability to analyze and evaluate the impact of strategic HRM practices on organizational performance and success. This includes understanding the alignment of HR strategies with overall business strategies and the integration of HR practices to drive organizational effectiveness. Secondly, students will enhance their knowledge of global HRM, including cross-cultural challenges, international staffing, and managing a diverse workforce. They will also learn how to develop and implement HRM strategies that support multinational operations and adapt to different cultural contexts.

UNIT I Introduction to SHRM

- Introduction to Strategic HRM – An Investment Perspective of Human Resource Management
- Introduction to business and corporate strategies - Integrating HR strategies with business strategies

- Human Resource Environment,
- Technology and structure
- Management Trends- Demographic trends – Trends in the utilization of human resources
- Assignment

UNIT II SHRM Planning and Forecasting

- Integrating Strategy and Human Resource Planning -
- The strategic role of Human Resource Planning
- Selecting forecasting techniques, forecasting the supply of human resources, forecasting the demand for human resources
- workforce utilization and
- Employment practices
- Assignment

UNIT III HRM in Global Environment

- Human Resource Management in a dynamic global environment:-
- Technological Changes
- Total Quality Management (TQM)
- International Assignment
- issues related to Work life balances
- Assignment

Unit-IV Globalization and HRM

- Globalization and Human Resource Management-
- Cultural variables in Global Organisation
- Cross Culture Management
- Global recruitment policies
- Succession Policy
- Assignment

BBA N 309 A	Export Import Documentation and Logistics	L-T-P:3-0-0
--------------------	--	--------------------

Course Objective:

The course on Export Import Documentation and Logistics aims to provide students with a comprehensive understanding of the documentation procedures and logistics involved in international trade. Through this course, students will learn about the essential documents required for both export and import transactions, as well as the legal and regulatory aspects of international trade.

Prerequisites:

There are no specific prerequisites for this course. However, students with a basic understanding of international trade concepts and familiarity with business operations will benefit from the course content.

Course Learning Outcomes:

1. Understand the fundamental concepts and procedures of international trade and export-import documentation.
2. Identify and prepare essential export-import documents required for various trade transactions.
3. Demonstrate proficiency in compliance with customs regulations and legal requirements in international trade.
4. Analyze and manage different logistics and transportation methods used in global supply chains.
5. Implement efficient freight forwarding and customs clearance processes for smooth cross-border trade.

Unit 1: Introduction to Export-Import Documentation

- Overview of International Trade and Export-Import Procedures
- Essential Documents in Export Transactions
- Essential Documents in Import Transactions
- Roles of Customs and Regulatory Authorities in Export-Import
- Compliance and Legal Considerations in International Trade
- Assignment

Unit 2: Export-Import Documentation Procedures

- Preparing Proforma and Commercial Invoices
- Export Packing and Marking Requirements
- Bill of Lading and Airway Bill
- Certificate of Origin and Quality Certifications
- Export-Import Documentation for Special Trade Agreements
- Assignment

Unit 3: Logistics and Transportation in International Trade

- Modes of International Transportation: Air, Sea, Road, and Rail
- Freight Forwarding and Customs Clearance
- Incoterms and Their Implications in Logistics
- Managing International Shipping and Delivery
- Export-Import Insurance and Risk Mitigation
- Assignment

Unit 4: Export-Import Finance and Payment Methods

- Methods of Payment in International Trade
- Letters of Credit and Documentary Collections
- Export-Import Financing and Trade Credit
- Foreign Exchange and Currency Risk Management
- Trade Finance Instruments and Trade Facilitation
- Assignment

Unit 5: Export-Import Documentation and Regulatory Compliance

- Export Control and Compliance with Trade Regulations
- Import Duties, Tariffs, and Trade Barriers
- Trade Agreements and Preferential Tariff Treatments
- Export-Import Documentation Auditing and Record Keeping
- Best Practices for Efficient Export-Import Documentation Management
- Assignment

BBA N 309 B	Global Marketing	L-T-P:3-0-0
--------------------	-------------------------	--------------------

Course Objective:

The objective of the course "Global Marketing" is to provide students with a comprehensive understanding of marketing principles and strategies in a global context. The course aims to familiarize students with the complexities of conducting business in diverse international markets, including cultural differences, market dynamics, and strategic considerations. By the end of the course, students will have gained the knowledge and skills necessary to develop and implement effective global marketing strategies.

Prerequisites:

A strong foundation in marketing principles is essential. This includes an understanding of the marketing mix (product, price, place, promotion) and basic marketing concepts.

Course Learning Outcomes:

1. Develop a comprehensive understanding of the global business environment, including cultural, economic, political, and legal factors that impact global marketing strategies.
2. Identify and evaluate global market opportunities through market research, analysis of market trends, and assessment of consumer behavior in different cultural contexts.
3. Apply global marketing concepts and frameworks to develop effective marketing strategies that address the challenges and opportunities of diverse global markets.
4. Modify product, pricing, distribution, and promotion strategies to cater to the unique needs, preferences, and cultural differences of international target markets.
5. Develop strategies to build and manage global brands, considering factors such as brand positioning, brand equity, and global brand communication.
6. Evaluate different market entry methods and select appropriate strategies for entering and expanding into global markets, including exporting, licensing, joint ventures, and foreign direct investment.

Unit 1: Introduction to Global Marketing

- Basics of global marketing and its significance in the modern business environment
- Differences between domestic and global marketing
- Cultural, economic, and political factors influencing global marketing strategies
- Global market analysis and selection
- Modes of market entry and expansion into international markets
- Assignment

Unit 2: Market Segmentation and Targeting in Global Markets

- Importance of market segmentation in global marketing
- Cultural considerations in global market segmentation
- Evaluating and selecting target markets in diverse global contexts
- Positioning strategies for global markets
- Standardization versus customization approaches in global marketing
- Assignment

Unit 3: Product and Brand Management in Global Markets

- Product adaptation and innovation in global markets
- Managing global product portfolios and product life cycles
- Global branding strategies and building brand equity
- Intellectual property protection in international markets
- Ethical considerations in global product and brand management
- Assignment

Unit 4: Pricing and Distribution Strategies in Global Markets

- Pricing strategies in global marketing
- Factors influencing pricing decisions in international markets
- International pricing methods and strategies
- Distribution channel selection and management in global markets
- Managing logistics and supply chains in global contexts
- Assignment

Unit 5: Global Marketing Communication

- Integrated marketing communication in global markets
- Cultural considerations in global advertising and promotion
- Public relations and international communications
- Digital marketing and social media strategies in global contexts
- Measuring the effectiveness of global marketing communication efforts
- Assignment

BBA N 309 C	International Supply Chain Management & Logistics	L-T-P:3-0-0
--------------------	--	--------------------

Course Objective:

The objective of the course "International Supply Chain Management & Logistics" is to provide students with a comprehensive understanding of the key principles, strategies, and challenges involved in managing global supply chains and logistics operations. The course aims to equip students with the knowledge and skills necessary to analyze, design, and optimize international supply chains, considering factors such as global sourcing, transportation, inventory management, and distribution.

Prerequisites:

To effectively engage with the subject of International Supply Chain Management & Logistics, certain prerequisites are recommended. Firstly, a foundational understanding of basic supply chain management concepts and principles is essential. This includes knowledge of procurement, inventory management, transportation, and warehousing. Additionally, a solid grasp of logistics fundamentals, such as transportation modes, routing, and distribution, is beneficial.

Course Learning Outcomes:

1. A comprehensive understanding of global supply chain management concepts, including procurement, inventory management, transportation, and warehousing, within an international context.
2. Analyze and evaluate global supply chain networks, considering factors such as sourcing, distribution, and logistics infrastructure, to identify areas for optimization and efficiency improvement.
3. Understand the impact of international trade regulations, customs procedures, and compliance requirements on global supply chain operations, and apply this knowledge to ensure smooth cross-border movement of goods.

HOD 
School of Commerce & Management
Lingaya's Vidyapeeth (FBD)

4. Develop skills to effectively manage inventory levels, forecast demand, and implement strategies to minimize stockouts and excess inventory in international supply chains.
5. Design and optimize transportation strategies for international supply chains, considering factors such as transportation modes, routing, and cost-efficiency, to ensure timely and cost-effective delivery of goods.
6. Utilize supply chain technologies, such as warehouse management systems, transportation management systems, and data analytics, to improve visibility, tracking, and performance monitoring in global supply chains.
7. Identify and mitigate risks within international supply chains, such as disruptions, supplier dependencies, and geopolitical challenges, while building resilience to adapt to changing market conditions.

Unit 1: Introduction to International Supply Chain Management

- Overview of supply chain management principles and concepts
- Introduction to global supply chain management and its significance
- Key components of international supply chains
- Cross-border trade and its impact on supply chain operations
- Ethical and sustainability considerations in international supply chain management
- Assignment

Unit 2: Global Sourcing and Procurement

- Sourcing strategies in global supply chains
- Supplier selection and evaluation
- International procurement processes and practices
- Managing supplier relationships and negotiations
- Risk management in global sourcing
- Assignment

Unit 3: International Transportation and Logistics

- Modes of transportation in international logistics
- Freight forwarding and customs procedures
- International logistics network design and optimization
- Transportation cost management and route planning
- Technology and innovation in international transportation
- Assignment

Unit 4: Inventory Management in Global Supply Chains

- Inventory control methods and techniques
- Global inventory planning and optimization
- Demand forecasting in international contexts
- Just-in-time (JIT) and lean principles in global supply chains
- Inventory risk management and mitigation strategies
- Assignment

Unit 5: Supply Chain Performance Measurement and Optimization

- Key performance indicators (KPIs) for global supply chains
- Supply chain analytics and data-driven decision making
- Continuous improvement and optimization strategies
- Sustainability and green supply chain practices
- Supply chain resilience and risk management in international contexts
- Assignment

VIDYAPEETH

WILSON UNIVERSITY
ESTD 1982

Know to know

LINGAYA'S VIDYAPEETH
(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 311 A	Entrepreneurship, Creativity & Innovation	L-T-P:3-0-0
--------------------	--	--------------------

Course Objective:

To Understand the creativity and innovations management aspects in an enterprise.

Prerequisites:

A basic understanding of Entrepreneurship, Creativity & Innovation Would be beneficial.

Course Learning Outcomes:

1. Gain a comprehensive understanding of the definitions, theories, and frameworks related to creativity, innovation, and entrepreneurship.
2. Develop skills to think creatively, generate new ideas, and explore alternative solutions to problems and challenges.
3. Learn to recognize market gaps, customer needs, and emerging trends that present opportunities for innovation and entrepreneurial ventures.
4. Learn to assess and manage the risks associated with innovation and entrepreneurship, including financial, market, and operational risks.
5. Explore techniques for generating and validating business ideas and concepts to determine their viability and potential impact.
6. Understand the design thinking approach and various innovation processes used to develop and implement creative ideas and solutions.

Unit 1: Introduction to Entrepreneurship:

- Concept, theories, process
- Factors impacting emergence of entrepreneurship,
- Growth of entrepreneurship environment in India,
- Role of entrepreneurship in economic development, Traits of successful entrepreneur
- Managerial vs. entrepreneurial approach, Entrepreneurial promotion in India.
- Assignment

Unit 2: Starting the venture:

- Creative thinking, Business idea generation (Business cases on entrepreneurship),
- Environmental scanning pertaining to business idea
- Feasibility study: Market feasibility,
- Technical/ Feasibility operations, financial feasibility
- Project Report
- Assignment

Unit3: Introduction to Creativity:

- Importance of innovation in modern society, Components of Creativity
- Creativity Process and Techniques for improving creativity process.
- Mechanism of Thinking. Barriers to creativity.
- Organization and personal factors to promote creativity Identification of needs and opportunities.
- Creative thinking, evaluation of ideas. Demonstration of the novelty. Myths surrounding creativity.
- Assignment

Unit 4: Creativity Tools and Techniques:

- Lateral Thinking, Enablers and Barriers to Creativity
- Creative Personality, Brainstorming, Entrepreneurial Creativity.
- Characteristics of Creative Groups, Three Components of Individual Creativity.
- Time Pressure and Creativity.
- Analyse various methods that enhance creative ability.
- Assignment

Unit 5: Introduction to Innovation:

- Meaning, Characteristics, Purpose/goals of innovation,
- Sources of innovation, Types of innovation.
- Differences between invention and innovation.
- Factors that Favor Incremental Innovation. Sustainability and Innovation. Innovation Management Strategies.
- Incubation and Innovation: How Business Incubators Work
- Assignment

BBA N 311 B	Business Model Development & Strategic Planning	L-T-P:3-0-0
--------------------	--	--------------------

Course Objective:

The course aims to acquaint the learners with fundamental economic theories and their impact on pricing, demand, supply, production, and cost concepts.

Prerequisites:

For learning about business model development and strategic planning, having a foundational understanding of business principles can be beneficial.

Course Learning Outcomes:

1. Students will demonstrate an understanding of the key components of a business model and how they contribute to value creation and competitive advantage.
2. To be able to analyze market trends, customer behavior, and competitive forces to identify opportunities and threats for business model development and strategic planning.
3. To learn how to identify and articulate unique value propositions that align with customer needs and differentiate a business from competitors.
4. Students will gain proficiency in the strategic planning process, including setting goals, conducting environmental scans, formulating strategies, implementing action plans, and evaluating performance.
5. To recognize the potential for business model innovation and disruption, and understand strategies to leverage emerging technologies and market shifts.

Unit 1: Introduction to Business Model Development and Strategic Planning

- Business Model Canvas
- Value Proposition
- Market Analysis
- SWOT Analysis
- Strategic Planning Process
- Assignment

Unit 2: Business Model Innovation and Disruption

- Disruptive Innovation
- Business Model Innovation
- Blue Ocean Strategy
- Platform Business Models
- Open Innovation
- Assignment

Unit 3: Financial Analysis and Resource Allocation

- Financial Statements Analysis
- Key Performance Indicators
- Cost Structure Analysis
- Resource Allocation
- Capital Budgeting
- Assignment

Unit 4: Market Entry Strategies and Competitive Advantage

- Market Segmentation
- Differentiation Strategies
- Cost Leadership
- Market Entry Modes
- Competitive Analysis
- Assignment

Unit 5: Execution and Performance Measurement

- Strategy Execution
- Balanced Scorecard
- Key Result Areas (KRAs)
- Performance Measurement and Monitoring
- Continuous Improvement
- Assignment

BBA N 311 C	SOCIAL ENTREPRENEURSHIP	L-T-P:3-0-0
--------------------	--------------------------------	--------------------

Course Objective:

The main objective of this course is to impart students with the fundamental knowledge of social entrepreneurship and the skills required for launching, managing and achieving growth of social enterprise as a career option.

Prerequisites:

A basic understanding of social entrepreneurship and social entrepreneurs, social entrepreneurship ideas and opportunities would be beneficial.

Course Learning Outcomes:

By the end of this course, students should be able to:

1. Understand the fundamentals of social entrepreneurship;
2. Know social entrepreneurs;
3. Recognize opportunities and generate ideas of social enterprises;
4. Develop social enterprise concepts and models;
5. Identify and analyze entrepreneurial opportunities;
6. Write social venture plans;
7. Measure social value; and
8. Launch social enterprise and prepare for its growth

Unit 1: Introduction to Social Enterprise

- Overview of social entrepreneurship
- Individual as a social entrepreneur
- Challenges and future prospects of social entrepreneurship
- Type of social enterprises
- Models of social enterprises, Support of corporate social responsibility activities for social enterprise.
- Assignment

Unit 2: Understanding environment and creating social enterprise

- Idea generation for social enterprise
- social innovation and inclusion
- Need identification of product/service of social enterprise
- Appraising the idea formation through feasibility analysis
- Achieving social objectives with commercial ventures
- Assignment

Unit 3: Mobilizing resource and Networking for Social Enterprise

- Society and social problem as resource
- Creating Business model
- writing business plan
- Source of capital for social enterprise
- Different fundraising strategies and models
- Assignment

Unit 4: Managing growth and performance

- Strategic framework analysis of social enterprise
- crafting alliances between non profit business & government organizations ,Different growth models
- Social enterprise management and sustainability of social enterprise, social audits.
- Skill development and enhancement
- Market research for product/service of social enterprise
- Assignment

Unit 5: Socio-Economic Impact of social enterprise

- Profiling the Social Entrepreneur and
- Their Social ventures.
- Benefits of social enterprise
- Rewards of social enterprise
- Impact of social enterprise on community and stakeholders
- Assignment

BBA N 313 A	Emerging business and technologies	L-T-P:3-0-0
--------------------	---	--------------------

Course Objective:

1. Understand the concept of emerging technologies and their significance in the business context.
2. Identify and analyze the potential impact of emerging technologies on different industries.
3. Explore innovative business models and strategies that leverage emerging technologies.
4. Evaluate the ethical, legal, and societal implications of adopting emerging technologies in business.
5. Develop critical thinking and problem-solving skills through case studies and real-world examples.
6. Gain hands-on experience with emerging technologies through practical exercises and projects.
7. Stay updated with the latest trends and developments in the field of emerging business and technologies.

Prerequisites:

A basic understanding of emerging technologies would be beneficial.

Course Learning Outcomes:

This course provides an overview of the latest trends and technologies shaping the business landscape. Students will explore emerging technologies and their potential impact on various industries. The course will also cover innovative business models and strategies that leverage these technologies for competitive advantage. Through case studies, discussions, and practical exercises, students will develop a deeper understanding of the opportunities and challenges presented by emerging business and technologies.

Unit 1: Introduction to Emerging Technologies

- Definition and scope of emerging technologies
- Importance and relevance of emerging technologies in business
- Current trends and examples of emerging technologies
- Analysis of the potential impact of emerging technologies on various industries
- Opportunities and challenges for businesses in adopting emerging technologies
- Assignment

Unit 2: Innovative Business Models and Strategies

- Introduction of Innovative Business Models
- Examination of innovative business models that leverage emerging technologies
- Strategies for creating competitive advantage through the adoption of emerging technologies
- Disruptive technologies and
- Their implications for traditional business models
- Assignment

Unit 3: Ethical, Legal, and Societal Considerations

- Ethical implications of emerging technologies in business decision-making
- Legal and regulatory challenges associated with the adoption of emerging technologies
- Societal impact of businesses in using emerging technologies
- Responsibilities of businesses in using emerging technologies
- Corporate social responsibility and ethical frameworks for responsible technology use
- Assignment

Unit 4: Key Emerging Technologies

- Overview and analysis of prominent emerging technologies:
- Artificial Intelligence (AI) and Machine Learning (ML)
- Internet of Things (IoT) and connected devices
- Block chain and decentralized systems
- Robotics and automation
- Assignment

Unit 2: Data Collection and Pre-processing

- Data collection methods and sources
- Data quality and data cleaning techniques
- Data integration and data transformation
- Exploratory data analysis (EDA)
- Data visualization and storytelling
- Assignment

Unit 3: Predictive Analytics and Machine Learning

- Introduction to predictive analytics
- Supervised and unsupervised machine learning algorithms
- Classification and regression techniques
- Clustering and association rule mining
- Model evaluation and validation
- Assignment

Unit 4: Big Data Analytics for Business Applications

- Customer analytics and segmentation
- Market basket analysis and recommendation systems
- Sentiment analysis and opinion mining
- Fraud detection and risk analytics
- Social network analysis
- Assignment

Unit 5: Big Data Governance and Business Strategy

- Privacy and security considerations in big data analytics
- Data governance and compliance
- Developing a big data strategy for businesses
- Data-driven decision-making and strategic planning
- Ethical implications and social responsibility in big data
- Assignment

BBA N 313 B	Entrepreneurship Development	L-T-P:3-0-0
--------------------	-------------------------------------	--------------------

Course Objective: The course aims to equip the learners with entrepreneurship so that they are inspired to look at entrepreneurship as a viable, lucrative, and preferred option of professional life.

Prerequisites:

A strong passion for innovation and risk-taking, as well as a solid foundation of business knowledge and skills are required. Additionally, an entrepreneurial mindset that embraces adaptability, resilience, and perseverance is crucial.

Course Learning Outcomes:

1. Examine how different economic systems function and evaluate implications of various economic decisions;
2. Examine how consumers try to maximize their satisfaction by spending on different goods;
3. Analyze the relationship between inputs used in production and the resulting outputs and costs;
4. Analyze and interpret market mechanism and behaviour of firms and response of firms to different market situations;
5. Examine various facets of pricing under different market situations.

Unit 1: Introduction

- Meaning, elements entrepreneurship
- Determinants and importance of entrepreneurship and creative Behaviour
- Entrepreneurship and creative response to the society' problems and at work
- Dimensions of entrepreneurship: entrepreneurship, technopreneurship, cultural entrepreneurship, international entrepreneurship,
- Netpreneurship, ecopreneurship, and social entrepreneurship
- Assignment

(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 315B	Data visualization and Dashboard Design	L-T-P:2-1-0
-------------------	--	--------------------

Course Objective:

This course will give students the fundamental concepts for data visualization with focus on how to build business related dashboards that can be applied to any software. It will focus on how to select the best way to visualize a data set in order to effectively and objectively communicate the business insights to our students.

Prerequisites:

This course provides the necessary inputs required on various techniques and methodology of Data Visualizations. Further this courses provides inputs into how reports can be developed using the help of EXCEL

Course Learning Outcomes:

1. Apply visualization techniques for various data analysis tasks.
2. Presenting data through charts and maps
3. Design information dashboard

Unit 1:Introduction to Data Visualization

- Stages in visualizing data, types of visualization
- Find data, evaluate, extract, clean, correct and merge data
- forming the right questions, forming connections and correlations,
- Making successful data visualizations, publishing and disseminating data visualizations.
- Tools for creating visualizations, Google Spreadsheet, Google Fusion Tables,Tableau etc
- Assignment

- Market Research Methods and Techniques
- Understanding Market Segmentation
- Market Entry Strategies
- PESTEL Analysis (Political, Economic, Social, Technological, Environmental, Legal)
- Pricing Strategies and Pricing Analysis
- Assignment

Unit 1: Introduction to Business Intelligence

- Overview of business intelligence and its importance in decision-making
- Key components of BI: Data warehousing, data mining, and data integration
- Data-driven decision-making and
- its role in business strategy
- Ethical considerations in data usage and BI
- Assignment

Unit 2: Data Collection and Preparation

- Data collection methods and sources
- Data cleaning and
- data transformation
- Data aggregation and data storage
- Data quality and data governance
- Assignment

Unit 3: Data Analysis and Interpretation

- Descriptive data analysis techniques
- Diagnostic data analysis techniques
- Data visualization principles and best practices
- Using BI tools for data analysis
- Identifying business trends and patterns from data
- Assignment

Unit 4: Data Visualization Techniques

- Selecting appropriate data visualization types
- Creating effective charts,
- graphs, and dashboards
- Visual storytelling and conveying insights through data visualization
- Designing interactive and engaging data visualizations
- Assignment

LINGAYA'S VIDYAPEETH
(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 315A	Big Data Analytics	L-T-P:2-1-0
-------------------	---------------------------	--------------------

Course Objectives:

1. To develop a comprehensive understanding of big data analytics concepts and techniques.
2. To equip BBA students with the skills necessary to analyze and interpret large-scale data sets.
3. To provide students with practical tools and frameworks for leveraging big data to gain business insights.
4. To enhance students' ability to make data-driven decisions and solve complex business problems.
5. To foster critical thinking and problem-solving skills in the context of big data analytics.

Prerequisites:

A basic understanding of uncovering trends, patterns, and correlations in large amounts of raw data.

Course Learning Outcomes:

The purpose of this course is to provide BBA students with a solid foundation in big data analytics. By exploring key concepts, methodologies, and tools, students will gain practical insights into the process of collecting, analysing, and interpreting large-scale data sets. The course aims to develop the skills required to uncover valuable business insights, make data-driven decisions, and drive business growth in the era of big data.

Unit 1: Introduction to Big Data Analytics

- Overview of big data concepts and characteristics
- Understanding the challenges and opportunities of big data
- Introduction to data mining and machine learning
- Big data analytics tools and technologies
- Ethical considerations in big data analytics
- Assignment

HOD 
School of Commerce & Management
Lingaya's Vidyapeeth (FBD.)

Unit 2: Data Collection and Pre-processing

- Data collection methods and sources
- Data quality and data cleaning techniques
- Data integration and data transformation
- Exploratory data analysis (EDA)
- Data visualization and storytelling
- Assignment

Unit 3: Predictive Analytics and Machine Learning

- Introduction to predictive analytics
- Supervised and unsupervised machine learning algorithms
- Classification and regression techniques
- Clustering and association rule mining
- Model evaluation and validation
- Assignment

Unit 4: Big Data Analytics for Business Applications

- Customer analytics and segmentation
- Market basket analysis and recommendation systems
- Sentiment analysis and opinion mining
- Fraud detection and risk analytics
- Social network analysis
- Assignment

Unit 5: Big Data Governance and Business Strategy

- Privacy and security considerations in big data analytics
- Data governance and compliance
- Developing a big data strategy for businesses
- Data-driven decision-making and strategic planning
- Ethical implications and social responsibility in big data
- Assignment

BBA N 315B	Data visualization and Dashboard Design	L-T-P:2-1-0
-------------------	--	--------------------

Course Objective:

This course will give students the fundamental concepts for data visualization with focus on how to build business related dashboards that can be applied to any software. It will focus on how to select the best way to visualize a data set in order to effectively and objectively communicate the business insights to our students.

Prerequisites:

This course provides the necessary inputs required on various techniques and methodology of Data Visualizations. Further this courses provides inputs into how reports can be developed using the help of EXCEL

Course Learning Outcomes:

1. Apply visualization techniques for various data analysis tasks.
2. Presenting data through charts and maps
3. Design information dashboard

Unit 1: Introduction to Data Visualization

- Stages in visualizing data, types of visualization
- Find data, evaluate, extract, clean, correct and merge data
- forming the right questions, forming connections and correlations,
- Making successful data visualizations, publishing and disseminating data visualizations.
- Tools for creating visualizations, Google Spreadsheet, Google Fusion Tables, Tableau etc
- Assignment

Unit 2: Setting the Context of Data Visualization

- Setting the Purpose and Identifying Key Factor
- Demonstrating Editorial Focus and Learning About Your Data
- Conceiving and Reasoning Visualization Design Options
- Taxonomy of Data Visualization Methods
- Constructing and Evaluating Your Design Solution
- Assignment

Unit 3: : Introduction to Data Handling

- Overview of Data Analysis,
- Working with Logical and financial functions
- Data Validation & data models, Power Map for visualizing data,
- Power BI-Business Intelligence, D
- Dashboard designing
- Assignment

Unit 4: : Introduction to Data Manipulation

- Smart Chart, Column Chart, Line Chart , Pi, Bar, Scatter Chart, Data Series
- Sparklines, Combination Chart, Gauge, Thermometer Chart etc
- Frequency Distribution, Pivot Chart, Slicers, Tables: Structured References, Table Styles,
- What-If Analysis: Data Tables, Goal Seek, Sensitivity Analysis, Histogram, Descriptive, Statistics,
- Anova, F-Test, t-Test, Moving, Average, Exponential Smoothing,.
- Assignment

Unit 5: Data Strategy

- Understanding Product & Category, Competitive Analysis
- Market Share understanding- Market potential Index, Seasonality Sales Trending
- Consumer behavior Analytics-MIND AND MARKET FACTORS,
- Budget planning & Execution
- Forecasting method with predictive investment modelling, Cohort Analysis, Google Analytics (GA)
- Assignment

CO1: Employ best practices in data visualization to develop charts, maps, tables, and other visual representations of data.

CO2: Use Tableau's visualization tools to conduct data analysis, especially exploration of an unfamiliar dataset.

CO3: Create compelling, interactive dashboards to combine several visualizations into a cohesive and functional whole

CO4: Utilize advanced Tableau features including parameters, data blending, custom SQL, very large datasets, custom date hierarchies, and others.

CO5: Use data visualizations, dashboards, and Tableau Stories to support relevant communication for diverse audiences.

(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 315 C	Business Intelligence and Data Visualization	L-T-P:2-1-0
--------------------	---	--------------------

Course Objectives:

- 1) To introduce BBA students to the concepts and techniques of business intelligence (BI) and data visualization.
- 2) To explore the role of BI in supporting decision-making and strategic planning in organizations.
- 3) To develop students' ability to gather, analyze, and interpret data for business insights.
- 4) To equip students with practical skills in data visualization and effective communication of data-driven insights.
- 5) To foster critical thinking and problem-solving skills in the context of BI and data visualization.

Prerequisite:

Basic understanding of representing information in graphical form, such as charts, graphs, dashboards, or reports. It helps users make sense of the data and develop powerful business insights. Data visualization can be applied to structured data and historical data, and can be used for reporting and future prediction.

Course Learning Outcomes:

- 1) Understand the concepts and applications of business intelligence in organizations.
- 2) Analyze and interpret data to identify business trends and opportunities.
- 3) Apply data visualization techniques to present complex data effectively.
- 4) Develop data-driven insights to support decision-making and strategic planning.
- 5) Communicate data-driven insights to diverse stakeholders in a clear and compelling manner.

Unit 1: Introduction to Business Intelligence

- Overview of business intelligence and its importance in decision-making
- Key components of BI: Data warehousing, data mining, and data integration
- Data-driven decision-making and
- its role in business strategy
- Ethical considerations in data usage and BI
- Assignment

Unit 2: Data Collection and Preparation

- Data collection methods and sources
- Data cleaning and
- data transformation
- Data aggregation and data storage
- Data quality and data governance
- Assignment

Unit 3: Data Analysis and Interpretation

- Descriptive data analysis techniques
- Diagnostic data analysis techniques
- Data visualization principles and best practices
- Using BI tools for data analysis
- Identifying business trends and patterns from data
- Assignment

Unit 4: Data Visualization Techniques

- Selecting appropriate data visualization types
- Creating effective charts,
- graphs, and dashboards
- Visual storytelling and conveying insights through data visualization
- Designing interactive and engaging data visualizations
- Assignment

Unit 5: BI Implementation and Application

- Integrating BI into business processes
- BI for strategic planning and performance management
- BI for marketing,
- sales, and customer analytics
- Emerging trends in business intelligence and data visualization
- Assignment

Recommended Reference Books:

- 1) "Data Science for Business: What You Need to Know about Data Mining and Data-Analytic Thinking" by Foster Provost and Tom Fawcett
- 2) "Data Visualization: A Practical Introduction" by Kieran Healy
- 3) "Storytelling with Data: A Data Visualization Guide for Business Professionals" by Cole Nussbaumer Knaflic
- 4) "Business Intelligence Guidebook: From Data Integration to Analytics" by Rick Sherman
- 5) "The Big Book of Dashboards: Visualizing Your Data Using Real-World Business Scenarios" by Steve Wexler, Jeffrey Shaffer, and Andy Cotgreave

CO1 - Understand the principles and concepts of business intelligence and data visualization.
 CO2 - Apply critical thinking to analyze business data and identify insights for decision-making.
 CO3 - Develop data visualization techniques to effectively present complex business information.
 CO4 - Utilize business intelligence tools and technologies for data analysis and reporting.
 CO5 - Recognize the ethical considerations related to handling and visualizing business data.

Discipline Specific Elective - 8

Supply Chain Management

LINGAYA'S VIDYAPEETH
(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 317 A	Business Process Improvement	L-T-P:3-0-0
--------------------	-------------------------------------	--------------------

Course Objective:

The objective of this Business Process Improvement Certification Course is to empower the organization as follows:

1. Have an in-depth understanding of BPI
2. Understand and apply BPI framework in your organisation
3. Identify processes that need improvement
4. Understand how to create engagement with the stakeholders

Prerequisites:

A basic understanding of Basic Business Knowledge and Understanding of Operations and Supply Chain Management would be beneficial.

Course Learning Outcomes:

This course focuses on the principles, methodologies, and tools used to analyze and improve business processes. Students will learn how to identify process inefficiencies, streamline workflows, and optimize performance to enhance productivity, quality, and customer satisfaction. The course will cover various process improvement approaches, such as Lean Six Sigma and Business Process Reengineering, and provide hands-on experience with process mapping, data analysis, and continuous improvement techniques

Unit 1: INTRODUCTION

- Business Process Improvement and its evolution
- What is Business Process Re-engineering?
- Understand how to drive innovation with BPI
- List the Personal Skills required for BPI
- Defining a framework for Business Process Improvement
- Assignment

Unit 2: THE PROCESS IMPROVEMENT OUTLINE

- Creating a Process Inventory and Creating Process formats
- Defining methods of documentation
- Determining processes required for business operations
- Enhancing your modelling skills via a cross-functional activity diagram
- Assessing and evaluating modelling techniques and key principles
- Assignment

Unit 3: PROCESS EFFICIENCY

- Designing appropriate success criteria for the processes
- Understand the difference between Optimizing vs. enhancing your business process
- Addressing customer needs via processes
- Assessing process performance
- Deriving KPIs from business drivers
- Assignment

Unit 4: PROCESS COMMUNICATION

- Identifying key stakeholders
- Identifying the style of communication with the stakeholders
- Determining Barriers to change
- Identifying positive and negative forces for change
- Understanding the force field analysis approach
- Assignment

Unit 5: CONTINUOUS IMPROVEMENT

- What is continuous improvement?
- Understand tools for continuous improvement
- Six Sigma and TQM
- 5S
- Planning for continuous improvement
- Assignment

(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 317 B	Operations Research	L-T-P:2-1-0
--------------------	----------------------------	--------------------

Course Objective:

1. The objective of the "Operations Research " course is to provide students with a comprehensive understanding of Operations Research in Supply Chain management.
2. To acquaint the student with the applications of Statistics and Operations Research To business and industry
3. To help them to grasp the significance of analytical techniques in decision making.
4. To test on the application of Operations Research to business related problems

Prerequisites:

There are no specific prerequisites for this course. However, a basic understanding of Operations Research would be beneficial.

Course Learning Outcomes:

1. Formulation of a Linear programming problem.
2. Solve the formulation of Linear programming.
3. Evaluate the initial solution for the Transportation Model.
4. Evaluate the solution for the Assignment Problem.
5. Minimize the waiting hours of simultaneous projects undertaken.
6. Explain the different network models.
7. Evaluate the solution for game theory.
8. Solve the game theory using dominance.
9. Understand the descriptive statistics and probability.
10. Apply the statistical techniques in reality to market scenario.

Unit - 1 : Introduction to Operations Research:

- Definition of operations research
- Models of operations research
- Scientific methodology of operations research
- Scope of operations research, importance of operations research in decision making
- Role of operations management, limitations of OR.
- Assignment.

Unit - 2 : Linear Programing Problems & Transportation Problem

- Linear Programming: Introduction – Mathematical formulation of a problem
- Graphical solutions, standard forms the simplex method for maximization and minimization problems.
- Transportation problem – Introduction – Initial basic feasible solution
- NWC method – Least cost method – Vogel's method
- MODI – moving towards optimality – solution procedure without degeneracy
- Assignment

Unit - 3 : Assignment Problem

- Assignment problem meaning
- Definition and Steps of Assignment problem
- Algorithm
- Hungarian method
- simple problems.
- Assignment

Unit - 4 : Job Sequencing & Replacement Models

- Sequencing problem – processing through 2 machines, 3 machine
- S jobs and K machines and
- Traveling salesman problem
- Replacement of items that deteriorate gradually – with time, without time, that fails completely
- Individual replacement – group replacement
- Assignment

Unit - 5 : Network Models

- Network models and simulation
- Network models for project analysis
- CPM; Network construction and time analysis;
- Cost time trade off,
- PERT – problems
- Assignment

(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA N 317 C	Supply Chain Strategy and Design	L-T-P:3-0-0
--------------------	---	--------------------

Course Objective:

The course aims to provide students with a comprehensive understanding of supply chain management principles and strategic design. Students will learn to align supply chain strategies with business objectives, optimize supply chain networks, and enhance resilience to potential disruptions.

Prerequisites:

Students should have a fundamental understanding of supply chain management principles and concepts. Familiarity with logistics and transportation fundamentals will be beneficial but not mandatory.

Course Learning Outcomes:

1. Understand the fundamental principles and concepts of supply chain management.
2. Analyze supply chain strategies and align them with overall business objectives.
3. Design and optimize supply chain networks to improve efficiency and reduce costs.
4. Evaluate demand forecasting techniques and implement inventory management strategies.
5. Develop risk management plans to address potential disruptions and enhance supply chain resilience.
6. Apply logistics and transportation management techniques to streamline supply chain operations.

Unit 1: Introduction to Supply Chain Management

- Overview of Supply Chain Management
- Importance of Supply Chain Strategy in Business
- Key Components of Supply Chain Design
- Supply Chain Performance Metrics
- Role of Information Technology in Supply Chain Management
- Assignment

Unit 2: Supply Chain Strategy Formulation

- Aligning Supply Chain Strategy with Business Objectives
- Demand Forecasting and Planning in Supply Chains
- Inventory Management Strategies and Techniques
- Supplier Selection and Relationship Management
- Outsourcing and Make-or-Buy Decisions
- Assignment

Unit 3: Supply Chain Network Design

- Designing Optimal Supply Chain Networks
- Facility Location and Capacity Planning
- Transportation and Distribution Network Design
- Warehouse Design and Layout
- Cross-Docking and Just-in-Time (JIT) Systems
- Assignment

Unit 4: Risk Management in Supply Chain

- Identifying and Assessing Supply Chain Risks
- Supply Chain Risk Mitigation Strategies
- Business Continuity Planning and Disaster Recovery
- Managing Supply Chain Disruptions and Resilience
- Supply Chain Security and Risk Monitoring
- Assignment

Unit 5: Sustainable Supply Chain Management

- Introduction to Sustainable Supply Chains
- Environmental and Social Responsibility in Supply Chains
- Green Supply Chain Practices and Initiatives
- Circular Economy and Closed-Loop Supply Chains
- Ethical Sourcing and Sustainable Procurement
- Assignment

LINGAYA'S VIDYAPEETH
(A Deemed to be University u/s 3 of UGC Act, 1956)

BBA-STPR 01	Professional Company Internship Project	L-T-P:0-0-4
-------------	--	-------------

Introduction

There are certain phases of every student's professional development that cannot be effectively taught in the academic environment. These facets can only be learned through direct, on-the-job experience working as a protégé under professional mentors and experts from the corporate.

Definition

Summer Internship / Industry Internship programme is an integral part of the academic curriculum of MBA/BBA/B.COM(HONS)/BMI programmes. It aims at widening the student's perspective by providing an exposure to real life organizational and environmental situations. This enables the students to explore an industry/organization, build a relationship with a prospective employer, or simply enhance their skills in a familiar field. The internship also provides invaluable knowledge and networking experience to the students. The duration of the Industry Internship for BBA/B.COM(HONS)/BMI/MBA students will be 6 Months in their last Semester, as for BBA/B.COM(HONS) in 6th semester, BMI in 8th semester and MBA in 4th semester.

Course Objective:

This course is designed to help students explore their career concerns and opportunities for choosing their career path, develop industry specific skills and knowledge, and increase professional network. It also helps students to capture their work experiences & learning in a research format.

The objectives of the Summer Internship Program are –

- To provide an opportunity for the Students to apply the concepts learnt to real-life situations.
- To create awareness among Students about their strengths and weaknesses in the work environment.

HOD
School of Commerce & Management
Lingaya's Vidyapeeth (FBD.)

- To provide students the opportunity to develop attitudes conducive to effective interpersonal relationships.
- To give the opportunity to build a knowledge base and test one's skills by doing an internship.
- The students will have the opportunity to be exposed to the work of others within the organization and find out about additional job possibilities.
- Grow personally: a good summer internship experience can have a significant impact on personal growth by developing intellectual, interpersonal, and leadership qualities.
- Gain valuable contacts and references- Networking is an essential part of the job search process and who better to ask for a reference or contact than someone who knows your work style and habits. Getting to know people working in the career field you're interested in is easier when you're working side-by-side with them.

Prerequisites:

The prerequisite for this course is basic understanding of the research methodology and quantitative techniques.

Student Learning Outcomes:

- To gain in-depth understanding of a particular industry with exposure to various core functions
- To make them aware of the corporate culture by assigning and accomplishing time-bound projects in a company.
- To logically organize ideas and learned experiences with research insights, analysis and making conclusive business decisions
- To increase their appeal to future employers by developing skills, competencies, attitude and corporate etiquettes

The Summer Internship Process begins with:

Briefing Sessions for students

This briefing is done by the Summer Internship Departmental Committee to introduce Summer Internship and explain the process and way to work in it. It is mandatory for the students to attend the same as per the institution's schedule.

Allocation of Guides

The student closely works with three guides, Faculty guide, Industry Guide and a DRC Coordinator.

- a) Each student shall be assigned a faculty guide and a DRC coordinator for the Summer Internship by the STPR departmental committee.
- b) The student must be assigned an Industry guide by the concerned Industry wherein he/she is doing his/her Internship and the same be informed by the student within the first week of joining to his/her Faculty guide and DRC coordinator.
- c) The Student, Industry guide and faculty guide must closely interact among themselves to ensure an internship with a meaningful outcome.

Finalization and approval of area/topic of Summer Internship and schedule of activities

Summer Internship Topic may be selected from any domain/sector or any business issue relevant in the current scenario or specialization or as suggested by the company where the student is appointed as an intern. The student may have discretion in the choice of topic for the Summer Internship and the approach to be adopted.

Student will finalize the broad area/topic; synopsis and work schedule of his/her Summer Internship in consultation with the industry guide. Further, the same to be communicated to the faculty guide who shall approve it after ensuring academic requirements as laid by the Institute/University.

Progress monitoring

The progress of Summer Internship would be done weekly by faculty guide through the submitted WPR's. The WPR's to be submitted by the student every Monday for the previous week.

HOD
School of Commerce & Management
Lingaya's Vidyapeeth (FBD)

Weekly Progress Report	Every Monday
Synopsis Approval	Schedule to be notified
First draft submission to faculty guide	Schedule to be notified
Second draft submission for plagiarism check	Schedule to be notified
Final Submission of SI Report (Hard Copy)	Schedule to be notified
Final Viva Voce	Schedule to be notified

Role and expectations of students

- To commit to all the scheduled meetings and maintain 100% attendance, in order to ensure that the objective of the course is achieved.
- To create a timeline of meetings with faculty and company interactions
- To submit weekly progress reports (WPR's) to the faculty guides and report regularly
- To maintain a Project Diary that shall be attached with the final submission of the document
- To act responsibly and professionally during any kind of interaction with the organization/any employees/institutions under the study
- To represent the highest standards of professional behavior consistent with the values of the setting, including dress, punctuality, client contacts and interpersonal relationships
- To read and follow LV guidance and documentation to plan and monitor progress of the STPR, to maximize the benefit of tutorial support, and to implement the feedback and approved action plan for developing the competency for report writing
- To recognize ethical responsibilities and understand the regulations with regard to plagiarism

Role and expectations of Faculty Guides .

- To help students in choosing the topic and finalize with synopsis for the summer internship
- To help students with understanding the problem/ issue, its methodology and gain clarity with the availability of resources
- To approve the weekly progress reports(WPR's) online and provide feedback on the work progress
- To advise on the framework for the final report and brief students on the inherent ethical issues while writing a report
- To verify the credentials of the originality of the data collected for the report
- To interact with the host organization and strengthen relationships with the industry guides, if any
- To facilitate industry guides in monitoring the performance and progress of the student

Role and expectations of Industry guides

- To help students in choosing the right area to work in for the summer internship
- To help students with understanding the problem/ issue, pertaining to the subject area faced by the organization.
- To train the students in creating a record of meetings and do the follow up where ever required.
- To approve the weekly progress reports(WPR's) and provide feedback on the work progress to faculty guide.
- To explain the students about the ethical conduct while working for the organization
- To advise on the framework for the writing the reports and presentations.
- To verify the credentials and the originality of the data collected for the report
- To interact with the institution through Faculty guides and DRC coordinators to ensure the development of students.
- To facilitate Faculty guides in monitoring the performance and progress of the student

Faculty guide must try to strengthen the relationship with the host organization of the student for future training or consulting projects in that organization.

Structure for report

All students must follow the following rules in submitting their Summer Internship.

- Front page should provide Lingaya's Vidyapeeth Name, University Logo, Title, Department of Management, School of Commerce and Management, Candidate name, Supervisor, Name of the Program, Roll No. and the year of submission.
- Second Page Undertaking by the student that it is his original work
- Third Page should be the Summer Internship completion certificate from the company.
- Fourth Page would be Faculty guide certificate for guidance provided.
- Next is the 'acknowledgements'.
- Which should be followed by the table of contents giving page references for each chapter and section?
- The next page should be the table of appendices, graphs and tables giving titles and page references.
- Next to follow should be an abstract of the Summer Internship (approximately 500 words) titled: Executive Summary
- Chapter I should be a general introduction, giving the background to the Summer Internship, the objectives of the Summer Internship, the rationale for the Summer Internship, the plan, methodological issues and problems. The limitations of the Summer Internship should also be hinted in this chapter.
- Other chapters will constitute the body of the report. The number of chapters and their sequence will usually vary depending on, among others, on a critical review of the previous relevant work relating to your major findings, a discussion of their implications, and conclusions, possibly with a suggestion of the direction of future research on the area.
- After this concluding chapter, you should give a list of all the references you have used. These should be cross - references with your text. For articles from journals, the following details are required e.g. Draper P and Pandya K. 1991, The Investment Trust Discount Revisited, Journal of Business Finance and Accounting, Vol18, No6, Nov, pp 791-832.

For books, the following details are required:

Levi, M. 1996, International Financial Management, Prentice Hall, New York, 3rd Ed, 1996

- Finally, you should give any appendices. These should only include relevant statistical data or material that cannot be fitted into the above categories.
- Abstract should be of approximately 200 word. It should summarize the contents and convince the reviewers that the topic is important, relevant, and innovative.
- Body will be of approximately 5000- 7000 words. It should be divided into sub section and each section should be coherent: i.e., have a clear beginning and end and a logical connection between the content elements is must.
- Conclude by summarizing the results of your argument and their significance for the relevant issues.
- References section should list down all the citations in APA Style.

Arrangement of contents

Every report has three parts: the preliminary pages, the text, and the reference material. Each part has several sections, which are normally arranged in the order they are discussed below.

Elements of the report will be arranged in the following manner:

1. Preliminary Pages

- a. Title page
- b. Declaration
- c. Faculty Guide Approval page
- d. SI completion Certificate by Industry Certificate
- e. Acknowledgement(s)
- f. Table of Contents
- g. List of Tables
- h. List of Figures

i. Abstract

2. Text (usually divided into chapters and sections)

3. Reference Material

a. References

b. Appendix

Formatting of the report

- All reports should be printed double-spaced, Times New Roman and 12 Font size.
- Although papers are evaluated chiefly on their philosophical merits, grammar, spelling, and language will also be evaluated. You are expected to express your thoughts in clear, grammatical, English sentences.
- Content is the purpose of a paper; style and packaging can facilitate comprehension of that content, but should never distract the reader from the content.

Disciplines, Ethical issues and Plagiarism

The STPR report must be written in students own words. However, if required to cite the words of others, all the debts (for words, data, arguments and ideas) have to be appropriately acknowledged. It is mandatory that each project report shall be checked for plagiarism through Urukund or similar software before submission. The content which is based on existing published work must come from properly quoted material and from the references cited section. After checking the accuracy of the citations and references of such content the plagiarism report should not return similarity index of more than 15% in any circumstance. However, if the matching text is one continuous block, the index of 15% could still be considered plagiarism. Any report with higher than this percentage matching must be explained by the student. The details of copyrights, professional ethics are given in Plagiarism Prevention Policy of the University.

Submission of final report

The most important aspect of the courses is the final report. Therefore the following must be ensured for producing quality report.

- A. The student will start the project report / Summer Internship while doing his/her STPR course as per the prescribed guidelines.
- B. The students will submit the 1st draft of the report to the guide for guidance.
- C. The final report shall be submitted after checking plagiarism through Urukund or any other software subscribed by University.
- D. Following will be submitted along with final report:
 - WPR
 - STPR Dairy
 - Plagiarism Report
 - SI completion Certificate by Industry Certificate

Final assessment

- a) The final assessment of STPR need to be done only of those students who have qualified on the basis of Conduct and progress monitoring guidelines & Submission of report/thesis guidelines as stated above.
- b) The Final assessment will be treated as end semester examination. It is mandatory for the students to appear for final assessment as per scheduled date and time. If fail to appear in the students final assessment as per schedule, he/she will treated as absent. For such cases same rules will be applicable as those for theory examination.

Assessment criteria

A student will be eligible to submit his report and final assessment provided he/she meets following conditions:

- a. Online Registration for the STPR course
- b. Approval of Topic, Synopsis or Project Plan by the guide
- c. 90 % of WPR were submitted
- d. 80% of the WPR were satisfactory
